

AUCTION No. 240

NEW YORK INVITATIONAL AUCTION

PUBLIC SALE NO. 240

SATURDAY, JULY 24, 2004 • 1:00 PM

GRAND HYATT • PARK AVENUE AND 42ND AT GRAND CENTRAL • NEW YORK

*We buy, sell, and auction the very best in Antique Stocks and Bonds,
Autographs, Banknotes, Coins, Historic Americana, and Vintage Photography*

TERMS OF SALE

1. A 15% buyers charge will be added to the hammer price of each lot purchased.

2. All bids are per lot as numbered in this catalogue.

3. Bids less than 60% of the estimate **will not be accepted**.

4. We reserve the right to withdraw any lot prior to sale.

5. All successful bidders shall be billed for postage, handling and insurance.

6. **We cannot be responsible for the loss of any merchandise shipped outside the United States.**

7. **All framed items are shipped at the purchaser's risk.**

8. R.M. SMYTHE reserves the right to **reject any bids not made in good faith and further reserves the right to ban any bidder from participation in its sales for any reason deemed appropriate at our sole discretion.**

9. A R.M. SMYTHE auction bidder expressly waives any claim or right to any accounting, damages or compensation arising out of R.M. SMYTHE'S failure to receive or execute any bid due to exclusion from our sales, clerical errors or other causes. No bids will be accepted from any person who has not signed a registration form or a bidder sheet.

10. United States coins and currency will not, in conformity with law, be opened at less than face value.

11. No "buy" or "unlimited" bids will be accepted. We will act as agents for all mail bidders in the sale. Mail bids below the low estimate will not be reduced. Mail bids will be opened at the next interval over the second highest bid except where the intrinsic or regular market worth of the item dictates an opening at its fair market value. Floor bidding intervals will have an average increment of about 5% at the discretion of the auctioneer. "Cut" bids (bids at less than the regular bidding intervals) will be accepted, but they must be no less than half of the regular interval over the previous bid. Each bidder may make only one "cut" bid per lot, and if they are out bid, they may make no further bids on that lot.

12. In the case of a tie between a mail bidder on the book and a bidder on the floor, the mail bidder shall take precedence.

13. **All bids must be in whole dollar amounts. Percentage increases will be rounded up to the nearest dollar.**

14. **Check your bid sheets carefully. We can not assume any responsibility for errors made in the amount bid or lot numbers listed. Make sure your sheet is signed.**

15. No minors may participate in our sales. **Agents bidding on behalf of others will be held liable if their principals fail to make payment.**

16. Payment for purchases is to be made by cash, check, money order or bank wire upon receipt of invoice. No lots may be taken away unless paid for in full. A late charge of 1-1/2% per month will be charged on the invoice total if payment is not received **within 10 days** of mailing the invoice. Bidders not known to us are required to deposit 25% of their total bids in advance. **Credit cards will not be accepted for auction purchases.**

17. Title does not pass until payment in full is received. R.M. SMYTHE reserves the right to await clearance of any check before making delivery.

18. If a collection agency or attorney is required to collect outstanding accounts, all agency and court costs, witness and attorney fees and all other costs of any kind incurred by R.M. SMYTHE in procuring judgment shall be borne by the defendant. The signer of a R.M. SMYTHE bid sheet or participant in the auction concedes the jurisdiction of the courts of the U.S. in New York City or the New York State courts as R.M. SMYTHE alone shall elect. The participant in a R.M. SMYTHE auction also assumes both corporate and personal liability for unpaid auction bills.

19. R.M. SMYTHE may reopen the bidding on a lot under the following circumstances: 1) R.M. SMYTHE has failed to execute correctly a mail

bid. 2) A party purchasing the lot on the floor has done so in error. 3) Where a protest is made after the hammer has fallen but before bidding has commenced on the next lot. 4) Where the auctioneer has determined that he has overlooked a party still bidding on the lot but before the calling of the next lot. 5) At the discretion of the auctioneer.

20. In the event of dispute, the auctioneer's decision is final.

21. New York State & Pennsylvania State sales taxes or other state sales or use taxes shall be levied, as required by law. Dealers and other non residents are reminded that sales tax must be collected unless Form ST-128.1 has been filed properly, under regulations effective 1 December 1982.

22. No price adjustments will be made on the hammer price of a lot whether there is a complaint about the whole lot or only one item in it. The entire lot must be returned if a refund is to be made.

23. In the event of unsuccessful litigation the plaintiff shall pay R.M. SMYTHE'S legal costs, counsel and witness fees and all other costs incurred by it in defense against such suit together with interest on any funds expended at the New York prime rate from the date of actual disbursement.

24. The same protections applicable to R.M. SMYTHE apply to each and every one of their officers and employees unless they shall be convicted of knowingly selling false or stolen goods.

25. R.M. SMYTHE assumes no liability for merchandise lost, stolen or damaged while in the possession of a party to whom merchandise has been shipped. The purchaser is solely responsible for the safe keeping and insurance of any items in their possession.

26. All accounts are payable to R.M. SMYTHE in U.S. funds and remittances must cover the service charges for foreign drafts which shall be added to each invoice.

27. **All material in this catalogue is unconditionally guaranteed to be genuine. We will not knowingly sell any item that has been "repaired", "restored", "processed", "cleaned", "pressed", or "conserved" in any way without disclosing those facts to the potential buyer.**

28. Agents who bid from the floor for clients should examine the lots carefully, and are reminded that no lots may be returned by floor bidders except for non-authenticity. Lots described as "repaired", "corroded", "holed", "whizzed", or like damage may not be returned for any reason except non-authenticity.

29. Mail bidders may return lots for reasons of non-authenticity or improper description within 5 days of receipt or thirty days from the auction's last day, whichever comes first. Third-party graded coins (i.e. PCGS, NGC, ANACS, ICG) are **sold as is, no returns**. Failure to execute this privilege in a timely manner either from a failure to pay promptly or from any other cause shall void it. Lots sold with the proviso 'sold as is' cannot be returned. Lots valued primarily for their bullion content may not be returned.

30. In cases where a question has arisen as to the authenticity of an item, the purchaser must, before settlement day (30 days after the sale,) notify R.M. SMYTHE of his intention to return the item, confirmed in writing. The item will be examined by a recognized expert; if the item proves authentic, the sale will be consummated. If the item is not authentic, the sale price will be refunded.

31. The auctioneer reserves the right to postpone the sale by auction for a reasonable period of time as a result of any significant event which, in the sole discretion of the auctioneer, makes it advisable to postpone the event. No prospective bidder or prospective buyer shall have recourse as a result of any postponement.

32. The placing of a bid shall constitute **full acceptance of the foregoing terms and conditions of sale; all bid sheets must be signed by the responsible party.**

33. A \$100 charge will be applied for any check that fails to clear.

NEW! Most of the lots illustrated in this catalogue can now be seen in full-color on our website: smytheonline.com
Look for the catalogue link on our home page!

- 14 **1776 Dickeson Restrike "Continental Dollar". Choice Brilliant Proof.** Struck from the Dickeson die. Listed in Kennys "So Called Dollar", as K13. Pewter.

- 15 **1783 Nova Constellatio. F/VF, porous.** Pointed Rays, Small "U.S". Lots of detail with no bumps or scratches. The surface is porous on both sides, with pleasant light brown toning.

- 16 **1785 Nova Constellatio. Fine, porous.** Pointed Rays. Similar to the previous 1783, but the grade is a bit lower. Red-tan color.

- 17 **1787 Massachusetts Colonial Very Fine. Half Cent.** Medium brown surfaces. A problem-free specimen.

- 18 **1787 Massachusetts near VF. Cent.** Arrows in Left Talon". Hard, deep brown glossy planchet. Reverse die break extends through final "T".

- 19 **1788 Massachusetts Cent. Fine.** "Period after Massachusetts". Detail-wise quite nice, but there is a small reverse dent to the right of the eagle's head.

- 20 **1785 Connecticut Miller 1-E, Rarity 4. Choice EF.** Slightly dark and porous, with some planchet roughness on the check resulting from an incomplete strike. Little actual wear, but downgraded to EF for the aforementioned shortfalls.

- 21 **1785 & (?) Connecticut. VG and AG.** The first is the "Bust Facing Right" with a Fine obverse, VG reverse and with some edge damage. The second is actually G/VG (Bust Left) but with the date unfortunately worn off. [2]

- 22 **1786 Connecticut. EF.** Comes with a lot-tag from *New England Rare Coin Auctions, (Lot #3) The May Sale, May 20-21, 1977*. Tan on the obverse, the reverse a shade or so darker. Excellent definitions with minimal marks, roughness or other distractions for the grade.

- 23 **1787 Connecticut. "DB LEFT". PCGS VF-20.** on the tag of this older style holder. The light brown devices contrast nicely with the darker exergue (both sides) giving the illusion of higher relief.

- 24 **1787 New York "Nova Eborac". Fine.** Attractive hard tan surfaces with minimal surface marks. The reverse lettering and date are weak, as usually found. This is the "Figure Facing Left" variety.

Please note that a 15% buyer's premium will be added to each lot purchased.

- 25 **1786 New Jersey M-24P. VG or better.** Tan surfaces, and a surprisingly mark-free specimen considering its grade. The date is soft, as one would expect, but the "86" are obvious. Could bring around \$150.
- 26 **1786 & 1787 New Jersey PCI.** Both coppers are listed with "Environmental Damage", the first as FN-15, the other as VG-10. The dates are full and clear, as are most other details. [2]
- 27 **1787 New Jersey M-46E. F-VF.** Lovely light brown color.
- 28 **1787 Vermont "BRITANNIA". Fine.** Pit marks near the edges on both sides.
- 29 **(1792-1794) Kentucky. Fine.** Slight edge bumps. Light brown, slightly lighter toning on the high points.
- 30 **1794 Franklin Press. VF.** A few darker areas of toning are present.
- 31 **Castorland Restrikes. (1796) Silver. Uncirculated;** (1796) Bronze. **Uncirculated.** Both produced from copy dies in Paris.
- 32 **1783 Washington. Fine, slightly bent.** Draped Bust with button on drapery at neck. Fine details, but lightly cleaned years ago, and slightly bent. A scarce variety.
- 33 **1783 Washington. VG.** Small military bust, plain edge.
- 34 **1783 Washington. Fine.** "UNITY STATES". A lightly toned and evenly worn example.
- 35 **Undated Washington. F/VF. Cent.** Washington Double Head. Circa 1785. Slight edge bumps, lightly cleaned years ago.

- 36 **1791 Washington Cent.** "Washington President" on obverse, small eagle with date on reverse. Thick mahogany toning. **Very Fine.**

Beautiful Liberty and Security Penny

- 37 **1795 Washington Penny. LIBERTY AND SECURITY** on the reverse and **ASYLUM FOR THE OPPRESSED OF ALL NATIONS** on the edge. **Uncirculated.** Hints of original mint luster. This very attractive example should bring \$2,000 or more. In 1795, Kempson & Sons, the British token maker, heard rumors that the Philadelphia mint might not succeed as the supplier of coins to the U. S. government. Kempson produced tokens bearing the Presidential portrait of Washington, and exported several samples of their work for circulation in America, hoping to catch the eye of legislators or Cabinet members.

- 38 **1787 Fugio Cent.** Pointed Rays. **UNITED STATES.** Cinquefoil after date. **VF.** Struck on a defective planchet, having some cracks and laminations.
- 39 **1787 Fugio Cent.** The "STATES UNI, 4 Cinq" variety, as indicated on the PCGS tag. **PCGS VG-10.** Medium brown, the raised devices being a shade lighter.
- 40 **Assorted Lower Grade Colonials.** 1) Rosa Americana Twopence. **VG** detail, corroded surfaces. 2) 1723 Wood's Hibernia Farthing. **DEI. GRATIA. REX. Good,** holed. 3) 1723 Wood's Hibernia Halfpenny. **Fair,** with Good details, but bent, and with porous surfaces. 4) New Jersey Maris 12-G, **Fair.** [4]

U.S. Half Cents and Cents

Half Cents

Enlarged

- 41 **1802/0 G-1, Breen 2: 1-B Draped Bust Half Cent Fine.** Struck from "Spoiled cents", as per Walter Breen's commentary from his *Encyclopedia of U. S. Half Cents*. Some light markings, hairlines and crystalization are practically par for the course. Well above average for this key date despite these inherent problems. The medium brownish toning and strong details certainly suggest bidding in the range of \$1,000 or more.

- 42 **1804 Breen 9: 4-E Draped Bust Half Cent EF.** Crosslet "4" with Stems, die break through "R". Glossy deep brown *AU* with a not-too-obvious planchet flaw in hair strands. Easily an "EF" or higher.
- 43 **Draped Bust Half Cent 1805 and 1808/7.** The first piece is VG, bent and pitted. The 8/7 overdate is Breen 2: 1-B, quite clear, and grades Good with a light brown planchet. [2]
- 44 **1835 Breen 2: 1-B Classic Half Cent Choice AU.** Light brown with a nice glossy finish.
- 45 **1837 Coronet Half Cent EF/AU.** Chestnut brown toning. Listed in Yeoman's Guide Book as "Token (not a coin)". Usually included as part of the Half Cent series.

Large Cents

- 46 **1793 S-3 Chain Cent VG.** The variety with "AMERICA" spelled out in full. The first year that U.S. Cents were issued for circulation, and only 39,103 pieces struck! Smooth light brown surfaces. A thin planchet lamination (as struck) runs through the lower portion of the "3", but the date is clear and obvious. Too, all lettering and the central *chain* motif are easily readable. Fewer edge bruises and marks than normally seen on specimens of this grade. Could realize \$5,000 - \$6,000.

- 47 **1793 S-11 Wreath Cent Good.** This is as close to a text-book "Good" as can be found. All obverse lettering and date are full, though the latter is understandably weak. The reverse motto is over 50% complete and the inner details complete, but weak. A few minor depressions are added history to its 211 year-long journey. Medium brown color on both sides plus clear edge lettering add up to a perfectly *good* coin, in more ways than one. May well fetch \$1,000.
- 48 **1794 Liberty Cap VG/G.** Some reverse problems, mainly porosity, make identification by Sheldon number somewhat tricky at present. A bit irregular in color from a long-ago cleaning, there is plenty of obverse details for the collector to enjoy, not to mention the added time, and fun, of "Sheldonizing".

- 49 **1794 Fair/AG. Liberty Cap** Also, 1803, 1814, 1840 and 1851 in **VG** rough surfaces, **F/VF** with some roughness and marks, **Good** and **VF/EF**. [5]
- 50 **1794 S-58 Liberty Cap Fine.** Some rather large dents atop Liberty's head and on reverse, "O" of "OF". This is the *Many Haired*, or *Luxuriant Haired* variety.

- 51 **1794 S-22 (Rev. C) Liberty Cap AU.** This is the "Bent Hairlock" with the "Mounded Reverse" sub-type. According to Noyes "*..the die badly sunken so as to produce mounds or swelling..*" which is certainly the case here. A tan shade is evenly disbursed over both sides of this slightly porous planchet. The porosity is mainly noticeable under magnification; to the naked eye, the over all appearance is rather attractive. There is only slight wear with virtually no keg marks. Detail-wise, this is a "CH. AU". Worth a low to mid-range four-figure offering.

- 52 **1807 S-276 Draped Bust Cent VF.** Medium to deeper brown toning. The darker shades lie on the exurge, giving this handsome piece the seemingly stronger details of EF. There is a *minute* obverse edge bump at 4:00 which the collector will no doubt ignore. \$250 - \$300.
- 53 **1818 to 1856 Coronet Cents 1818, 1822, 1824.** The three grade **Good/AG** with full, clear obverses. **1832, VG. 1845, 1846, 1847.** They are **Fine** or better. **1854 VF. 1856 Fine**, but porous. [9]
- 54 **1834 Noyes 1 Coronet Cent EF/AU.** Small "8" Large Stars. Even light brown toning. A minor reverse edge bruise between "UN" takes nothing from its appearance.

- 55 **1851 N-33 Braided Hair Cent NGC MS-66 BN.** Mahogany and light violet toning is equally spread across both sides. Deep pink colors shadow parts of the head, date and some of the reverse devices. The central strike is amazingly detailed, and the peripheral areas follow the N-33 die characteristics faithfully. Only two pieces of this rare die pairing have been certified by NGC; not surprisingly, this is the finest. Worth \$1,000 or more.
- 56 **1857 Small Date Braided Hair Cent Choice Uncirculated.** Last year of the Large size cent, the Flying Eagle design being its replacement. Mintage figures show only 333,456 struck of the Large and Small date varieties, this Small Date being somewhat scarcer. Medium brown with bright orange color coming through.

Small Cents

- 57 **1857 FE Flying Eagle Cent Very Ch. to Gem BU.** A superb strike on both sides is capped off with shimmering golden-white frost. An obverse rim bruise over "ER" is mainly hidden by toning, else the Flying Eagle is first-rate.
- 58 **1857 Flying Eagle Flying Eagle Cents Choice AU.** Could just as easily be catalogued as Uncirculated, so choice is this piece. An even tan color throughout with lots of underlying lustre. Strong strike on both sides. \$125 - \$150.
- 59 **1857 and 1858 SL Flying Eagle Cents** The first is AU with a small spot in the feathers above the eagle's breast. The other is EF. [2]
- 60 **1857 to 1864CN. "White Cent" issuance and others.** There is (1) 1857FE, (7) 1859, (1) 1860, (2) 1861, (5) 1862, (8) 1863, (3) 1864 for a total of twenty-seven Copper-Nickel Cents. All are at least **Good** with full rims. Many are **VG** and a few are **Fine**. Also, an **1854 Cent** in **VG** and another in **VF** plus a **Choice AU 1874Cent** are at the end of this lot. Thirty pieces in all, sold as is. Worth close to \$300. [30]

- 61 **1859 Copper Nickel Cent Gem Brilliant Uncirculated.** Salmon-orange toning spins around the obverse and reverse fields, even when *not* held to the light. The glowing is further intensified by blue-bronze shades which intermingle with the aforementioned tones. The obverse looks perfect. The reverse is just about the same, save for that a few light central bag marks, best observed under 5X magnification. This coin will never need an upgrade.

- 62 **1859 Copper Nickel Cent Very Choice Brilliant Uncirculated.** Red/tan and whitish tones on an almost mark-free planchet. Probably had a light layer of coin oil applied long ago (no longer in evidence) giving it a glossy appearance, but almost certainly never lacquered or similarly tampered with. So sharply struck that the obverse rim forms a cup-like edge around its circumference. The feather details and all other features are superb. Worth around \$500.
- 63 **1869 Indian Cent EF/AU.** Glossy tan color with light, even wear.
- 64 **1870 Indian Cent Fine.** Medium brown toning. Spot after the *T* of *CENT* with slight reverse roughness. Nicer than the description might indicate.
- 65 **1871 Indian Cent About Fine.** Has "VF" details but the *BE* of *LIBERTY* is mostly gone.

- 66 **1872 Indian Cent About Fine.** Cleaned long ago and now settling down to a pinkish tan color. Nearly a full *LIBERTY*. Small planchet defect on neck is not distracting.

- 67 **1877 Indian Cent About Fine.** The most sought after year in this series. Glossy medium brown color, most of the letters in *LIBERTY* show, though some are quite weak. Strong feather details and a Fine+ reverse.
- 68 **1903 Indian Cent Gem Brilliant Uncirculated.** Superb golden toning with a bit of light tan on the reverse.
- 69 **1908-S Indian Cent Choice AU.** Looks like a Choice Unc that has been a trifle mishandled. The obverse has over 50% mint red/orange, the reverse has just a touch of color. Only under magnification, do some marks show up on the face.

- 70 **1909-S Indian Cent EF.** All four diamonds on the neck band are visible. Not exactly problem-free, but nice enough for a middle range circulated set. The obverse was cleaned many years ago. The color, albeit a very light tan, is returning. On the reverse, medium to dark brown tones predominate and just the edges are bright. The over all appearance would probably merit a bid in the VF range.

- 71 **1909-S Lincoln Cent Gem Brilliant Uncirculated.** Full mint bloom, as issued. There is a small, shallow bag mark in the field opposite Lincoln's nose which should *not* remove this from a Gem rating.
- 72 **1909-S Lincoln Cent VF.**

- 73 **1909-S VDB, R/B Lincoln Cent Choice Brilliant Uncirculated.** Nice glossy finish and well struck, including the "VBD". There is the smallest reverse edge bruise at 4:30. It is not noticeable when viewing the coin on a flat surface, and barely noticeable when looking at the edge of the coin.

- 74 **1909-S VDB Lincoln Cent Uncirculated.** No hairlines, just amateurishly dipped to remove toning a number of years ago. Original surfaces are still evident, and red/brown color is beginning to return.
- 75 **1909-S VDB Lincoln Cent Uncirculated.** A second unworn piece, this with an untouched surface. Some incrustation has developed by the date/MM area. Those features are nevertheless distinct. The balance of the coin has pleasant blue-brown lustre and full details.
- 76 **1909-S VDB Lincoln Cent Fine.** Struck on a striated planchet with some signs of an earlier cleaning. Still retains a pleasant appearance, the dot within the upper serif of the "S", the #4 position of the Mint Mark, the triangulated "B" of "V.D.B." and the 3.1 gram weight all pointing to its authenticity. \$450 - \$500.
- 77 **1911-S Lincoln Cent Choice AU.** A borderline Uncirculated piece, needle sharp with blue-green toning atop a rose and brown reflective surface. Nicer than many *Ch. Unc.* specimens.

- 78 **1914-D Lincoln Cent EF.** Beautiful tan surfaces with a tiny blush of mint lustre on the reverse. One of the most popular key dates in this series.
- 79 **1914-D Lincoln Cent Fine.** Pleasing light brown color and surfaces. No marks or distractions, simply an evenly worn "Fine" Lincoln. \$150 - \$175.

- 80 **1914-D Lincoln Cent VG.** Problem-free for the grade with natural tan finish.
- 81 **1914-S Lincoln Cent Choice AU.** Actually a fully struck "Choice BU" that was cleaned long ago. Orange toning is starting to re-appear.
- 82 **1917 Lincoln Cent Gem Brilliant Uncirculated.** Glowing red-orange colors are superbly framed by a band of iridescent blue around the peripheries. A single reverse bag mark above the "O" does not mar its startling appearance.

- 83 **1922 No "D" Lincoln Cent VF, or better.** A very strong example of this most desired of Lincoln errors, long before Double Dies were on the scene. Typical softness at "L" of "LIBERTY" and at the date, in addition to the central obverse puffiness, characteristic of this variety. Graded by the reverse, it is at least VF and retains the wholesome brown toning of a circulated coin from that era.

- 84 **1922 No "D" Lincoln Cent VG.** Another of this rare date. The reverse is unusually soft for this grade, the left wheat stalk blending into the rim. The collector will still have little problem with a VG rating, considering the pleasant tan toning and relatively clean surfaces.

- 85 **1926-S Lincoln Cent Very Choice Brilliant Uncirculated.** Red, orange and salmon are the primary tones on this key Lincoln. Added fire is given by light blue shades which only intensify under brighter light. Bag marks are virtually nil unless screened for under 5X magnification. The strike of this date/Mint is far better than can be hoped for. While the obverse is characteristically softer, it is full throughout with little *ghosting* (swelling) about its devices. The all-important date and Mint mark is easily readable at arm's length. Too, the reverse is quite sharp, and possibly up to "Gem" standard. Hazzarding a guess of its value is just that — a hazard. Something into four figures is certainly called for.

- 86 **1931-S Lincoln Cent Gem Brilliant Uncirculated.** Salmon-orange bloom on both sides. Perfectly struck with minimal marking.
- 87 **1936, 1937, 1938 Lincoln Cent Brilliant Proofs, Very Choice or better.** The toning varies from light gold to deep orange, the 1938 having some minor reverse spotting.
- 88 **1936 to 1942 Lincoln Cent Brilliant Proofs.** A set of seven from the "pre-modern" era, lacking the 1938 but having two of the 1940 issue. Conditions vary greatly and careful viewing is a must, prior to making bids. The 1936 has old hairlines and is lightly toned, the 1937 and 1939 are orange and not quite *Choice*, as is one of the 1940 Proofs. The other 1940 is *Very Choice*. The 1941 is a *Gem*, save for that of a reverse toning spot on the edge at 7:30. Last of all, the 1942 is somewhat mottled, but still near *Choice*. [7]

- 89 **1955/55 Lincoln Cent Uncirculated, brown.** A classic rarity. The obverse is blue-brown and glossy, more towards the "Choice" category, than not. The reverse lacks the desired finish for a higher grade; perhaps a little *conservation* would be in order.

Two-Cent Pieces, Three-Cent Silver and Nickel Pieces

Two-Cent Pieces

- 152 1864 to 1870. Two-Cents.** A total of sixteen pieces which include (4) 1864, (5) 1865, (2) 1867, and one each of 1868, 1869 and 1870. The above fourteen pieces will easily average VG with the lowest grade G+. Ending this group are two 1865's in EF or better. Probably worth \$150 - \$200. Sold as is. [16]
- 153 1865 and 1866 Two-Cents Choice AU or better.** The first has been cleaned, the second is lightly hairlined under a blue-brown surface. A nice pair of common dates to begin a moderately priced set. [2]
- 154 1872 Two-Cents VF.** By far, the rarest date (65,000) struck for circulation.

Silver Three-Cent Pieces

- 155 1851 Choice Brilliant Uncirculated.** Obviously new, but probably laying in a drawer for over a century and a half. Still has a goodly amount of reflectivity.
- 156 1851-1858 Three Cent Silver.** A breakdown of the ten pieces in this lot is as follows: 1851, Fine. 1851-O, AG. 1852, Good. 1853, VG. 1854, VF. 1855, VG. Another 1855, VF. 1856, Fine. 1857, G/VG. 1858, EF. Most are lightly toned. [10]

- 157 1854 Three Cent Silver PCGS MS-64.** Golden-tan and white Mint frost. Struck unusually well for this sub-type.

- 158 1857 Three Cent Silver Brilliant Proof.** White with a bit of tan toning mostly on the obverse. Very scarce, as are all Type 2 trimes.

- 159 1862/1 Three Cent Silver Gem Brilliant Uncirculated.** Violet-orange and white frost with some blue overtones. Sharply struck, the overdate is best observed under high magnification, as usual. The reverse has a thin untuned area atop the wire edge at 12:30. It appears to be natural in every respect. \$500 - \$600.
- 160 1872 Three Cent Silver AU,** very light obverse scratch. Nicely toned, and quite attractive. Only 1,000 were struck for circulation, making this the lowest mintage regular issue in the series.

- 161 1872 Three Cent Silver PCGS PR66, CAM.** Lightly toned and conservatively graded. Popular and scarce first year type coin. \$2,000 - \$2,500.

Three-Cent Nickel

- 162 1866 and 1888 Three-Cent Nickel** Two of the 1866, one in G/VG, the other Ch. AU with some old glue on the obverse. The 1888 (41,083 struck) is VF. [3]

- 163 1871 Three-Cent Nickel PCGS PR-64.** Light gray on the obverse, untuned on the reverse. A scarcer date in Proof.

- 164 **1883 Three-Cent Nickel PR PCGS 66, CAM.** A superb and fully brilliant type coin.

- 165 **1886 Three-Cent Nickel Gem Brilliant Proof.** Not your typical "Gem". As satin-white as the day it was struck, this Proof-only date is virtually flawless. Should receive a bid in excess of \$400.

Half Dimes

- 167 **1831 Capped Bust Half Dime NGC MS-64.** Thick, consistent gray lustre cover both sides of this needle-sharp specimen. Some deep orange and blue overtones add to its appearance. No marks other than die-breaks are visible, even under 16X magnification.
- 168 **1832 Capped Bust Half Dime NGC MS-64.** Heavier gray tones than the previous piece. White flashing about the stars are indicative of the underlying lustre.
- 169 **1833 and 1853 Arrows Capped Bust Half Dime s.** The first is AU and lightly polished with a hairline under the eye. The "Arrows" type is also AU, Choice and with a full head, but lightly cleaned. [2]

- 170 **1834 V-2 Capped Bust Half Dime Gem Brilliant Uncirculated.** Thick white lustre on both sides with very little toning, save for that of two light spots in reverse letters. This is apparently from a later die stage; the denticulation blends into the fields while all other details are perfect. A "weak strike" would not produce such characteristics; even the edge reeding is perfect. Bag marks are virtually non-existent, as would be expected of these light weight (1.35 grams!) coins. A tiny, but beautiful common date specimen for a type set.

- 166 **Two-Cent and Nickel Three-Cent Piece Collections in Blue Whitman Album.** Two-Cent Pieces: 1864 Small Motto **VG**; 1864 Large Motto **VF** rim scrape on back; 1865 **EF** with dark toned patches; 1866 **VF** porous surfaces; 1867 **EF**; 1868 **VF** with some surface problems; 1869 **Choice VF**; 1870 **VF** but very porous; 1871 **Fine**. Three-Cent Nickel Pieces: 1865 **Fine**; 1866 **Fine**; 1867 **VG-Fine**; 1868 **VG**; 1869 **VG-Fine**; 1870 **Fine**; 1871 **Fine**; 1872 **VG-Fine**; 1873 **VF**; 1874 **VF-EF**; 1875 **Fine**; 1876 **VF-EF**. [22]

- 171 **1858 Liberty Seated Half Dime, Stars PCGS MS-65.** In an older styled holder. Fully struck, concomitant clash marks and all, with extraordinarily opalescence! Orange gold and blue are the dominant obverse shades, while gold, red and blue-green reflect off the reverse. One of the more common dates of this series, but a welcome addition to any Gem type set.
- 172 **1867 Liberty Seated Half Dime, Legend Choice Brilliant Proof.** Lightly toned and with a bit of a cameo effect.

- 173 **1871 Liberty Seated Half Dime, Legend Choice Brilliant Proof.** A nice cameo example with attractive toning.

U.S. Nickels and Multiple-Item Nickel Groups

Nickels

- 174 1868 Shield Nickel Gem Brilliant Uncirculated.** A very early and strong die strike for this high-mintage date, often seen with severe cracks on either side. White, with only the lightest tan toning starting to show on the lower-middle right portion of the obverse. The reverse is so brilliant, it looks *whizzed*, until 16X magnification reveals that minute, raised lines go *under* the devices (from Mint die-polishing)) and not *over* them.

- 175 1878 Shield Nickel Very Choice Proof.** Unusual matte surfaces. Evenly textured, there is not a hint of the typical mirror-like brilliance generally found on these Proof-Only issues. Only 2,350 pieces struck.
- 176 1883 Shield Nickel MS-60,** with just a hint of light lavender toning.
- 177 1883 NC Liberty Nickel Gem Brilliant Uncirculated.** Superb iridescence! A single small spot under the ear from perfection.

- 178 1883 NC Liberty Nickel PCGS PR 65, Cameo.** A fresh and untoned example of this popular one year type coin.
- 179 Liberty Nickels Unc to Ch. BU. 1883 NC, 1909, 1911, 1913 T1, 1913 T2.** Most are toned to various shades of gray. [5]

- 180 1884 Liberty Nickel Gem Brilliant Uncirculated.** One of the scarcer dates in this short, but beautiful and highly collectable series. Frosty, non-Proof Like fields. The toning is for the most part pink-orange, the portrait standing out in whitish-gray relief. The strike is as extraordinary as the pristine surfaces. The only noteworthy observations are minute die breaks.

- 181 1885 Liberty Nickel Good.** The key date of the 1883-1912 series. The date and peripheral reverse lettering are all clear, although "OF AM" is weak.

- 182 1892 Liberty Nickel Brilliant Proof.** Very Choice at first glance with grayish gold toning. There are a few hairlines in front of Liberty's nose which can easily go unnoticed.

- 183 1911 and 1935-S Nickels.** An odd pairing, just the way it arrived. The 1911 nickel is a Proof, probably Choice but with very thick ash-gray toning. The 1935-D is Ch. BU, toned, but not deeply. [2]

- 184 1912 Liberty Nickel Gem Brilliant Uncirculated.** Light rose and gold toning. Well struck for this normally weak year. \$300 - \$350.

- 185 1912 Liberty Nickel Choice Proof.** A somewhat irregular strike, though the surfaces are pleasant and lightly toned.

- 186 1912-D Liberty Nickel Gem Brilliant Uncirculated.** A superbly struck, white and virtually perfect example. Has that slight obverse convexity, characteristic of this one-year type Denver issue. If a coin were to be selected from a forty-piece roll back in 1912, this would be it.

- 187 1913-D T1 Buffalo Nickel NGC MS-64.** Grayish white reflectivity is obvious on both sides; a bit of light tan toning lies above the bison's shoulder. Perfectly struck.

- 188 1913-D T1 and 1913 T2 Buffalo Nickel** The first is **Ch. BU** with slight flatness above the bison's horn, the last is **BU**. [2]

- 189 1914, 1923, 1925 Buffalo Nickels Very Choice Brilliant Uncirculated.** Mostly creamy white or with a little golden toning. The last piece has small fly specks. [3]

- 190 1916-D Buffalo Nickel Choice AU.** The date, braid, much of the feather detail and *LIBERTY* are strongly doubled to the left side of the coin. Whether or not this is a very unusual die recutting or a doubled-die cannot be said. It should be looked at very carefully, the successful bidder making the ultimate determination. Sold as is.

- 191 1918/17-D Buffalo Nickel Good.** A full date. The 1-9-1-8 is separated, though obviously quite worn. The 8/7 feature (what else counts?) is readable from a foot away. Every other feature precisely fits the A.N.A.'s photograph and terminology for this grade. The light color and perfect texture is exactly as one would expect; there are no scratches, edge bruises, spots or *anything* outside of normal wear.

- 192 1924-D Buffalo Nickel PCGS MS-64.** Glossy rose and gray tones highlight both sides. The obverse is sharper than the reverse, typical of this date/Mint. Nevertheless, both horn and tail-split are fully evident.

- 193 1924-D Buffalo Nickel Gem Brilliant Uncirculated.** Glossy white surfaces are tinged with a orange-blue shade and the reverse is untoned. Better than average details, though not needle-sharp. The horn is full to the point while the tail split blends into the bison's hind quarters. There is a planchet irregularity however, which may make it a little difficult to put into terms of dollar value. A lamination appears under the "C" of "CENTS". Extending to rim under "N".

- 194 1925-S Buffalo Nickel PCGS MS-64.** Very light blue, white and golden overtones. Virtually free of any marks or blemishes, perhaps only the usual weakness around the bison's horn may be worthy of comment.

- 195 1926-S Buffalo Nickel AU.** Pointed horn and tail split are the main plus factors for this rare date/Mint. A little too "brilliant" under the gold and white tones to be natural, so any considerations of *Choice* in its appellation must be ruled out. Still very attractive and a worthwhile addition to a top-grade circulated set.

- 196 **1936 T2 Buffalo Nickel NGC PF-66.** The second variety of Proofs made this year, this with a mirror (instead of matte) finish. It is difficult to find any other color other than white on this piece; perhaps a little blue is in evidence. The extraordinary reflectivity befits NGC's designation.

- 197 **1937-D 3-Legged Buffalo Nickel Brilliant Uncirculated.** Not the rarest, but arguably the most famous of the "Buffalo" (bison) nickels. Gray and gold toning with just a few light and inconspicuous bag marks.

- 198 **1937-D 3 Legged Buffalo Nickel EF/AU.** The point of the horn is sharp to the tip, and the tail is partially split. The obverse is naturally whitish-tan but the reverse has been cleaned a bit. A pronounced scratch to the left of the bison's shoulder finds its way to a place just above Black Diamond's hind leg. There are no scratches or marks in the all-important missing leg area.

- 199 **1937-D 3-Legged Buffalo Nickel VF.** Light to medium gray toning with no problems, just moderate wear.
- 200 **1937-D 3 Legged Buffalo Nickel VF.** Similar (but a grade lower) to the previous piece, but with lots of old, tiny scratches affecting mainly the obverse.
- 201 **1942-1945 War Time Set Jefferson Nickels Very Ch. to Gem BU.** In black plastic holder. An eleven piece set. Mostly white or with little toning.

Multiple-Item Nickel Groups

- 202 **Circulated Liberty Nickels. 1883-1912. Mostly Good.** There are some culls, and an occasional better grade. Should be seen. [58]
- 203 **Complete Set of Liberty Nickels 1883-1912-S in a Green Meghrig Album.** The 1883 With Cents is **AU**, but scratched and initialed on the back; 1884 **VG**, some dark areas; 1885 **Good**, minor discoloration; 1886 **Good**; 1888 **EF-AU**; 1894 **BU**; 1897 **Fine**, but dark; Almost everything from 1897 on is at least **Fine**; The 1911 is **Uncirculated**; 1912-D **Good**; 1912-S **Fine**, with some darker patches; Also included is an 1867 Shield Nickel Without Rays **AU**, and a "Racketeer Nickel" **VF**. [35]

U.S. Dimes, Multiple-Item Dime Groups and Twenty-Cent Pieces

Dimes

- 222 1820 JR-11 Cap Bust LS Choice Brilliant Uncirculated.** Rated as R-3. Gold and blue toning over frosty surfaces, some darker orange shades can be found on the upper reverse. Only the most trivial keg (or bag) markings are noticeable, and mainly under magnification.

- 223 1855 Arrows Dime 1838-1860 Gem Brilliant Uncirculated.** Sharp definitions on both sides, including head and stars, with a partial wire edge. Light golden toning with some darker shading in the denticals.

- 224 1857 Dime Gem Brilliant Uncirculated.** Deep blue-graphite lustre with bright orange highlights, especially in the central reverse area. The thick toning is reminiscent of album storage over many decades, which is most likely the case. There are no visible bag marks, even 7X magnification reveals practically nothing.

- 225 1876 Dime Gem Brilliant Uncirculated.** A bright orange center is circled by a band of blue-green lustre, while the reverse is speckled in similar shades, with graphite interspersions. Perfectly struck on both sides, this centennial dime is fit for the finest of collections.

- 226 1891 Dime Choice Brilliant Uncirculated, or better.** Equal to a Proof in reflectivity, but the devices and edge reeding are soft and rounded, as in any circulation strike. Golden toning, a bit darker towards the edges. \$150 - \$200.

- 227 1892-O Barber Dime Choice Brilliant Uncirculated.** Light grayish toning does not obscure the underlying lustre. Unusually sharp with full obverse wire edge and partial reverse wire edge.

- 228 1909 Barber Dime PCI PR-65 Cameo.** A relatively untuned Liberty's head stands apart from the multi-colored iridescence in the field. Reverse colors are the same; the center is mostly white to light gold. An outstanding piece which glitters all the more in bright light.

- 229 1916-D Mercury Dime Good.** Layers of soot with red, violet and blue colors from album storage cover most of the reverse. Too, the lettering is distinct, though "AMERICA" is worn half way up. The obverse is mostly gray, but still reflecting some color.

- 230 1920-S FSB Mercury Dime Very Choice Brilliant Uncirculated.** The surfaces show extensive die reworking and file marks, which were made to remove signs of clashing. A harmless "dipping" removed some tarnish. Strong details are the final result, and this includes all features along with the Full Split Bands. Extraneous marks are minimal, as would be expected for this grade.

- 231 **1942/41 Mercury Dime Choice AU.** Dipped a bit, but still attractive enough to rate *Choice*. Sharp in all respects including the raised, but not split, central bands. Natural looking gray tones are beginning to return. Only has trivial circulation marks.

- 232 **1942/1 Mercury Dime VG/F.** The fasces rods are complete, though a 7X glass is needed to see the splits. A rim bump under the "M" of "DIME" must be noted.

Sold as is, no returns. [5]

- 239 **Circulated Roosevelt Dime Rolls.** 1946-S; 1947-S; 1948-S; 1949; 1949-D; 1949-S(4). Average **VF** or so. [9]

U.S. Quarters and Multiple-Item Quarter Groups

Quarters

- 245 1818 (Browning 6) Capped Bust Quarter, Large Size NGC MS-64.** Satin white lustre cartwheels its way across both sides of this near-Gem specimen. Natural inclusions and die-breaks are the only characteristics which can be commented upon, so pristine are the surfaces! More to the point, the Browning 6 variety is described as "*..very rare..*" and the Condition Census numbers are listed as "60, 60, 58, 55, 50, 45". It will be left to the collector to do further research, regarding its present rarity rating. Nevertheless this specimen must rate amongst the highlights in our silver coin section, and an offering in the middle to upper four-figure range, justly deserved.

- 246 1834 Capped Bust Quarter, Small Size AU.** Brushed to give it a Mint State look, there is not a design detail missing from this coin. Some color is beginning to return. Outside of a Gem BU, the collector is not apt to locate a sharper specimen, especially a circulated one.
- 247 1838 Capped Bust Quarter, Small Size EF/AU.** Last of the Capped Bust design. Free of the heavy die breaks and weaknesses often encountered in this year. The originality of its blue and gold colors are not altogether convincing, but its attractiveness is undeniable nevertheless. \$250 - \$300.

- 248 1840-O No Drapery Liberty Seated Quarter Choice Brilliant Uncirculated.** Very scarce in this state of preservation. Gray to white at the obverse center, the toning deepens to a light steel-blue shade towards the stars. The same steel-blue shade is on the reverse, but the central portion has deep rose reflectivity, from long-time album containment. An excellent strike for this normally soft "O" Mint, and practically free of contact marks, as well.
- 249 1853 A/R, 1854 Arr, 1877 Liberty Seated Quarters** Fine, VF with some scratches under the toning, and VF/EF. [3]

- 250 1853-O Arrows & Rays Liberty Seated Quarter PCGS MS-63.** Deep shades of orange and blue toning, more of the former color on the obverse and the latter on the reverse. The New Orleans Mint issue is far rarer than its Philadelphia counterpart, a check on mintage figures alone will show more than a ten-fold difference. Present bidding ranges for this grade are \$6,000 - \$7,000.

- 251 1854 Arrows Liberty Seated Quarter MS-64.** White surfaces are wedded beautifully to its sharp definitions. Bag markings are minor, and some light toning streaks fade away when the coin is tilted at angles. Die-breaks, ubiquitous in this series, are very faint and of no importance. \$1,750 - \$2,000

- 252 **1861 Liberty Seated Quarter PCGS PR-62.** Essentially white with pale rose overtones. Superb eye appeal for a "62" grade.

- 253 **1876-S Liberty Seated Quarter, With Motto Gem Brilliant Uncirculated.** Whether or not there has been augmentation to the color is probably moot, in this instance. The surfaces are all but perfectly free of hairlines, scuffs or any problems and the devices (particularly on the obverse) seem to be in high relief. There is a surrealistic glow to the violet and blue shades. Should be viewed before bidding.

- 254 **1884 Liberty Seated Quarter, With Motto Gem Brilliant Proof.** Blue predominates in a kaleidoscopic arrangement of violet, mauve, orange and other obverse shades. The reverse is mostly blue-green at the periphery with a central display of mauve-lilac tinting. If there are any blemishes on the surface, they are certainly irrelevant. Price guides belong in a circular file. This should fetch several thousand dollars.
- 255 **1909-D Barber Quarter Choice AU,** with just a touch of light toning. Sharply struck and attractive.
- 256 **1916-D Barber Quarter PCGS MS-63.** Lightly toned. In an old PCGS holder.

- 257 **1916 Standing Liberty Quarter VF.** A lovely and lightly circulated example of this classic 20th Century quarter. Light gray on the obverse, the reverse a few shades darker from being stored in a Whitman uniface blue album. This was a common way of collecting decades ago. The wear on this 52,000-mintage piece is uniform on both sides without a single mark, nick or distraction of any sort. The highlight of any Standing Liberty quarter collection!

- 258 **1917 T1 Standing Liberty Quarter Very Choice BU, Full Head.** As well, the shield and rivets are complete. Whitish gray frost with a bit of peripheral amber toning. Some darker shades are at the reverse edges. A near-Gem example of this famous bare-breasted design. \$300 - \$350.

- 259 **1917 T1 Standing Liberty Quarter Very Choice BU, Full Head.** Fully white, else a twin to the previous lot—possibly better.
- 260 **1917 T2 Standing Liberty Quarter Brilliant Uncirculated, Full head.** Probably dipped several times, but still has fairly nice surfaces.

- 261 1917-S T2 Standing Liberty Quarter PCGS MS-65.** Gold-rose iridescence highlight the thick, creamy surfaces.

- 262 1918/17-S Standing Liberty Quarter VF+.** The second rarest piece in this series, and not far behind the 1916. From the same Whitman set as the latter coin, the toning on the reverse is darker. Though once polished on the obverse, it is now beginning to take on a mellow tone. The overdate is crystal-clear, the other details sharp enough to merit a rating closer to EF than that of VF.

- 263 1921 Standing Liberty Quarter F/VF.** The date soft, but complete from top to bottom, and separated. Light on the obverse from an old cleaning, gray with some golden toning on the reverse.

- 264 1923-S Standing Liberty Quarter EF.** Polished long ago, now toned back naturally to a gold and tan shade. The reverse is just a bit darker, the result of Whitman album storage. Even with the cleaning, this piece is strong enough in its details and attractive enough in its color to probably rate *Choice*.

- 265 1924 Standing Liberty Quarter Very Choice BU, Full Head.** Sharp in every area save for that of the date. The final year of this sub-type, the date was recessed in 1925. The obverse is white with only moderate reflectivity, the reverse is grayish white.

- 266 1926-D Standing Liberty Quarter Very Choice Brilliant Uncirculated.** Mostly white with some tan shades on the obverse. Stronger than most of this date/Mint, a one-half to two-thirds head showing.

- 267 1929-S Standing Liberty Quarter Very Choice Brilliant Uncirculated.** The head is at least 75% full. Lively white lustre with cartwheel effect, a tad of beige color near the obverse edges. Could bring \$200 or so.

- 268 1930 Standing Liberty Quarter Very Choice BU.** A flashy, white three-quarter head example of the Type III design. \$150 - \$175.

- 269 1932 to 1982, all Mints Washington Quarters Very Choice to Gem BU.** Housed in a brown Dansco "World Coin Library" album, this lovely set is white, or with very little toning. Some of the later Proof "S" Mint coinage has taken on a golden hue. The highlights are a Very Choice **1932-D**, a Gem **1932-S**, **1936-D**, **1937-S**, **1940-D** and others too numerous to mention.

- 270 1932-D Washington Quarter Brilliant Uncirculated.** May have been expertly dipped years ago, but still retains a great deal of cartwheel spin on its slightly toned surfaces. Very few bag marks for this grade, which some might see as a point or so higher.

- 271 1946-S Roll Washington Quarters Very Ch. BU.** Forty pieces in early paper wrapper. Original roll. [40]

- 272 1948-S Roll Washington Quarters Very Ch. BU.** Forty pieces in early paper wrapper. Original roll. [40]

- 273 1950 Washington Quarter Gem Brilliant Proof.** White, as though just made. Looks perfect.

U.S. Half Dollars and Multiple-Item Half Dollar Groups

Half Dollars

- 280 1807 O-102 Draped Bust Half Dollar, Heraldic Eagle Choice AU.** The obverse (see Overton plate) has some die-swelling. Excellent gold-gray lustre with a trace of blue-green toward the edges. The reverse has similar shades, with bright red in scattered areas. Typical of this variety is the strong reverse details; the breast feathers can be seen individually, the shield lines (both horizontal and vertical) are complete, wing feathers full, etcetera. A superb, lightly circulated example of this R-2.

- 281 1807 O-103 Draped Bust Half Dollar, Heraldic Eagle VF+.** A pleasing example of the final issuance for the Draped Bust type. Grayish orange toning, the reverse especially lustrous and well detailed. Worthy of a \$350 to \$400 offering.

- 282 1808/7 O-101a Capped Bust Half Dollar Choice BU, or better.** White and graphite reflective surfaces, most of the darker shades (grayish blue from album storage) located at the peripheries. The surfaces have few contact marks, and none causes distraction. The die cracks, centering dots and other Overton characteristics are perfectly defined and match well to the plate coin. Worth a bid of \$3,000 - \$3,500.

- 283 1810 O-104a, Rev. D-s2. Capped Bust Half Dollar AU.** Medium gray with some orange lustre in the stars and lettering. Well struck, considering its very late die state. Practically free of bag marks.

- 284 1812 O-105 Capped Bust Half Dollar AU.** The "Plain Date". Gray toning, slightly darker towards the obverse edges. Some early signs of cleaning go practically unnoticed. Still worth \$200 or so.

- 285 1815/2 O-101 Capped Bust Half Dollar Choice EF.** Easily this grade, or better. The scant mintage of 47,150 makes the year 1815 the rarest regularly issued half dollar from 1803 to date! Reflective orange and gray toning cover remarkably defect-free surfaces, considering that this is a circulated coin. 5X magnification reveals little other than inherent die-clashing. An offering of \$2,500 to \$3,000 would not be unreasonable for this lovely specimen.

- 286 1817, (5) 1834, 1836 Capped Bust Half Dollar** The first is a Plain Date which grades G/VG. The 1834's are mixed SD and LD varieties, one grading VF, another EF with a small obverse edge bruise at 7:00, the remaining three are VF/EF. The last piece is a Lettered Edge grading VF and with a few dark spots on the obverse. [7]

- 287 1825 Capped Bust Half Dollar Brilliant Uncirculated.** Nice original toning with some discoloration on the high points but no signs of circulation.

- 288 1826 O-102 Capped Bust Half Dollar Choice AU.** Rose-gray lustre dominates most of the obverse while various shades of light blue and orange highlight the reverse. Just a bit of friction and some reverse edge irregularities at 1:00 remove this from Uncirculated. Still pretty enough to fetch \$150 - \$200.

- 289 1828 O-116 Capped Bust Half Dollar Very Choice Brilliant Uncirculated.** The Square base "2" Small "8" variety. Creamy white reverse surfaces, the obverse with a delicate shade of orange and blue around most of the periphery. Struck sharper than the Overton plate coin, the surfaces are practically flawless but for a shallow 5mm horizontal hairline scratch that runs from the right of the eagle's head, under the scroll, and connects to the lower left serif of *E* in *AMERICA*. A Gem, but for this mark.

- 290 1829 O-104a Capped Bust Half Dollar Choice EF.** One of the better varieties of this year, Overton lists this "Clogged A's" type as R-4. With its white lustrous finish, "AU" would be a more proper appellation but a thin hairline in the field from star 1 to star 7 necessitates this downgrade.

- 291 1830 O-115. Capped Bust Half Dollar Brilliant Uncirculated.** The small "O", with die defect lines under Liberty's drapery folds. Sharply struck (as this variety frequently comes) with sparkling white frost. There is a bit of friction on the cheek, probably the result of an acetate slide mark from album storage. Attractive nevertheless. Should bring several hundred dollars.

- 292 1831 O-104 Capped Bust Half Dollar NGC MS-63.** The Overton variety is not listed on the holder. Glossy blue and orange tones, somewhat deeper on the reverse. A splendid example, and worth over \$1,000.

- 293 1831, 1836 Lettered Edge Capped Bust Half Dollar Choice EF.** Both are well struck for the grade, the first piece with a lighter shade of gray than the last. [2]

- 294 1836 Capped Bust Half Dollar AU.** Last year of the Lettered Edge style. Choice AU details. Light polishing but still maintains good eye-appeal.

- 295 1837 Capped Bust Half Dollar, Reeded Edge Choice Brilliant Uncirculated.** Sooty obverse toning areas give the illusion of rubbing (on cheek, for example) but such is not the case in this instance. Mostly white with glossy rose-gray overtones. Similar but deeper tones highlight the reverse, with a peripheral band of blue giving it the requisite finish for this select grade. Should bring in the \$900 to \$1,000 range.

- 296 1839 Reeded Edge Capped Bust Half Dollar, Reeded Edge NGC MS-64.** White with just a blush of light tan toning. A razor-sharp impression of Liberty's hair and the eagle's feathers further add to its charm. A short (1836 - 1839) and popular transitional issue, both in design and hydraulic manufacture.

- 297 1839-O Capped Bust Half Dollar, Reeded Edge EF.** In a stapled holder (Lot #1512) untouched since its purchase from "The Robert C. Hall Estate", Bowers and Ruddy Galleries, sale of October 26-28, 1978. Uniformly gray in color, with just a bit of orange toning circling the edges. \$400 - \$450.

- 298 **1853 Arrows & Rays Liberty Seated Half Dollar, No Motto NGC AU-58.** Looks like a fully-struck and frosty Choice BU, but *actually does have wear!* In many ways, a coin like this can be a better (and far less expensive) representation in a type set than one four grades higher.

- 299 **1861 Liberty Seated Half Dollar, No Motto Gem Brilliant Uncirculated.** Golden gray obverse surfaces with a gorgeous graphite blue reverse. The strike is fully equal to a Proof, though the frosty surfaces speak accurately of its manufacture. A wire edge extends from 5:00 to 10:00, half way through *UNITED*. Bag marks are hardly distracting, and not a problem, considering that this piece was made for circulation.

- 300 **1861 Liberty Seated Half Dollar, No Motto Choice AU.** Light gray toning. Sharply defined, down to the hair strands.

- 301 **1883 Liberty Seated Half Dollar, With Motto NGC PR-64.** A very even shade of blue-gray covers the obverse, the superb watery textures revealed upon tilting. The reverse is similar but has a slightly more purple shade in its center. Probably a Gem; the only flaws seem to be on the holder.

- 302 **1895 Barber Half Dollar NGC MS-64.** Mostly white with a slight, pleasant gray overcast. Extremely sharp details. A difficult date to find.

- 303 **1912 Barber Half Dollar Choice Brilliant Uncirculated.** Some *trivial* acetate slide marks on the cheek, otherwise a grade or two higher with its glowing orange-white surfaces and sharp definitions. Pretty!

- 304 **1916-D Walking Liberty Half Dollar Uncirculated.** Judging by the deeply toned reverse, it was at least a Very Choice Uncirculated specimen before someone decided to clean the obverse. Perhaps *dipped* is a more appropriate term since a fair amount of Mint reflectivity still remains. Most perplexing is the Mint mark which may have another *D*, or possibly an *S* under it. There is enough here to keep the "Walking Liberty" enthusiast busy for a time. Should be carefully reviewed before bidding.

- 305 **1917-D Obverse Walking Liberty Half Dollar Uncirculated.** In need of restoration. There *is* Mint lustre under the green grime. The collector will just have to dip-'n-pick his way to it. Otherwise, the details are pronounced and extraneous contact marks virtually nil. For a few hundred dollars or so, this is worth the challenge.

- 306 **1917-D on Reverse Walking Liberty Half Dollar Very Choice Brilliant Uncirculated.** Satin-gray surfaces with some tan toning on the *BERT* portion of the obverse, and some lighter shades in that general area. Well struck on head, with nice hand-thumb separation.
- 307 **1934-D Walking Liberty Half Dollar BU+.** Has the look of a *Very Ch. BU*, but was expertly restored. Still sharp and very attractive.
- 308 **1935, 1943, 1944-S, 1947 Walking Liberty Half Dollars Ch. to Very Ch. BU.** Light to medium toning, the 1944-S with a planchet defect on eagle's leg. [4]
- 309 **1935-D Walking Liberty Half Dollar NGC MS-64.** A borderline gem with only a bit of weakness on Liberty's head.

- 310 **1936-D Walking Liberty Half Dollar PCGS MS-66.** Fabulous white surfaces, minimal bagging signs and a strong impression all contribute to a superb Mint State example. Worth \$750.

- 311 **1936-S Walking Liberty Half Dollar PCGS MS-65.** Again, a white frosty Gem, but a notch lower than the Denver Mint just offered. Nearly worth the same.

- 312 **1938-D Walking Liberty Half Dollars VG to VF.** Fourteen pieces, all attractive save for that of one cleaned coin having a noticeable obverse edge bump under the "8". Two others have trivial edge marks, else this group of circulated semi-key WL's is quite wholesome. [14]
- 313 **1939 to 1945 Walking Liberty Half Dollars 1939, 1939-D, 1940-S.** The three are Ch. to Very Ch. BU, mostly white and bright. **1941-S** BU, flat center strike. **1942-S**, Ch. AU. **1945** and **1945-D**, both Very Ch. Unc., the former dark, but reflective. [7]
- 314 **Walking Liberty Half Dollars 1939-D, two pieces.** One grades **Choice BU**, the other **Very Choice BU**. **1939-S, Choice BU** with a long scuff mark in upper right obverse field. **1942-S, three pieces.** Two are **Ch. AU**, the other **Ch. BU** with reflective violet and orange toning. The last piece is a **1944-D** in **Very Choice Uncirculated** with deep steel gray lustre. The strike is superb. [7]
- 315 **1939-D and 1939-S Walking Liberty Half Dollars** Uncirculated, mostly Very Choice. **Two** of the "D" **Mint**, both are Very Choice. **Four** of the "S" **Mint**, one Unc., two Ch. Unc. and one near-Gem BU with vibrant purple and russet toning. [6]
- 316 **1939-S Walking Liberty Half Dollars VF to Ch. AU.** An unusual offering of twenty mixed grades. Two of the pieces are toned Mint State, probably **Choice** or better. [20]
- 317 **1939-S to 1946-S Walking Liberty Half Dollars A dozen WL Half Dollars as follows:** (2) **1939-S**, one Ch. AU, the other Very Choice Unc. One each of the following: **1939-D**, Very Ch. Unc. **1942-D**, AU. **1942-S**, EF. **1943-S** and **1943-D**, Unc. **1944-D, 1944-S, 1945**, all three Very Ch. Unc. **1945-S**, Ch. Unc. **1946-S**, Ch. Unc. with planchet flaw (as struck) at 7:00 on the obverse, and corresponding reverse area. The toning is generally quite dark on the above. Inspection is important. [12]
- 318 **1940-S and 1941-S Walking Liberty Half Dollars BU to Very Ch. BU.** Four of the first and six of the last. All are white, or with traces of toning. The centers are weak on three of the four 1940-S pieces, and **BU** would be an appropriate grade. The fourth piece is **Very Choice BU**, even though the hand separation is not complete. Five of the six 1941-S pieces are also weak at the centers, but significantly sharper than the 1940-S. The one exception is also a **Very Choice BU**, and this piece has full separation. [10]

- 319 1941-S to 1945-S Walking Liberty Half Dollars AU to Ch. AU.** This is a fun group for the collector! There is one each of 1941-S and 1942-D, six of 1942-S, four of 1943-D and sixteen of 1943-S. The group ends with three of 1944-D and one of 1945-S. The toning will vary, and some have been dipped. Still, details are quite bold and in a few instances, an Unc. may be found. [32]
- 320 1942-D and 1942-S Walking Liberty Half Dollars Choice AU.** Ten of each date/Mint. Some of the 1942-S pieces are soft at the centers, as would be expected. There is a variety of toning and some have been cleaned long ago. One of the 1942-S has bad scratches on the reverse. There might be an Unc. or two in this lot. [20]
- 321 1943 Walking Liberty Half Dollar Very Choice Brilliant Uncirculated.** Seven pieces, white or with little toning. Some may be Gem. [7]
- 322 1943 Walking Liberty Half Dollar Very Choice Brilliant Uncirculated.** Seven pieces, very similar to the previous group. [7]
- 323 1944, 1945, 1946 Walking Liberty Half Dollars Very Choice Brilliant Uncirculated.** The first has brown toning bisecting the central reverse. The five 1945 pieces and single 1946 are mostly white with a green (removable) "PVC" haze. [7]
- 324 1) 1944-S Walking Liberty Half Dollar Very Choice Brilliant Uncirculated. 2) 1945-S Very Choice Brilliant Uncirculated. 3) 1946-D Gem BU. 4) 1947 Gem BU.** [4]
- 325 1945PDS, 1946PDS, 1947PD Walking Liberty Half Dollars** In a large deep blue lucite holder stamped "1941 to 1947-D". With the exception of the 1946-S and 1947-D which are spotted, this group of eight will grade **Gem BU**. They are either white or with scant toning. [3]
- 326 1946 Walking Liberty Half Dollar Very Choice Brilliant Uncirculated.** Seven pieces, white or with little toning. Some may be Gem. [7]
- 327 1946-S Walking Liberty Half Dollar Very Choice Brilliant Uncirculated.** A nice group of four very attractive and fresh coins. [4]
- 328 1949 Franklin Half Dollars AU to Gem BU.** Five pieces, three are Uncirculated and two are AU. One of the Uncirculated pieces appears to have come from a Government Mint Set, and is a toned Gem. [5]
- 329 1954 to 1963 Franklin Half Dollars Gem Brilliant Proof.** Two white lucite holders. The first contains one of each date from 1954 to 1963. The 1956 has a large spot on the shoulder and the 1962, a tiny spot in the left obverse field. The second lucite holder contains 1960 through 1963. Fourteen pieces in all, they are white and practically without flaws. [2]
- 330 1960 - 1976 (also 1893) Franklin Half Dollars Proof to Gem Proof.** 1960, 1961 four pieces, 1962, 1963 two pieces. Additionally, there are two 1976 bicentennial Kennedy halves. One **Ch. BU 1893 Columbian** half is also included. [11]
- 331 1961, 1963, 1963-D Franklin Half Dollars BU to Ch. BU.** A twenty-piece roll of the first and last date, plus a 15-piece partial roll of the 1963. Each date/Mint is in a plastic tube. The coins run from BU to Ch. BU or better. [35]
- 332 1964 Kennedy Half Dollars BU to Gem BU.** Four rolls, \$40 face value. [4]
- 333 1964 Kennedy Half Dollars Proof to Choice Proof.** Two rolls of Proof Kennedy half dollars totaling 40 coins in all. Some have toning. [2]

U.S. Silver Dollars and Multiple-Item Dollar Groups

Silver Dollars

- 351 1795 B-2 (Two Leaves Under Each Wing) Choice EF.** A magnificent example of Bolender's distinctive "pierced and separated" lower curl variety, it is listed as R-3. The definition is unusually strong. A recently sold virtual Gem displayed just a bit more hair and feather details; the roundness of the eagle's breast and wings suggest that little more detail was present at its issuance. Vibrant gun-metal blue covers the obverse, amidst tones of orange-gray. A thick shade of gray balances the reverse while intermittent flashes of underlying lustre can be seen amongst the devices. There are no adjustment marks, rim dents or other problems normally associated with 200+ year-old coins of this size. May well be hammered down at \$7,500 or so.

- 352 1798 Draped Bust Dollar, Heraldic Eagle EF.** B-8. A few tiny edge bumps and light reverse abrasions, but nothing out of the ordinary and very solid for the grade. Slightly weak strike through the center of the reverse. A nice type coin and always in great demand. \$2,750 - 3,250

- 353 1799 B-21, R-4 Draped Bust Dollar, Heraldic Eagle VF.** The die breaks at the two reverse stars and under "AM" are the fingerprints of this rare variety. Light gray toning and very pleasing surfaces; there are no problems worthy of mention. Nice enough to merit a \$1,500 - \$1,750 offering.

Breathtaking 1839 Reeded Edge Gobrecht Dollar

Most surprising about this unusual specimen is its history. Purchased from a small Manhattan coin shop about forty years ago, it had not seen the light of day until our consignor walked in with it, three weeks prior to our cataloguing deadline. In an old stapled 2X2 cardboard holder with the date "1839" written upon it, this piece was carefully removed. The requisite numismatic term, "fresh", is certainly applicable here.

- 354 1839 Gobrecht Dollar, Gem Proof.** Designed by Christian Gobrecht, of "Seated Liberty" coinage fame. This design, with its variations, was issued in 1836, 1838 and 1839 as a forerunner to the regular Seated Dollar issues from 1840 to 1873. This is the **Reeded Edge** variety, one of the **original 300 pieces struck**, not to be confused with the plain edged restrikes of decades later.

The left obverse shows a watery blue-violet tone from above Liberty's head to under her feet, roughly at 5:00. An area extending from about 12:30 to 5:00 (covering much of Liberty herself) is highly reflective in grayish-white shades. The reverse displays a luxuriance of honey lustre on the upper left half, yielding to blue-violet illuminance on the remaining areas. This extraordinary specimen will more than likely fetch \$20,000 - \$25,000.

- 355 **1842 Liberty Seated Dollar, No Motto AU.** Dark, yet reflective steel-graphite surfaces. A few minute reverse edge bruises do not draw significant attention and the obverse die bulge in the field opposite star two is as issued.

- 356 **1858 Liberty Seated Dollar, No Motto NGC PR-65.** A very rare and popular proof-only date. As the first year in which the U.S. Mint made proof sets available to the general public, 1858 is a "magic date" for coin collectors. The number of dollars struck, long incorrectly reported as 80 pieces, is now believed to be in the vicinity of several hundred pieces. Most surviving specimens have been cleaned or otherwise mishandled, leaving scant few gems available. The presently offered specimen is a pleasant exception, exhibiting pristine surfaces and a lovely iridescent blue patina. As such, we expect fierce bidding for this beautiful coin.
\$20,000-25,000

- 357 **1869 Liberty Seated Dollar, With Motto AU.** An attractive, albeit long-ago cleaned specimen. Full head, shield and claws. Stored in a Wayne Raymond holder for many years after the cleaning, it should still realize \$300 or so.
- 358 **1870 Liberty Seated Dollar, With Motto VF.** Light gray color from a decades-old dipping. Although the *BE* of *LIBERTY* is very weak, the over all sharpness of this piece begs for a mid-range VF. Were the scroll on the shield any stronger, it could possibly be graded "EF".
- 359 **1871 Liberty Seated Dollar, With Motto AU.** Flashy and white. The circulation marks are small and mainly hidden in the devices. Could bring around \$400.

Morgan Dollars

Struck From the First Morgan Dollar Dies

- 360 **1878 8TF VAM-9 Morgan Dollar NGC MS-63.** First Morgan. Listed in the top 100. White, untuned and of course, sharply struck as noted in the Van Allen reference book. It is most easily identified as the 8 tail feather variety with an extra tail feather under the eagle's left wing. According to the Society of Silver Dollar Collectors' website, this coin is "historically important as the first die variety struck on March 11, 1878" and is considered to be "Ultra-Rare in BU". Worthy of a strong four-figure bid.
- 361 **1878 8TF and 8/7 TF Very Choice Brilliant Uncirculated.** Thick gray-gold shades on each coin, the former with violet-blue circling some of the reverse periphery. [2]
- 362 **1878 and 1878-S Morgan Dollars PCI MS-60 to MS-64.** 1878 MS-60 VAM 202, MS-62 VAM 141, MS-62 VAM 195. 1878-S MS-62 VAM 6, two pieces. Also, two pieces of MS-62 VAM 16, one is marked *PL*. Again, two pieces of MS-62, but these are VAM 17; one is marked *PL*. One piece MS-62 of VAM 35. 1878-S MS-63. There are five pieces in this grade. The VAM numbers are 6, 16, 16, 19, 29. 1878-S MS-64. Just one piece, a VAM 19. [16]
- 363 **1878-1921 Morgan Dollar Group.** The following thirteen are encapsulated in PCI holders: 1878 7TF MS-63 VAM 132 (two pieces) and one 1878 7TF MS-63 VAM 84. There is one 1880 MS-63 VAM 2 and one 1880MS-60 VAM 16. 1882-S MS-62 VAM 14. The next four are 1883-O in MS-62, MS-63, MS-63, and MS-64. Their VAM numbers are 3, 21, 4 and 4. The final three in this PCI group are 1897-S MS-62 VAM 7, 1904 MS-62 VAM 4 and 1921MS-62 VAM 1A. The final two are in IGA holders from June 25, 1985. The first (1885) grades Choice BU by today's standards, the second (1886) Very Choice BU. The toning will vary and personal inspection is important. [15]

- 364 1878-1904 Morgan Dollar Lot:** Thirty-one pieces divided into the following two groups, the first consisting of 22 pieces, mostly **Choice AU** and perhaps a few **BU**:

1878-S, 1880, 1885, (3) 1886, 1887, (2) 1888, (2) 1889, (4) 1896, (3) 1897, 1898, (2) 1899-O, 1904-O.

This second group consisting of 9 pieces, mostly in **Choice BU** or close to it:

1881-S, (2) 1888, (3) 1889, 1896, 1898, 1900-O. Thirty-one pieces in all, most are white or with little toning. [31]

- 365 1878 Morgan Dollar ANACS** The first three in this lot are 7 Tail Feather varieties in **MS-63** holders, two are VAM-33 and the other is VAM-83. The fourth piece is an 8 TF Vam-17 and is graded **MS-62**. All four are white with small amounts of gold toning. [4]

- 366 1878 7/8 TF Morgan Dollar BU, nearly Choice.** The Proof-Like surfaces are unusually bright, which tend to magnify the bag marks. Purely white.
- 367 1878 Morgan Dollar Varieties (3)** Consists of a 7/8 TF in nearly Ch. BU, along with a 7 TF and "CC" Mint piece, both Very Choice BU and white. The 7 TF is Proof-Like. [3]
- 368 1878-S Morgan Dollars Very Ch. to Gem BU.** The first of three has russet and amber shades, the second is white with a Proof-Like obverse. Both are Gems. The third is Very Choice BU and white. [3]
- 369 1) 1878-S Morgan Dollars Very Choice BU. 2) 1881-S Very Choice BU. 3) 1882-S Gem Prooflike BU. 4) 1883-O Gem BU.** [4]

- 370 1878-CC Morgan Dollar Very Choice Brilliant Uncirculated.** Toning cannot get much thicker than this. Under the many microns of graphite-toned soot lies a pond of blue, violet and gold. The strike is perfect for this variety, and the bag markings are miniscule.
- 371 1878-CC Morgan Dollar Very Choice Brilliant Uncirculated.** White, with a blue and gold rainbow patch above *PLURIBUS*.
- 372 1878-CC Morgan Dollar Choice Brilliant Uncirculated.** White. Somewhat above average in regard to strike and bag markings.
- 373 Morgan Dollar** Nine Morgan Dollars and one Peace Dollar in VF to Ch.AU. All are common except for the 1890-CC in VF.[10]
- 374 1879-O Morgan Dollar PCGS MS-64.** Vivid iridescence, especially on the reverse. A bag mark under the eye away from Gem. Needle-sharp impression.
- 375 Morgan Dollars Choice AU. 1879-O, 1880-S, 1883-O, 1885-O, 1886, 1899-O, 1921.** The pieces are Ch. AU except for the 1880-S which has reverse edge bruises near the "ONE", and the 1886 which grades Ch. Unc with deep gold-gray toning. [7]
- 376 1879-S Morgan Dollar NGC MS-65.** Snow-white. There is great contrast on the obverse, the field of which is a slightly P-L; this results in a delightful cameo appearance.
- 377 1879-S Morgan Dollar Gem Brilliant Uncirculated.** White and well struck. The more common of the two varieties issued that year.
- 378 Morgan Dollars 1879-S, 1880-S, 1882-S** Gem Proof-Like BU. The last piece has several spots on the upper reverse, else they are white. Also, an 1883-O in Very Ch. BU with a bit of peripheral orange color. [4]
- 379 1880 (8 over 7) Morgan Dollars SEGS MS-60, MS-61, MS-63.** The first is a VAM-10, the other two, VAM-9. White or with slight toning. [3]

- 380 **1880-O Morgan Dollar Choice BU, maybe better.** Gray and gold frost on both sides. Exceptionally strong details.
- 381 **1880-O Morgan Dollar BU, some may be Choice.** Five pieces in a white lucite holder.
- 382 **1880-O BU, some may be Choice.** Another group of five in a white Capital holder.
- 383 **1880/79-S Morgans Dollar ANACS** All four are VAM-8. They grade **MS-63, MS-63 DMPL**, the last two are **MS-64**. White or with golden toning mostly at the edges. [4]
- 384 **1880/79-S Morgan Dollar ANACS** Three pieces, essentially white, as follows: **MS-60 PL, MS-62 DMPL, MS-63 DMPL**. The first is a VAM-9, the others are VAM-8. [3]
- 385 **1880-S and 1881-S Morgan Dollars Very Choice & Gem BU.** The first piece is white with four diagonal bag marks under the cheek, holding it from Gem. The second coin is a Gem in every respect, having a golden tan sheen on the obverse and a blazing white reverse. [2]
- 386 **1880-CC Morgan Dollar NGC/GSA MS-63.** White with little toning.
- 387 **1880-CC Morgan Dollar Brilliant Uncirculated.** Hazy white frost, well above average. No doubt from the government bag-hoard of decades ago.
- 388 **1881 Morgan Dollar Choice BU or better.** Proof-Like surfaces on both sides. White with just a bit of golden toning.

- 389 **1881-CC Morgan Dollar Gem Brilliant Uncirculated.** Extraordinarily thick gray toning with pink and gold shades underneath. The strike is perfect and any bag marks, miniscule.
- 390 **1881-CC Morgan Dollar NGC/GSA MS-64.** White with little toning.
- 391 **1881-CC Morgan Dollar NGC/GSA MS-64.** White with a bit of beige toning on obverse.

- 392 **1881-CC Morgan Dollar Very Choice Brilliant Uncirculated.** White and new! A very pale orange streak on the reverse takes nothing away from its aesthetics.
- 393 **1881-CC Morgan Dollar Very Choice Brilliant Uncirculated.** A graze on the truncation of Liberty's neck is barely worth a footnote. Crisp white surfaces with slight toning about the denticles.
- 394 **1881-CC Morgan Dollar Choice Brilliant Uncirculated.** Frosted devices stand out sharply, contrasted against the extraordinary Proof-Like fields. Has the look of a Franklin Mint medal when held upright.
- 395 **1881-CC Morgan Dollar Brilliant Uncirculated.** A frosty "roll-piece" appearance with a few scattered obverse bag marks under Liberty's eye and in adjacent field. A tarnish mark runs from the last S of *STATES* through the A of *DOLLAR*. A "BU" grade should satisfy the bidder.

- 396 **1882-S Morgan Dollar Gem Brilliant Uncirculated.** Golden violet surfaces. Very few bag marks and a superior strike add up to anyone's "65+".
- 397 **1882-CC Morgan Dollar ICG MS-64.** Frosty white, virtually untuned.
- 398 **1882-CC, 1883-CC 1884-CC Morgan Dollars** The first is Very Choice BU and in a GSA plastic holder. The second is an NGC/GSA holdered MS-63. The third is in a GSA plastic holder and cardboard box, grading Very Choice BU. All are essentially white, the last with golden reverse toning. [3]
- 399 **1882-CC Morgan Dollar Brilliant Uncirculated.** White. Usual bag marks for the grade.
- 400 **1883 and 1883-O Morgan Dollar ANACS** The two 1883 pieces are both VAM-4 and grade **MS-60** and **MS-63**. The remaining five 1883-O are all VAM-2 and grade **MS-61, MS-62 PL, MS-63, MS-63 PL, MS-63 DPL**. White or with gold or bluish-gold toning. [7]

- 401 **1883 and 1884-O Morgan Dollar Very Choice & Gem BU.** Hazy white with some golden peripheral shades for the first piece, the second with flashing white reflectivity. [2]

- 402 **Morgan Dollar 1883-O, 1885, 1885-O, (2) 1886, 1887, 1896.** Most are **Very Choice BU**, and a few may be Gem. All are white or hardly toned. [7]

- 403 **1883-S Morgan Dollar. Redfield MS-65. Paramount Int. Coin Corp.** This encapsulated specimen piece will probably go "63" by today's standards. White, full frost and sharply struck.

- 404 **1883-CC Morgan Dollar Gem Brilliant Uncirculated.** A striking coin, with no pun intended. Not Proof Like, but of the highest satin finish possible, and struck hard enough to make the edge reeding square. Coffee colored toning gives a dramatic outline to Liberty.

- 405 **1883-CC Morgan Dollar Very Choice Brilliant Uncirculated.** A pair, both in plastic GSA holders. White, one a bit beige on the obverse. [2]

- 406 **1883-CC PCI MS-63 PL.** White, slight toning.

- 407 **1883-CC Morgan Dollar Ch. to Very Ch. BU.** A pair of GSA silver dollars in their plastic government holders. White or with a bit of toning. [2]

- 408 **1883-CC Morgan Dollar Choice BU, or better.** Some ochre haze underscores its originality. The reverse is mainly white.

- 409 **1883-CC Morgan Dollar Brilliant Uncirculated.** White. Less bag marks than usual for this grade.

- 410 **1883-CC and 1884-CC Morgan Dollar NGC/GSA** The first is graded MS-63 and the second, MS-64. Both have areas of golden tan toning. [2]

- 411 **1884-S Morgan Dollar Choice AU.** A borderline Uncirculated specimen with the strike, surface textures and toning of a BU. Both sides have a full cartwheel spin to the white, golden gray lustre.

- 412 **1884-S Morgan Dollar Choice AU.** A second offering of this rare date/Mint. Has the look of a Ch. BU, even in regard to the eagle's sharp breast feathers and Ms. Liberty's hair strands above the ear. Expertly touched up some years ago, peripheral blue album toning has unknowingly taken up the cause of restoring its naturalness. The collector can own a real eye-catcher by acquiring this specimen.

- 413 **Morgan Dollars ANACS 1884-O VAM-21, MS-64. 1884-O/O MS-63. 1884-CC VAM-7, MS-64.** The first is mostly white with a bit of orange-blue on the obverse periphery. The second has orange, tan and blue toning, mostly on the reverse. The "CC" is mainly white with light violet overtones, but with a few spots on each side. [3]

- 414 **1884-O, 1885-O, 1886, 1890-S.** The first two are BU or better. The 1886 and 1890-S are Very Ch. BU, the last with glowing blue-violet shades atop mauve and gray lustre. [4]

- 415 **Morgan Dollars 1884-O, 1885, 1886, 1887, 1888-O, 1896, 1899-O, 1904-O.** Most are Very Choice BU, with two or three grading Choice. [8]

- 416 **1884-CC Morgan Dollars NGC/GSA MS-64.** Both are white. [2]

- 417 **1884-CC Morgan Dollar ANACS MS-64.** Encapsulated as VAM-7, it is virtually untoned and with a PL reverse.

- 418 **1884-CC Morgan Dollars NGC/GSA MS-63 and MS-64.** The first with little toning, the second white. [2]

- 419 **1884-CC Morgan Dollars NGC/GSA MS-62 and MS-63.** The MS-62 has a deep orange blue semi-circular toning ring on the obverse from star 7 through star 9. The other piece is mostly white. [2]

- 420 **1884-CC Morgan Dollar Brilliant Uncirculated.** White. A few scuff marks (near the chin) away from "Choice".

- 421 **1885-O Morgan Dollar Gem Brilliant Uncirculated.** A little soft on the breast feathers, but the blue-violet and gold obverse colors alone call for this grade.

- 422 **1885-CC Morgan Dollar Gem Brilliant Uncirculated.** From the same consignor of Lot #389, comes this equally thick-toned 1885-CC. The shades seem to be more bluish, especially on the reverse. A single bag mark above the eagle's right thigh is the only flaw that might be worth mentioning.

- 423 **1885-CC GSA Morgan Dollar Very Choice Brilliant Uncirculated.** Thick white frost. Unusually nice.

- 424 **1885-CC Morgan Dollar Brilliant Uncirculated.** White. Average or better. Many microscopic abrasions on the face give this piece a frosty appearance, especially with the fields so clean.

- 425 **1886 and (2) 1891 Morgan Dollars Choice BU+.** All three white or with little toning. [3]

- 426 **Morgan Dollar 1886, 1887, 1896, 1897, 1899-O, 1900-O, 1901-O, 1904-O.** Very Choice BU and white, a few have light orange toning. The last piece has noticeable bag marks on the obverse and only grades BU. [8]

- 427 **1886-S Morgan Dollar NGC MS-64 DPL.** White surfaces with, as expected on an early strike, superb details.

- 428 **1886-S Morgan Dollar Very Choice to Gem BU.** Superb strike and white frost. A few *slight* bag marks just under Liberty's eye, and in the field above the eye *might* take this out of the higher category.

- 429 **1886-S and 1888-S Morgan Dollars Ch. AU and VF/EF,** the first with nice reflective blue-gray lustre. [2]

- 430 **1886-O Morgan Dollar Choice Brilliant Uncirculated.** Virtually all white with tiny traces of gold-orange toning here and there. A key piece in this high-end condition, and of premium value.

- 431 **1887 (DDO) Morgan Dollars ANACS MS-63.** Two VAM-12 Double Die Obverse pieces. The first has some gray toning, the second is bright white. [2]

- 432 **1887 (DDO) Morgan Dollar ANACS MS-64.** Another of this popular Double Die year, this one with full white frost, almost completely untuned.

- 433 **1887 and 1887/6-O Morgan Dollars ANACS** The first is a VAM-11 which grades **MS-62**, the second is a VAM-3," **AU Details Cleaned Net EF-45**". [2]

- 434 **1887-S/S Morgan Dollars ANACS MS-62.** Five pieces of the "over-Mint mark" variety, the serif of the first "S" visible on each specimen. White, or nearly so. [5]
- 435 **1887-O Morgan Dollar Choice BU+.** Could rate Very Choice or better but for a thin bag mark just over the chin.
- 436 **1888 Morgan Dollars Very Choice & Gem BU.** A pair of '88's with similar dusty gold-gray shades on each. The reverses are white. [2]
- 437 **1888 (DDO) and 1891 Morgan Dollars** Three of the Double Die VAM-11 as follows: **NGC MS-63, SEGS MS-63** and **ANACS MS-62.** This lot ends with an 1891 VAM-6 in **ANACS MS-63.** Most are white or with some tan toning. [4]
- 438 **1888 (DDO) Morgan Dollar NGC MS-63.** Double Die, this one white and frosty, listed as a VAM-11.
- 439 **1888-O Morgan Dollar Gem Brilliant Uncirculated.** White and frosty.
- 440 **1889 Morgan Dollar PCGS MS-65.** White and well struck.
- 441 **1889, 1900-O, 1904-O Morgan Dollars.** The first is subdued white and grades **Very Choice BU.** The second is white and **Proof-Like** with some golden toning on the reverse. It too grades **Very Choice BU.** The last piece is a thickly frosted **Gem**, white on both sides. [3]

- 442 **1889-O Choice to Very Choice BU.** Untoned, for all purposes. The reverse might have a few too many bag marks for the higher grade. Still a prime contender for a *Very Choice* set.
- 443 **1889-S Morgan Dollar Choice Uncirculated.** Has a flat gray look from drawer storage, but with nice reflectivity and clean surfaces when held to a light.

- 444 **1889-CC Morgan Dollar EF/AU.** Lightly cleaned, now beginning to return to its original state. White-gray with some orange shades finding their way into most peripheral lettering and stars. Some light scuffs and abrasions, but nothing of great importance. While the original surfaces are no longer intact, there is much to appreciate in this sharply detailed variety. Worth \$2,500 or so.
- 445 **1890 Morgan Dollars Probably Very Choice BU.** Must be seen prior to bidding. There is obvious spotting on three of the four, and some first-aid is required. Some might reach Gem. [4]
- 446 **1890 Morgan Dollars.** A pair of white frosty Morgans that are sandwiched between **Choice/Very Choice BU.** Nicely struck and with no bag marks to comment upon. [2]
- 447 **1890-S Morgan Dollar BU to Ch. BU.** Four pieces, white or with scant toning. [4]

- 448 **1890-CC Morgan Dollar Very Choice Brilliant Uncirculated.** Deep, outstanding mint frost. Honey-tan toning covers over 75% of the obverse and 50% of the reverse. The strike is superb and observable bag marks are limited to the neck's truncation. This delightful specimen is sure to test the four-figure mark!
- 449 **1890-CC Morgan Dollar Choice Brilliant Uncirculated.** Blue-violet tints coalesce with orange tones on the obverse. The darker shades figure prominently on the semi P-L reverse. There are a few marks along the way, but this piece is reserved for those who appreciate a work of art.

- 450 1890-CC Morgan Dollar Brilliant Uncirculated.** Some minute bag marks and scratches on the cheek, else a nice frosty well struck piece. Can realize \$200 or so.

- 451 1891 Morgan Dollar BU, nearly Gem.** A handsome array of honey, powder-blue and lavender shades are equally disbursed on both sides. Sharply detailed, there are few bag marks, none that would seem to remove this specimen from a Gem rating. The price difference in grades being what they are however, a first-hand look at this piece is warranted.

- 452 1891 Morgan Dollar NGC MS-64.** An upper-end white specimen, having a strong strike and unobtrusive bag marks.
- 453 1891 Morgan Dollar NGC MS-64.** Almost a twin to the preceding lot.

- 454 1891-O Morgan Dollar Very Choice Brilliant Uncirculated.** Light and hazy golden toning over a thickly frosted surface. An excellent strike for this date/Mint, the weaknesses generally confined to the edges outside the reverse denticles. Lots of reflectivity and cartwheel spin to the lustre.

- 455 1891-CC Morgan Dollar Brilliant Uncirculated.** Dipped to further reveal a Proof-Like surface. Still a first-rate specimen which could just as well be called *Choice* in many circles.

- 456 1892-S Morgan Dollar AU.** For the collector who does not have \$25,000 to spend on a Mint State '92-S, this piece is a fine substitute. Has nice white surfaces with a fair amount of original lustre lurking about. Some may put this in the "Ch. AU" league. A key piece in the upper grades.

- 457 1892-S Morgan Dollar NGC AU-53.** Essentially white with lively, reflective surfaces. Close to a slightly higher grade and will easily fit into a Choice AU collection.

- 458 1892-CC Morgan Dollar ANACS MS-63.** Frosty and white, with fringes of amber and orange clinging to the reverse denticles. Some of these same tints are visible to a lesser degree on the obverse. Sharp. Just a few bag marks, which are easily ignored.

- 459 1892-O Morgan Dollar Very Choice Brilliant Uncirculated.** Frosty gold-white surfaces with no contact marks worth listing. A fine series of diagonal ejection lines run through the central portion of Ms. Liberty (below the eye to mid-ear) but these tend to fit into the general texture and color of the coin.

- 460 1892-O Morgan Dollar BU, near Choice.** White and untuned, as would be found in an original roll. A few extra bag marks on the face might take this piece out of the Choice category.

- 461 1893 Morgan Dollar PCGS MS-64 "Fivaz Collection".** Snow white color, sharply struck and with minimal bag markings. At the high end of the scale for this grade, the pedigree adding even more to its desirability. For the date-set collector as well; none of the three other Mints of this year can be purchased in this condition for under \$10,000. Worth \$1,500 or so.

- 462 1893 Morgan Dollar Choice AU.** Dull and dingy looking, but the detail's all there under the soot.

- 463 1893-S Morgan Dollar Fine.** Medium gray tone, somewhat lighter on the raised portions. Though weak, the eagle's wing feathers are complete, save for that of a small area on the eagle's right wing, just below *IN*. Old reeding marks are now worn into Ms. Liberty, from the left of the ear to the bottom of the jaw. They would only be distracting if the coin were in Mint State. A noteworthy example.

- 464 1893-O Morgan Dollar PCGS MS-63.** Rare in any condition. Few in "Choice BU" could rival this specimen. Well struck for a New Orleans issue, having a rounded eagle's breast with strong feather details and raised hairlock over Liberty's ear. A fine veneer of amber toning covers much of gray frost, obscuring any trivial contact marks while highlighting the design elements. The combination of rarity and aesthetics should place this specimen in the \$4,500+ range.

- 465 1893-O Morgan Dollar Choice Brilliant Uncirculated.** A second 1893-O in the same grade, this one with light tan toning (reverse) on mostly white surfaces. The obverse, for all practical purposes, is untuned.

- 466 1893-CC Morgan Dollar Choice AU.** Few details have been worn off this specimen; it is more like rubbing on the high points. Lustrous grayish white surfaces have just a tinge of gold toning. A single obverse tarnish spot at 11:00 to the right of "L" looks rather easy to remove, should the buyer deem it necessary. Could realize over \$1,000.

- 467 **1894 Morgan Dollar EF/AU.** Gray, with liberal amounts of white and orange undertones. Full wing-feather details and a rounded eagle's breast, a few side feathers showing. The most difficult date to locate of all Philadelphia Mint Morgan dollars struck for circulation.

- 468 **1894-S Morgan Dollar NGC MS-64.** A very high-end specimen. White throughout with maybe a bit of golden-gray toning, the strike is full and bag markings irrelevant. Should fetch far over the usual "64" listings.

- 469 **1894-S Morgan Dollar Choice-Very Ch. BU.** A small cluster of Mint-made striations can be seen across the obverse under close inspection. The general appearance is excellent; bag markings are small, the strike is full and the lustre is white with light golden peripheral toning.
- 470 **1894-S Morgan Dollar Uncirculated.** There is much underlying lustre on this fully struck grayish specimen. Small bag marks are scattered about, but none is obscured by the toning - it is what it is; Uncirculated, and scarce.

- 471 **1894-O Morgan Dollar Choice AU.** Light toning with a fair amount of reflectivity for a circulated coin.

- 472 **1895-S Morgan Dollar AU.** Extremely deep blue and orange-red toning covers the Proof-Like surfaces, the latter shades heavier on the reverse. The toning might be suspect, were it not removed from a 45 year-old board. Other than light wear, it is hard to find anything wrong with this piece.

- 472A **Morgan Dollars 1896 MS-61 VAM 1. 1896 MS-63 VAM 19. 1897 MS-61 VAM 6-A. 1899-O MS-63 VAM 1. 1899-O MS-63 VAM 11.** The above five pieces are ANACS encapsulated, and with a light to moderate toning. Lastly, an **1897 MS-63 VAM 6A** in an SEGS holder, slightly toned. [6]

- 473 **1896-O Morgan Dollar Uncirculated+.** In an Accugrade holder, listed as "A3-64". According to the "Accugrade Guide" listed on the reverse of the holder, it is a *Full Strike and Cleaned*. The eye-appeal is unquestionable, even if the surface is a bit subdued from dipping. A scarce and desirable specimen.

- 474 **1897-O Morgan Dollar AU.** Even with a gently cleaned obverse, there is detail and texture enough for this piece to give pause for a "Choice" rating. The reverse is gray with blue-orange shading.

- 475 **1898 Morgan Dollar Gem Brilliant Uncirculated, Prooflike.** Lightly toned and very attractive.

- 476 **1898-O, 1899-O, 1900-O Morgan Dollars Gem Brilliant Uncirculated.** Essentially white and frosty, the above-ear and breast feather areas sharp. [3]

- 477 **1899 and 1904 Morgan Dollars Choice AU.** The first piece is borderline Uncirculated with some rubbing in the left field. Most of the toning is light orange. Looking at the reverse, it could pass as a *Choice BU*. The 1904 is Choice AU with russet shades. A nice pair of better-date Philadelphia Morgans. [2]

- 478 **1899-O Morgan Dollar NGC MS-66.** Thick white frost, scant bag marking and a strike so sharp that it looks like a Philadelphia dollar.

- 479 **1899-O Morgan Dollar NGC MS-66.** Another piece. Equal to the last lot in appearance and value.

- 480 **1900 Morgan Dollar NGC MS-66.** White with slight grayish tones.

- 481 **1900 O/CC Morgan Dollar Very Choice Brilliant Uncirculated.** A white blazing Gem but for a 4mm bag mark in the field (near star) at 9:00. The Mint Mark(s) are clearly visible.

- 482 **1900-O/CC Morgan Dollar Very Choice Brilliant Uncirculated.** Mostly gray and orange toning, typically well struck and with the underlying "CC" obvious under the "O". A classic overstrike for Mint marks.

- 483 **1900 (DDO) and 1900-O Morgan Dollars.** The Double Dies are **ANACS MS-63** and **NGC MS-62**, both VAM-11. The first has deep orange-blue circular toning, the other is white. The 1900-O is an **ANACS MS-63**, white with a tad of grayish tan toning at the peripheries. It is listed as *VAM-15 DBL STR.* [3]

- 484 **1900-S Morgan Dollar Gem Brilliant Uncirculated.** White and virtually mark-free. The strike is also superb. Will most likely require a bid into four figures to obtain.

- 485 **1901 Morgan Dollar PCGS AU-53.** Bright white surfaces. Free of bag marks and obvious detractors for the grade, and just a slight amount of wear on the highest points.

- 486 **1902 Morgan Dollar Very Choice Brilliant Uncirculated.** White with a touch of dentical toning above the obverse legend. A high-end specimen.

- 487 **1902 Morgan Dollar Very Choice to Gem BU, Proof-Like.** Gold and light orange toning on the obverse. Mostly white on the reverse, with light die striations (as struck) visible under magnification. A deceptively difficult date/Mint to locate in this condition. Worth \$500 - \$600.

- 488 **1903-O Morgan Dollar Very Ch. BU or better.** Orange-tan toning over reflective gray surfaces. Not typical of the 1960's multi-bag release. One can only hope that the original owner did not pay \$3,000 for this piece 40+ years ago.

- 489 **1903-O Morgan Dollar BU, nearly Choice.** Creamy white with some golden toning, mainly on the reverse. A few extra bag marks on the cheek and in the adjacent field probably keep this piece from a *Choice* rating.

- 490 **1904-O Morgan Dollar Gem Brilliant Uncirculated.** Superb orange, gold and light gray shades on the obverse, mostly white with some orange tones on the reverse. Sharply detailed and practically bag mark free.

- 491 **1904 Morgan Dollar NGC MS-64 P-L.** Unusual reflectivity; has some aspects of the "Deep Mirror" appellation generally given to such appearances. Some light shades of gold-orange toning circle the obverse, and even less toning is to be found in the denticles of the reverse. The strike is optimal.

- 492 **1904 Morgan Dollar Very Choice Brilliant Uncirculated.** Very bright surfaces with strong details on both sides.
- 493 **1921 Morgan Dollar Very Ch. BU or better.** White, well struck and with few marks. [4]
- 494 **1921 Morgan Dollar Very Choice Brilliant Uncirculated.** A group of ten, mostly white. Some may be in the Gem category. An eleventh coin (1921-D in AU) is also included. [11]

- 495 **1921-D Morgan Dollar Gem Brilliant Uncirculated.** Satin-like surfaces with a wonderful cartwheel spin to its lustre. The strike is immaculate on both sides, as is the relative freedom of bag marks.

- 496 **1921-D and 1921-S Morgan Dollars Very Choice Brilliant Uncirculated.** Three of the first, two of the second. White with little toning save for that of a red-orange 1921-D. [5]

- 497 **1921-S Morgan Dollar PCGS MS-65.** A common date, but not often seen in Gem condition. Hazy white frost on both sides with nearly unmarked surfaces! Well struck too, for this date/Mint.
- 498 **1921-S Morgan Dollar NGC MS-64.** Even more brilliance than the previous Gem, but with a few minor bag marks.

Peace Dollars

- 499 **1921 Peace Dollar.** Although this piece has picked up a few marks along the way, the surfaces are noticeably different from others of this date, both in texture and detail. The left obverse edge forms a wide platform (6:00 to 12:00) and the reeding, thinner than usual, extends to the edges without the usual beveling. The roundness of the face, hair details and eagle's feathers are superbly detailed, as well. This is not your ordinary 1921 Peace Dollar. It is well worth a second look.
- 500 **1921 Peace Dollar PCGS MS-64.** The popular "High Relief" Peace issue. Light golden toning on both sides.
- 501 **1921 Peace Dollar NGC MS-64.** Another, this with gray-violet overtones.

- 502 **1921 Peace Dollar Very Choice Brilliant Uncirculated.** Slight weakness at the date and central devices. Mostly white.

- 503 **1921 Peace Dollar Very Choice Brilliant Uncirculated.** Glossy white surfaces with traces of golden tan toning in the devices. An above-average strike with few bag marks.

- 504 **Peace Dollar 1921 Peace Dollars.** Two pieces, one **AU**, the other **Uncirculated**. The first piece was partially cleaned on the obverse. The second piece has the same dark, yet reflective toning, but appears untouched: It is also quite sharp on both sides. This lot continues with a **BU 1923-S**, frosty but with some green spotting from poor storage, a **1927-D** in **AU** which can also benefit from cleaning, and a **1935** in **AU** with some nicks in addition to environmental problems. [5]

- 505 **1923, 1925, 1926 Peace Dollars.** The first is a VAM-1A "Whisker Jaw" in an **ANACS MS-64** holder. The 1925 is an **NGC MS-64**. The last three are all 1926 Double Die Reverse, VAM-2. They are **ANACS MS-63**, **SEGS MS-61** and **ANACS AU-58**. All pieces are virtually untoned. [5]

- 506 **1923-S Peace Dollar MS-65. Paramount Int. Coin Corp.** Graded and encapsulated years ago under different standards. Today, it could be seen as a near-Gem. White and frosty at the centers. A beige coloration thickens as it reaches the edges, probably due to prior album storage.

- 507 **Peace Dollars Very Choice BU or better. 1924, 1925, 1927-D, 1934-D.** The first is white on the obverse with a beautiful shade of slate gray and tan on the reverse. The second is white with mellow lustre, the third is white with a hazy, powdery look on the obverse and slightly hazy but brilliant appearance on the reverse. The last is white with a bit of toning. [4]

- 508 **1926 Peace Dollar Very Choice Brilliant Uncirculated.** Four pieces, all with thick golden white frost. [4]

- 509 **1926 (DDO) Peace Dollar ANACS MS-63.** Four pieces of the Double Die Reverse, VAM-2. White or with scant toning. [4]

- 510 **1927-S Peace Dollar PCI MS-64.** White and lustrous with evenly textured surfaces and no significant bag marks. A well above average strike for this generally weak issue. \$400 - \$450.

- 511 **1928 Peace Dollar Very Choice Brilliant Uncirculated.** Highly reflective orange and brass colors spin off the obverse surfaces of this key date. Deeper tan toning streaks are on the reverse. Only 360,649 struck. \$500 - \$600.

- 512 **1928 Peace Dollar Brilliant Uncirculated.** White with traces of tan toning on the obverse. A small patch of minute bag marking, under and to the right of Liberty's eye, keeps this coin from a Choice rating.

- 513 **1934-S Peace Dollar Choice AU.** For an AU, this is a gem! The obverse is rose, blue and violet, the reverse mostly rose tinted. There is lots of reflectivity and almost no bag marks or scuffs, just light wear.

- 514 **1935-S Peace Dollar NGC MS-65.** Beautifully struck with few marks. White with trace amounts of faun toning on the obverse.
- 515 **1979-S and 1980-S Susan B. Anthony Dollars NGC Ultra Cam PF-68.** Four of the first year and three of the second. White or with light golden toning. [7]

Trade Dollars

- 537 1873-CC Trade Dollar VF.** Some irregular tarnish streaks on the obverse, plus a few scratches underneath. One the few instances where a light cleaning is recommended.
- 538 1873-S Trade Dollar EF.** Obverse rim bruises at 10:30 and 5:00 are not too obvious. Gray, orange and blue toning.
- 539 1875-S Trade Dollar Brilliant Uncirculated.** Moderately reflective surfaces with minor bag marks here and there. Some weaknesses are in evidence, particularly on the eagle's left thigh and claw. Still gives an above average appearance for a **BU**.
- 540 1876-S Trade Dollar Brilliant Uncirculated.** "Brilliant" is a perfect term for this specimen. The strike is quite bold throughout. The only drawback is two series of bag markings in the obverse field from roughly 1:00 to 2:30. Flaws and all, this is one bright showpiece for a type set.
- 541 1876-S Trade Dollar ANACS AU-50.** Sharp details, some reverse scratches well hidden by the gray and orange toning.

- 542 1877-S Trade Dollar Choice AU.** White frosty surfaces with some faint golden toning. Practically as struck, and with the lightest possible circulation marks. May go for \$200, possibly more.

U.S. One Dollar Gold

- 543 1849 Open Wreath \$1 Gold Type I Choice Brilliant Uncirculated. Warm, lustrous orange overtones with a tiny obverse field mark at 8:30.
- 544 1849 to 1854 \$1 Gold Type I Average EF/AU. A complete run of the Type I \$1 gold pieces. Though some have been lightly (and harmlessly) cleaned, the overall condition is sure to please any collector who is looking for a date set that's easy on the wallet. The 1851 does have a thin diagonal scratch over *DOLLAR*, else this select group is closer to AU than EF. Worth \$650 - \$750. [6]
- 545 1851 \$1 Gold Type I AU. Sharp details. Mustard yellow with some darker toning in the reverse devices.
- 546 1851 and 1853 \$1 Gold Type I Average EF. Two of the first date and three of the second. As with the group of six listed above, some light and meaningless cleaning. A few have some minor circulation marks, but the group is attractive nevertheless. \$500. [5]
- 547 1851 and 1853 \$1 Gold Type I VF and AU. The first piece has some edge nicks, the last with a tiny obverse field dent and reverse scrape. [2]
- 552 1853 \$1 Gold Type I Brilliant Uncirculated. Light toning with better-than-average details.
- 553 1853 \$1 Gold Type I Brilliant Uncirculated. A few hairline scratches in field, above star at 5:00.
- 554 1853 \$1 Gold Type I Choice AU. Strong details with little signs of wear.
- 555 1853 \$1 Gold Type I AU. Nice details with only minor marks.
- 556 1854 T1 \$1 Gold Type I Very Choice Brilliant Uncirculated. The hair, star and leaf details could not be any sharper on this satin-finished specimen.
- 557 \$1 Gold Type I 1854 and Type II. Both are ANACS graded, the first encapsulated as AU-55, the last EF-45. The two are highly lustrous. [2]
- 558 \$1 Gold Type I 1854 and 1874. The first is encapsulated as MS-61, the other as MS-60. The last piece seems far better than graded; it's possible that ANACS mistook an obverse die weakness at the "C" as a defect. Certainly an above average pair. [2]

- 548 1851-C \$1 Gold Type I Choice Brilliant Uncirculated. Orange-yellow to light yellow shades, typical of this issue. An above average strike with die and planchet striations less obvious than generally seen.
- 549 1852 \$1 Gold Type I Brilliant Uncirculated. Excellent strike and general appearance. Some light brushing in the field is visible upon close inspection.
- 550 \$1 Gold Type I 1852/52 ACG, 1874 ANACS. Both are graded as AU-58. The former is pale yellow, the last is bright orange. [2]

- 551 1853 \$1 Gold Type I Very Choice Brilliant Uncirculated. A frosty little jewel. Small planchet defect on the reverse. Possibly worth a premium as a "Mint Error".

- 559 1854 T2 \$1 Gold Type II Brilliant Uncirculated, near Choice. Orange central toning fades into yellow at the obverse periphery with a tiny orange-red area at 1:00. The reverse is a solidly neutral yellow shade. A few scattered hairlines blend into the die-clashing. A beauty, which could fetch into the mid four-figure range.
- 560 1854 T2 \$1 Gold Type II Choice AU. In full brilliance, it is difficult to separate actual wear from softness of strike on the hair. With its glowing pale orange surfaces, this piece will fit, with comfort, in a BU set.
- 561 1854 T2 \$1 Gold Type II AU. A better-than-average strike on both sides. First year of the scarce "Indian Princess" design.

All Gold Dollars have been enlarged.

- 562 1855 T2 \$1 Gold Type II BU, Choice or nearly so.** Struck well on both sides. Even the date is sharper than generally seen on this issue. No uneven toning or planchet spotting. Mostly lemon yellow throughout. Add to this the superb styling incorporated in the "Indian Princess" design. Could bring in \$6,000 to \$7,000 range.

- 563 1855 T2 \$1 Gold Type II PCGS AU-55.** Lively orange-yellow frost. Sharply struck for a T2, and especially well defined for a circulated specimen. This is one "AU" that will bring at or near the four-figure level.

- 564 1855 T2 \$1 Gold Type II AU.** Light toning with moderate wear and handling marks. \$400 - \$450.

- 565 1855 T2 \$1 Gold Type II EF.** The obverse with a few hairlines and reverse with typical central weaknessess.

- 566 1855-O \$1 Gold Type II Choice EF.** A few light marks which only magnification can pick up. Even then, the viewer may just as well notate "AU" next to this lot number.

- 567 1856 T3 \$1 Gold Type II Choice AU.** Light, bright yellow toning.

- 568 1860-S \$1 Gold Type III AU.** Very scarce, as indicated by its 13,000-piece issuance. There is little, if any wear. A light polishing has been applied, but not to the degree which makes it look unsightly. Over all, an "AU" rating would be appropriate.

- 569 1873 \$1 Gold Type III Brilliant Uncirculated, nearly Choice.** Yellow-orange frost with sharp definitions on both sides.

- 570 1873 and 1874 \$1 Gold Type III Choice AU.** A very attractive pair of Type III gold dollars, the former probably Uncirculated but with a few minor hairlines. Will more than likely fetch \$300 or so. [2]

- 571 1874 \$1 Gold Type III Brilliant Uncirculated.** Has a rather pronounced tarnished spot near bow, at 5:00.

- 572 1874 \$1 Gold Type III Brilliant Uncirculated.** Orange frost. A few light abrasions.

- 573 1887 \$1 Gold Type III Very Choice Brilliant Uncirculated.** One of the low-mintage pieces of the 1880's, this near Gem shows a total of 7,500 struck for circulation.

- 574 1889 \$1 Gold Type III Very Choice Brilliant Uncirculated.** Last year of issue with 28,950 struck for circulation. Sparkling lustre, well struck and with few marks.

Please note that a 15% buyer's premium will be added to each lot purchased.

U.S. Gold - Quarter Eagles (\$2.50)

- 575 1852 \$2.50 Liberty NGC MS-61. Bright yellow with some orange at the date.

- 576 1853 \$2.50 Liberty Choice Brilliant Uncirculated. A light hairline or two does little to distract the viewer from an overall lovely appearance. Pale to whitish yellow toning and a needle-sharp strike add much to this specimen, so infrequently seen above "BU".

- 577 1853 \$2.50 Liberty Choice AU. Not as common as the relatively high mintage figures would indicate, especially in this grade. Soft yellow-orange toning and a needle-sharp obverse. \$150 - \$200.

- 578 1853 \$2.50 Liberty EF/AU. A few hairlines in obverse field.

- 579 1853 \$2.50 Liberty ANACS VF-35. Light color with some dark orange tones here and there.

Rare 1857-O Quarter Eagle

- 580 1857-O \$2.50 Liberty Choice BU or better. An even shade of lemon yellow lustre graces both sides. The strike is full for this issue, and only the slightest bag marks can be seen with the unaided eye. When held at a certain angle, a *fine* hairline can be detected on the obverse, just under the eye to the base of the ear. It is too minor to detract from the grade, but in fairness to the non-viewer, must be mentioned. To quote Akers, "...people do not appreciate the real rarity of this date in choice condition." A finer piece is not likely to surface at anytime soon, and a bid at or near the five-figure level is appropriate.

- 581 1857-S \$2.50 Liberty NGC AU-58. One of the rare high-grade San Francisco \$2.50 pieces from the 1850's, this year having an issuance of 69,200 with few survivors above VF. Sharp with bright orange lustre, free from any circulation marks worth mentioning. Just about equal in appearance (and value) to BU.

- 582 1862-S \$2.50 Liberty NGC AU-58. Only 8,000 struck. This is the rarest of the four Civil War years (none were struck in 1864) and is practically impossible to locate in this state of preservation! The obverse is yellow with orange at the periphery, the reverse is generally orange throughout with yellow highlights here and there. A tiny planchet flaw, as struck, lies between stars 11 and 12 at 3:30. It does not interfere with the stars or denticals, and even disappears when the coin is held upright. This first-rate item should fetch somewhere in the mid four figure bracket.

- 583 1866-S PCGS EF-40 \$2.50 Liberty A scarce date, only 38,960 issued. Bright surfaces with a hairline in the field, opposite Liberty's neck. Probably downgraded from AU or Ch. AU because of this mark. Regardless, any collector would be happy to own this "XF-40" at the \$500 level.

- 584 1871 \$2.50 Liberty Choice AU. With a *total* mintage of 5,350 including the 30 Proofs, this has to be regarded as rare in any condition. A goodly amount of mirror-like surface remains, and the details surely equal that of a Proof. Only the slightest signs of circulation.

585 1878 \$2.50 Liberty Choice Brilliant Uncirculated. Highly brilliant light yellow surfaces.

586 1878 \$2.50 Liberty Choice AU. Sharply struck with pale blond lustre. A bit better than a common date and quite attractive.

587 1878 \$2.50 Liberty EF/AU. Nice, even wear.

588 1878 \$2.50 Liberty EF. Strong details for EF, but once used as a charm.

589 1891 \$2.50 Liberty ANACS AU-53. Light toning with very sharp definitions. Limited die use, with only 11,040 minted.

590 1900 \$2.50 Liberty Choice AU. Full mint frost with no actual wear, just some scuffs and a few reverse edge nicks at 1:30.

591 1901 \$2.50 Liberty Near Choice BU. Bright yellow frost. A few bag marks in the left obverse field *possibly* takes this piece out of a Choice rating.

592 1903 \$2.50 Liberty Brilliant Uncirculated. A Gem but for a very slight edge bruise on the reverse at 10:00, best observed by turning the coin on its edge. Thickly frosted surfaces impart a warm yellowish glow on this superb specimen. \$600 - \$700 would not be an unreasonable bidding level for this piece.

593 1907 \$2.50 Liberty Choice Brilliant Uncirculated. Medium orange toning with but a few harmless bag marks.

594 1907 \$2.50 Liberty ANACS MS-61. Bright yellow, a bit towards the orange side on the reverse.

595 1907 \$2.50 Liberty Brilliant Uncirculated. A few hairlines, but great eye-appeal.

596 1907 \$2.50 Liberty Choice AU. No wear, just slightly polished.

597 1908 \$2.50 Indian Head PCGS MS-64. First year of issue for the incused and the Indian Head design. A crispy, bright yellow example with no marks or flaws to report on.

598 1908 \$2.50 Indian Head NGC MS-63. A second example of this first year type, and just a grade less than the above.

599 1909 \$2.50 Indian Head Very Choice Brilliant Uncirculated. Nearly a Gem. Slight orange toning on both sides. Natural die striae (as struck) between eagle and legend. Could fetch \$1,600 - \$1,700 or more.

600 1910 \$2.50 Indian Head NGC MS-64. Wonderfully thick pale orange lustre, struck up to the very end of the eagle's shoulder feathers. Not far from a Gem rating and one of the tougher dates to get in this series.

601 1910 \$2.50 Indian Head NGC MS-63. A very noticeable difference of color than that of the previous specimen. Bright yellow and with a few small bag marks. Certainly Choice.

602 1910 \$2.50 Indian Head Choice AU. Moderate yellow frost with no problems.

603 1908 \$2.50 Indian Head AU. Very light color.

604 1911 \$2.50 Indian Head NGC MS-64. Beautiful shades of light orange and yellow, with a bit of greenish toning in the Indian's neck area. As close to the Gem category that the collector can hope for. The strike is optimal.

**All \$2.50 Gold Dollars
have been enlarged.**

- 605 **1911 \$2.50 Indian Head Choice Brilliant Uncirculated.** Very even and light yellow frost. An attractive earlier date.
- 606 **1911 \$2.50 Indian Head NGC MS-62.** Mixed orange and yellow shades, sharp details.
- 607 **1911 \$2.50 Indian Head NGC MS-62.** Light yellow toning.
- 608 **1911 \$2.50 Indian Head NGC MS-62.** Another in this encapsulation and grade. More towards orange than previous specimen.
- 609 **1911 \$2.50 Indian Head** Yet another **NGC-62**, also with some orange color.
- 610 **1911 \$2.50 Indian Head PCGS MS-62.** Deep orange color, nicely struck and with very few blemishes.
- 611 **1911 \$2.50 Indian Head AU.**
- 612 **1912 \$2.50 Indian Head NGC MS-62.** Rich orange textures with both light green and red areas.
- 613 **1913 \$2.50 Indian Head NGC MS-62.** Pretty light yellow frost; at the upper end of *MS-62*.
- 614 **1913 \$2.50 Indian Head NGC MS-62.** Another of the same encapsulation and grade, but a shade darker.
- 615 **1913 \$2.50 Indian Head PCGS MS-62.**

- 617 **1914-D \$2.50 Indian Head NGC MS-63.** Highly brilliant brassy yellow surfaces, the reverse undulations characteristic of this date/Mint. Gem eye-appeal, and at least equal to the given designation of *Choice*. The collector will not find a better piece, given this encapsulated grade.

- 618 **1914-D \$2.50 Indian Head Choice Brilliant Uncirculated.** Lively pale yellow surfaces with a bit of orange toning in the incused devices. A scarcer early date which may very well bring \$1,250 - \$1,500.
- 619 **1914-D \$2.50 Indian Head Brilliant Uncirculated.** Bright surfaces and even toning, with excellent definition.
- 620 **1915 \$2.50 Indian Head NGC MS-62.** Solidly in the 62 range, having the typical pale orange color of the teen years.
- 621 **1915 \$2.50 Indian Head Brilliant Uncirculated.** Few distractions on this above-average specimen.
- 622 **1915 \$2.50 Indian Head Choice AU.** Fully struck, even the eagle's shoulder feathers are bold.

- 616 **1914-D \$2.50 Indian Head Very Choice Brilliant Uncirculated.** The best of the 1914-D Quarter Eagles in this sale. Sharply struck and with a glossy yellow-orange tone. The few handling marks are best observed under magnification. A \$15,000 coin in Gem, this should bring several thousand dollars.

Extraordinary \$2.50 Gold Indian

- 623 **1925-D \$2.50 Indian Head Gem Brilliant Uncirculated.** Rich orange-salmon toning is evenly disbursed on both sides. Whatever bag marks exist can easily be forgiven in view of its extraordinary appearance. A \$2,000 or so offering may be needed to snare this superbly struck specimen.

- 624 **1926 \$2.50 Indian Head Brilliant Uncirculated.** Light yellow textures throughout, accompanied by minimal contact marks. Possibly Choice. \$400 - \$500.

- 625 **1927 \$2.50 Indian Head Brilliant Uncirculated.** Well above average. Light yellow surfaces and fully struck. \$300 - \$400.

- 626 **1928 \$2.50 Indian Head Choice Brilliant Uncirculated.** Satin-like and sharp with only minor bag markings here and there. Worth \$700 - \$800.

- 627 **1928 \$2.50 Indian Head PCGS MS-62.** In an older style holder. Very sharp and attractive, especially with the salmon and red-orange reverse.

- 628 **1928 \$2.50 Indian Head Brilliant Uncirculated.** Not too far from a higher rating. Light yellow with a sprinkling of orange toning.

U.S. Gold - Three Dollars

- 629 **1854 \$3 Gold PCGS MS-64.** First year of issue for this denomination. Only year of issue for the small *DOLLAR* sub-type. Lightly toned with typical medium yellow frost. Bag marks and blemishes only become noticeable under magnification, else the appearance is clean. A little bit of soot on the reverse has lodged between some of the devices, giving these features an extra depth and clarity they otherwise would not have. A popular rarity, this specimen should bring somewhere into the mid four-figure range.

- 630 **1854 \$3 Gold AU.** A few small planchet depressions (Mint-caused) go unnoticed, save for one under the neck truncation at 7:00. Otherwise, a Choice AU.

- 631 **1854 \$3 Gold** Looped at the top for jewelry use, this \$3 gold still retains the look of an "AU".

- 632 **1855 \$3 Gold EF.** Pleasing light color. First year of issue for this "Large Denomination" sub-type. \$650 - \$700.

- 633 **1856-S VF.** Light, even wear on this problem-free specimen.

- 634 **1859 \$3 Gold ANACS AU-55.** A slightly better date from this scarce series with 15,638 issued. Moderate yellow toning on both sides, the reverse with a bit more brilliance.

Low-Mintage \$3 Gold

- 635 **1869 \$3 Gold Brilliant Uncirculated.** Highly lustrous orange and yellow surfaces hallmark this rarely offered date. Only 2,500 struck for circulation, to go along with the 25 Proofs. Some scattered tiny bag marks and a few hairlines are not intrusive, in view of the over all appearance.

- 636 **1874 \$3 Gold NGC MS-62.** A fiery yellow, nearly Choice example of this short-lived series. A common date for the type, it should have appeal for the type collector who does not wish to purchase one of the better dates.

- 637 **1874 \$3 Gold EF or better.** Nice details for the grade. Bright surfaces, some orange toning on the reverse. Worth around \$700.

- 638 **1878 \$3 Gold Choice Brilliant Uncirculated.** Pale yellow surfaces are beautifully highlighted by orange and reddish-tan toning in the devices. A lovely cartwheel glow around Liberty's portrait completes the finishing touches to this select specimen. Bag markings are faint and none is worth mentioning. The bidding might well top the \$3,000 level.

- 639 **1878 \$3 Gold PCGS AU-58.** A very unusual specimen. There seems to be no wear and full brilliance under the chalky matte-like color. Could probably be cleaned or *conserved* to a higher grade, if so desired. Whatever the case may be, an offer of \$1,000 should suit the buyer.

- 640 **1878 \$3 Gold EF or better.** Light toning with a bit of original mint frost still remaining on the reverse. Should fetch around \$700.

- 641 **1878 EF.** Evenly worn. A removable spot is in the "A" of *STATES*.

- 642 **1878 \$3 Gold.** Polished and previously mounted at top. The details have "Choice AU" or better clarity, but this would not be a proper designation for a former jewelry piece. Probably worth close to \$200.

- 643 **1888 Very Choice Brilliant Uncirculated.** Another low-mintage year in this offering, this with an issuance of 5,000 circulation strikes, plus 291 Proofs. Glowing yellow surfaces with a smattering of copper toning in a few of the reverse devices. A bag abrasion (reverse) off the denticals at 8:30 is mentioned for accuracy. An exceptional specimen, condition-wise the finest Three Dollar piece in our sale.

- 644 **1889 \$3 Gold AU, Very Choice.** No actual wear, but there are signs of mishandling (chiefly rubbing) on the obverse. Still, the reverse maintains a *Choice BU* appearance. Last date of issue for this unusual denomination, with a mere 2,300 struck for circulation.

- 645 **1889 Choice AU.** Quite lustrous. In full detail.

U.S. Gold - Half Eagles (\$5.00)

- 646 1802/1 \$5 Capped Heraldic Eagle Choice AU.** A goodly amount of mint frost is evident on both sides of this strongly detailed specimen. Every feather on the eagle's breast is clearly visible to the naked eye; only the lightest obverse friction removes this from Mint State. There is an edge thinning just after the last "S" of "STATES" and just prior to the "F" of "OF". This may or may not be of Mint origin. There are adjustment marks on the denticals of the opposite side, plus a correct weight of 8.75 grams; no gold appears to have been intentionally removed after it left the Mint. Still, the collector should examine this specimen to his satisfaction before bidding.

Gem 1812 Half Eagle

- 647 1812 Breen 1-B \$5 Capped Bust Left Gem Brilliant Uncirculated.** "Wide 5 D." Somewhat misleading. More accurate would be "Distant 5 D." since the difference lies in the *spacing* between the numeral and letter, not their *width*. According to Breen, this variety is "apparently from an old hoard." No doubt true, but seldom does a hoard coin survive in this splendid state of preservation. The strike has registered **everything** that the die had to offer -- stars, hair curls, cheek, eyebrow, etcetera. The reverse is equal to the task, regarding die-transference. Lemon yellow brilliance is uniformly displayed on both sides, and accorded greater elevation by the paucity of keg markings. For whatever faults and problems the collector can possibly uncover, the single-most designation for this half eagle will still be "Gem".

Noteworthy 1818 "STATESOF" Variety

- 648 1818 Breen 2-B \$5 Capped Head Brilliant Uncirculated.** "STATESOF" as one word. Breen's notation reads simply as "Very rare." which it is, indeed. There are some slightly diagonal adjustment marks across the obverse, the general direction of which is from the corner of the eye to the center of the ear, and lower down, to the chin. Done at the Mint to remove excess gold, it is part of its manufacture and history. The obverse is moderate yellow while the reverse leans more towards orange, with thicker frost. It is struck well for this variety, the central portions of which are always a bit softer than the peripheral devices. Should reach the five-figure level, with room to spare.

- 649 1834 \$5 Classic Head AU.** Cleaned a bit but still attractive. The details are sharp.

- 650 1838 \$5 Classic Head AU.** Last year of the Classic Head design. Brightened up with some minor marks scattered about, but the resultant deep yellow color plus its strong details call for this rating. Should bring \$400 - \$500.

High Grade 1843-C \$5

- 651 **1843-C \$5 Liberty PCGS MS-63.** Superbly struck for this date/Mint with thick yellow lustre, deepening to orange at the edges. A high-end specimen of a coin which David Akers says is "...typically seen...VF to EF range and AU examples are rare. I have seen only one strictly uncirculated piece and it is doubtful if more than a few others survive." The surfaces are well above average regarding contact marks, only a small scratch *on the plastic holder* is worth noting!

- 652 **1846 D/D \$5 Liberty ANACS VF-20.** A scarce Dahlonega sub-type, the first "D" punched far into an olive branch. Some darker shades highlight most of the devices.

- 653 **1847-C \$5 Liberty EF/AU.** Slightly brightened and with a couple of insignificant reverse edge nicks, but still closer to the higher end of this split grade, with all of its sharp details.

- 654 **1852-D \$5 Liberty Choice AU.** Nearly full Mint lustre to go along with its full details! According to Akers, "The 1852-D is always weakly struck, particularly at the borders and on the hair curls around Liberty's face." The collector would do well to note these characteristics while examining this lovely specimen.

- 655 **1857-D \$5 Liberty EF.** Two scratches in front of the face plus cleaning keeps this "AU details" in the EF category.

- 656 **1881 \$5 Liberty Brilliant Uncirculated.** Nice light color and distinctly above average.

- 657 **1881-S \$5 Liberty EF/AU.** Average for the grade.

- 658 **1882 \$5 Liberty Brilliant Uncirculated.** Average to better, for the grade.

- 659 **1882-S and 1906 \$5 Liberty Both ANACS** graded and in **MS-61** holders. The first piece has deeper toning than the second. [2]

- 660 **1885-S \$5 Liberty PCGS MS-63.** Phenomenal orange-peel frost is uncannily matched to a needle-like strike on this half eagle. Only a few trivial bag marks. Though a relatively common date/Mint, it should easily surpass the \$550 - \$650 levels normally given.

- 661 **1886-S \$5 Liberty NGC MS-63.** Another conservatively graded "S" Mint \$5, this with the more yellowish look associated with gold pieces of that era.

- 662 **1886-S \$5 Liberty NGC MS-63.** A second piece.

- 663 **1891-CC \$5 Liberty Brilliant Uncirculated.** Frosty light orange color. A slight obverse edge depression at 12:00 can scarcely be labeled a "dent", but is mentioned here just the same.

- 664 **1891-CC \$5 Liberty Choice AU.** This is one Choice AU the collector should take another look at. Having the details of a Choice BU, a light polishing is its only fault.

- 665 **1892 \$5 Liberty Brilliant Uncirculated.** Orange frost, a little lighter on the reverse.

- 666 **1893-O \$5 Liberty Brilliant Uncirculated.** A deceptively difficult coin to find in Mint State condition. A lively pale yellow shade on both sides. Well struck, even into the eagle's legs and claws.

- 667 **1895 \$5 Liberty NGC MS-63.** Very light yellow lustre.

- 668 **1899 \$5 Liberty Brilliant Uncirculated.** Not Choice, but distinctly better than average.

- 669 **1900 \$5 Liberty Brilliant Uncirculated.** Sharp strike, coupled with pretty orange frost.

- 670 **1900 and 1906 \$5 Liberty** Both are **ANACS** encapsulated. The first is a bright yellow **MS-62**, the second a deep orange **MS-61**. [2]

- 671 **1901 \$5 Liberty** A pair of **ANACS** certified pieces, one **AU-58**, the other **EF-45**. [2]

- 672 **1901-S \$5 Liberty Brilliant Uncirculated.** Bright surfaces, some orange toning in the devices.

- 673 **1901-S \$5 Liberty Choice AU.** BU definitions, but the obverse was lightly cleaned.

- 674 **1902-S \$5 Liberty Ch. to Very Ch. BU.** Nice copper-orange shades on both sides. A lovely 102-year-old specimen.

- 675 **1904 \$5 Liberty Brilliant Uncirculated.** A centennial coin with sandy yellow toning. Unusually broad reeding and edges.

- 676 **1906-D \$5 Liberty Choice BU or better.** Yellow frost, typical of this era. The first year of Denver Mint half eagles, this oddly positioned mint mark is tilted upward and shifted to the left. \$400 - \$450

- 677 **1906-D \$5 Liberty Brilliant Uncirculated.** The first of only two years for Denver Mint issues of the Liberty Head design.

- 678 **1906-D and 1907-D \$5 Liberty** An **ANACS** certified pair of Denver Mint Half Eagles, both in **MS-61**, the second more brilliant than the first. [2]

- 679 **1906-S \$5 Liberty Choice AU.** Actually Mint State with a bit of PL surface, but has some rubbing in the left obverse field.

- 680 **1907 \$5 Liberty Brilliant Uncirculated.** Average for the grade.

- 681 **1907 \$5 Liberty EF/AU.** Closer to AU.

- 682 1907-D \$5 Liberty Choice Brilliant Uncirculated.** Flashy light orange surfaces coupled with a typically sharp Denver strike.
- 683 1907-D \$5 Liberty Brilliant Uncirculated.** Another "D" half eagle with a slightly less orange tone than above, and a few extra bag marks which remove it from "Choice".
- 684 1908 \$5 Liberty Brilliant Uncirculated.** Last year of the Liberty Head design, first begun in 1839! Looks *Very Choice* at first glance, but a thin scratch from first star to neck must be taken into account.
- 685 1908 \$5 Indian Head Brilliant Uncirculated.** Very light yellow lustre. Far better than average, save for that of two hairlines in the field behind the eagle's head.
- 686 1909 \$5 Indian Head Choice EF.** Nice light color. The surfaces are relatively unmarked.
- 687 1909-D \$5 Indian Head Brilliant Uncirculated.** Full lustre and excellent feather definitions. The lower obverse has a wire edge.
- 688 1909-D \$5 Indian Head Choice AU.** Somewhat soft on the "D", otherwise bold and lustrous.
- 689 1910 \$5 Indian Head Choice AU.** Some pretty orange highlights can be seen on both sides. The strike is above average.

- 690 1911-D \$5 Indian Head AU.** Possibly enough details for "Choice". Light orange toning, settling mainly in the incused devices. Though soft, the "D" Mint mark is easily readable. Should bring at least \$500 - \$600.
- 691 1913 \$5 Indian Head AU.** Orange and tan toning, most of which is visible in the recessed areas.
- 692 1913-S \$5 Indian Head Choice AU.** Normally mushy around the peripheries, the strike is full and even to the very edges. Light wear, but in many respects, nicer than an average BU.
- 693 1913-S \$5 Indian Head Choice AU.** A second Ch. AU, probably a bit more flashy with contrasting orange color in the incused devices. A bit soft at the edges, else sharply detailed with a bold "S".
- 694 1914 \$5 Indian Head Brilliant Uncirculated.** Copious mint frost lies under a sooty layer, probably the result of non-numismatic storage for many decades.
- 695 1914-D \$5 Indian Head Brilliant Uncirculated.** Pale yellow reflectivity.

U.S. Gold - Eagles (\$10.00)

Desirable 1801 Eagle

696 1801 \$10 Capped Heraldic Eagle Choice AU.

Sharp on both sides with a full Proof-Like reverse featuring all wing and tail feathers, in addition to shield lines. Practically every neck and breast feather is separated. A long-ago cleaning is evidenced by different textures while old obverse scuffing now appears as natural wear. The coin was apparently dropped on its edge, or third side. Fortunately, just the reeding was flattened between the *RT* of *LIBERTY*, and the design features on both front and back remained undisturbed. There are no distracting marks or scratches, and a little bit of orange toning at the obverse edges and around Ms. Liberty only serve to intensify the details.

697 1847 and 1881 \$10 Liberty No Motto. The first, a "No Motto" type in **EF-45**. The second is a "Motto" type, also **EF-45** but marked "Cleaned". The two are in ANACS holders. [2]

Extremely Rare 1854-O Eagle

698 1854-O Large Date \$10 Liberty No Motto Choice AU. "Prohibitively Rare (in) Unc." as

stated by Breen, who also describes this **LD** variety as rare in any condition and "almost always weak in centers". The specimen offered herein is sharp in every respect with no faults other than the slightest wear on the highest portions. It has the details of a fully mint state specimen, moderate yellow-orange reflectivity, and some blue highlights on the uppermost design areas. For both **SD** and **LD** varieties, the mintage is a scant 52,500. Akers states "*In high grade ...is extremely rare and I have not personally seen a mint state piece...*" Akers concludes with the following: "*This issue comes with both small and large dates. The latter...is much the rarer of the two and is seldom available in any condition. The difference in date size is great (unlike the 1842 for example where the difference is rather small) and both varieties should be listed separately in the standard pricing guides.*" The significance of these prescient remarks are borne out by the test of time; twenty-five years since Akers' comments have diminished their content not a whit. Certainly merits a strong four-figure offering.

699 1355-S \$10 Liberty No Motto **VF**. Rare! 9,000 struck for circulation. Well detailed for this grade, a small obverse edge mark at 7:00 its lone detractor. The surfaces are bright and circulation marks consistent with its rating. Will likely fetch in excess of \$1,000.

700 1856-S \$10 Liberty Motto EF to AU. Detail-wise, this would rate *Choice AU*. However, there are some scratches across the cheek which extend into the field. A split grade seems to be in order. The bidder will decide which one to select.

701 1861 \$10 Liberty No Motto AU. Some old cleaning streaks, but still sharp and with nice color remaining. Low as it is, the mintage of 113, 233 makes it the only "easily obtainable" date of the 1860's. \$350 - \$400.

702 1874-CC \$10 Liberty Motto VF/EF. A borderline grade which is best finalized by the prospective buyer. To be on the safe side, an extremely high-end VF will probably suffice. Other than standard wear, there is little else to comment upon; the surfaces are that free of marks. Too, the light orange tones cast an unusual degree of reflectivity. This is one of the more collectable "CC" Mints of the 1870's, yet only 16,767 were struck.

703 1881 \$10 Liberty Motto Choice Brilliant Uncirculated.

704 1882 \$10 Liberty Motto PCGS MS-62. In an older styled holder.

705 1882 and 1897 \$10 Liberty Motto ANACS certified. The first grades **AU-55**, the second, **AU-58**. [2]

706 1887-S \$10 Liberty Motto PCGS MS-62. Salmon and orange color. Slight bluish peripheral toning on reverse.

707 1889-S \$10 Liberty Motto Choice Brilliant Uncirculated. Superbly struck, moderate yellow toning, and with vibrant cartwheel surfaces. Quite scarce in this state of preservation.

708 1891-CC \$10 Liberty Motto Brilliant Uncirculated. The first of three BU pieces, and the only "easily collectable" Carson City eagle. Bright lustre with bag marks typical of this grade.

709 1891-CC \$10 Liberty Motto Brilliant Uncirculated. A second piece, similar to above.

710 1891-CC \$10 Liberty Motto Brilliant Uncirculated. A third specimen, as above.

711 1892 \$10 Liberty Motto Choice AU. A small, meaningless nick in the field under the chin.

712 1894-O \$10 Liberty Motto PCGS MS-62. High yellow brilliance and a fair degree of Proof-Like surface, mainly on the obverse. Planchet flaw between stars 11 and 12 do not interfere with those devices.

713 1895 \$10 Liberty Motto Brilliant Uncirculated. Fewer marks than usually seen on a "BU". Not Choice, but fairly close.

714 1895-O \$10 Liberty Motto AU. Only 98,000 minted.

715 1898 \$10 Liberty Motto EF/AU. A lightly circulated example of this common date.

716 1901 \$10 Liberty Motto NGC MS-63. A popular and often-collected 20th century date; perfect for a type set.

717 1901 \$10 Liberty Motto NGC MS-62. Another piece of this popular date, just a grade under *Choice*.

718 1901 \$10 Liberty Motto Brilliant Uncirculated. Small reverse edge bruise at 2:00, else borderlining on a higher grade.

- 719 **1901 \$10 Liberty Motto Brilliant Uncirculated.** A few scuffs and bag marks here and there, but has excellent strike and color.
- 720 **1901 and 1906-S \$10 Liberty Motto Choice AU.** Both with strong detail and lustre. [2]
- 721 **1901-S \$10 Liberty Motto ANACS MS-61.** Very bright and untoned, save for the red-orange areas at 7:00 to 8:00.
- 722 **1901-S \$10 Liberty Motto Brilliant Uncirculated.** One of the more common date/Mint Eagles for the type collector.
- 723 **1906-D \$10 Liberty Motto Brilliant Uncirculated.** A *Choice BU* with some obverse field rubbing 8:00-10:00.
- 724 **1906-D \$10 Liberty Motto ANACS MS-61.** The variety indicated on the holder is "Repunched Date". Brilliant orange color.
- 725 **1907 \$10 Liberty Motto ANACS MS-62.** Average for the given grade.
- 726 **1907 \$10 Liberty Motto Brilliant Uncirculated.** Dazzling lustre on this Liberty Head eagle, an obverse field abrasion away from *Choice*.
- 727 **1907 \$10 Liberty Motto AU.** Last year of the so-called "Coronet" design, first issued in 1838.

- 728 **1907 \$10 Indian No Motto Choice Brilliant Uncirculated.** The few bag marks, or any other blemishes can easily be overlooked, in view of the bright orange lustre on both sides.

- 729 **1907 \$10 Indian No Motto BU or better.** Only some minor contact marks in the field adjacent to the Indian's profile. The reverse is *at least Choice*.

- 730 **1908-D NM \$10 Indian No Motto Choice Brilliant Uncirculated.** Blond toning evenly distributed on both sides. Few noticeable bag marks.
- 731 **1908-D NM \$10 Indian No Motto Choice AU.** Similar to above, possibly originated from the same source. Does not appear to have any design detail missing, but has light rubbing on the high points. Even free of bag marks.
- 732 **1908 Motto \$10 Indian With Motto BU, probably Choice.** Despite a horizontal mark from the cheek to the jaw, the viewer will more than likely rate this specimen *Choice*. The reverse has a matte-like ochre tone, the obverse with less earthen overtones but with pebbly brilliance just the same.
- 733 **1910-D \$10 Indian With Motto Brilliant Uncirculated.** Looks *Choice* but for some light friction on the lower part of the obverse. Nice cartwheel finish, particularly on the reverse.

- 734 **1910-D \$10 Indian With Motto Choice AU.** Nicely struck, very few marks and a good deal of reflective frost.
- 735 **1910-S \$10 Indian With Motto ANACS AU-50.** According to the encapsulation, it is an "S/S/S Breen-7114 RPM-1".

- 736 **1911 \$10 Indian With Motto Choice Brilliant Uncirculated.** Light yellow mint bloom; the collector will doubtlessly overlook a minute obverse edge cut at 9:00.
- 737 **1911 \$10 Indian With Motto AU.** Light yellow with some darker orange shades in the devices.
- 738 **1912 \$10 Indian With Motto Brilliant Uncirculated.** Full light yellow frost, but somewhat bag marked.

- 739 **1913 \$10 Indian With Motto Ch. BU, or nearly so.** Has the eye appeal of a Gem BU, but a few bag marks on the lower face and neck area put this piece in a fuzzy grading range. Should be carefully viewed before bidding, but \$500 - \$600 would seem to be a fair guess.

- 740 **1914-D \$10 Indian With Motto Choice Brilliant Uncirculated.** Bright, slightly orange toned surfaces with all details clear. Not rare, but a fairly difficult date/Mint to obtain in this condition.

U.S. Gold - Double Eagles (\$20.00)

Seldom Seen 1851 Double Eagle

- 741 1851 \$20 Liberty No Motto Uncirculated, Gem appearance.** Probably impossible to affix a standard grade to. Regarding sharpness of strike, it is perfect. The same can almost be said regarding bag marks and other normal imperfections of Mint-made coins. Close inspection of this blond to light orange toned specimen does reveal some light brushing of the cheek and adjacent areas, an effort made to lighten a scrape or two. Placed in a Gem type set amidst other coins with MS ratings in the mid to high 60's, this lovely Double Eagle will more than hold its own.

Rare 1862-S Twenty Dollar Piece

- 744 1862-S \$20 Liberty No Motto Brilliant Uncirculated.** Deep orange toning throughout with some tan-blue highlights scattered about. A rarity in any condition, this piece has minimal bag markings for the grade and an optimal definition of strike. The Civil War mintage figures can never be used as guide to survivance, particularly in the higher grades. This is more true of gold issues than either copper or silver. A very strong four-figure offering may be needed to secure this specimen.

- 742 1851 \$20 Liberty No Motto NGC MS-61.** Standard bag markings for the grade. Even, medium yellow lustre.

- 745 1870-S \$20 Liberty Brilliant Uncirculated.** Remarkable pale yellow Proof-Like surfaces, and a superb strike to match! Because of the general emptiness of design and mirror-like reflectivity, typical bag and scuff marks become more noticeable. On a more frosty planchet, the appearance might lend itself to one or two points higher than assumed. Certainly eye-catching, and worth a moderate four-figure bid.

- 743 1851-O \$20 Liberty EF.** Light even wear on bright surfaces. Better than average, for the grade.

- 746 **1872-S \$20 Liberty Brilliant Uncirculated.** Nice orange-yellow frost with only trivial bag marks. Another Liberty Twenty with a low survival rate in the higher grades.

- 747 **1873 "Open 3" \$20 Liberty Brilliant Uncirculated.** The "Brilliant" in "BU" is certainly the case here. Though having the typical amount of bag marks for this grade, the whitish-yellow lustre has unusual flash.

- 748 **1873 "Open 3" \$20 Liberty NGC MS-61.** Pale orange with some deep toning at "BE" of headdress.

- 749 **1874 \$20 Liberty Brilliant Uncirculated.** Similar in grade to the lot just offered, but with the typical orange toning of this era.

- 750 **1878-S \$20 Liberty Brilliant Uncirculated.** Lemon-yellow surfaces with few more bag marks than usual.

Unusual 1882-CC Double Eagle

- 751 **1882-CC \$20 Liberty BU, near Choice.** Bright, light yellow frost on both sides of this sharply struck specimen. The obverse has minute bag marks scattered about, probably a few too many for the *Choice* category. The reverse however, does meet all the criteria for this grade. The number of survivors in this condition (for a double eagle with only 39,140 struck) can be counted in the single digits.

- 752 **1883-S \$20 Liberty NGC MS-62.** Deep and highly reflective orange and yellow colors. With Choice BU specimens bringing \$6,500 and more, this very pretty near-miss is worth a second look.

753 1885-S \$20 Liberty EF. A harder year to obtain for the date collector than usually thought of. The combined mintages of the "P" and "CC" Mints total only 10,335.

754 1888-S \$20 Liberty NGC MS-62. A respectable specimen for the grade with bright orange hues.

755 1890 \$20 Liberty Choice Brilliant Uncirculated. A tricky coin to grade. Looks Very Choice or better, but has about six or seven shallow pin scratches on the obverse between hair bun and star thirteen, and a few others at the truncation of neck. An otherwise delightful specimen, well struck and with a light orange bloom.

756 1892-S \$20 Liberty ANACS AU-58. No wear and fully lustrous, just bag marked.

757 1894 \$20 Liberty Choice Brilliant Uncirculated. Sharply struck, untuned and evenly textured. Worth a bid around \$600.

758 1894-S \$20 Liberty Choice AU. Barely noticeable obverse edge bruise at 10:30, else respectable.

759 1895 \$20 Liberty Choice Brilliant Uncirculated. The obverse is wholly Proof-Like, the reverse completely frosted. If this was a Morgan Dollar, judged by its obverse alone, it would probably be an "MS-63 DMPL".

760 1896 \$20 Liberty ANACS MS-61. Flashy orange toning with the usual amount of bag markings for the grade.

761 1896 \$20 Liberty ANACS MS-61. A second ANACS piece, same date but a different appearance. This is listed as a "Repunched Date" and is brilliant yellow.

762 1896-S \$20 Liberty Choice AU. Very bright and probably never in circulation, just a few extra bag marks and cuts.

763 1897 \$20 Liberty ANACS AU-58. Bright yellow-orange shades. Appears BU.

764 1899-S \$20 Liberty Brilliant Uncirculated. A quick look gives the impression of a *Very Choice BU*, but there is some slight rubbing from the jaw to the chin which will lower its rating somewhat. Not often seen this nice.

765 1901 \$20 Liberty Brilliant Uncirculated. Bright yellow, usual bag markings.

766 1901-S \$20 Liberty Brilliant Uncirculated. Very lightly toned and quite brilliant.

- 767 1902 \$20 Liberty Brilliant Uncirculated.** A surprisingly rare higher-grade date. Choice listings call for \$7,500 or more! This piece has vibrant orange tones, sharp definitions and just a few light surface marks. Deserving of a premium bid.

- 768 1903 \$20 Liberty Choice Brilliant Uncirculated.** Nicely struck with a coppery orange cartwheel spin.

- 769 1904 \$20 Liberty Very Choice Brilliant Uncirculated.** Lovely satin surfaces, often found on this double-eagle date.

- 770 1904-S \$20 Liberty Choice Brilliant Uncirculated.** Only minor bagging on obverse, the reverse at least a grade better.

- 771 1905 \$20 Liberty Brilliant Uncirculated.** Has a Choice BU look in regard to strike and color, but initials "MB" (opposite the thirteenth star in the field) have been partially obscured by metal-tapping. Pretty at-a-glance look.

- 772 1906 \$20 Liberty PCGS MS-62.** Only 69,690 struck for circulation. Rich orange color.

- 773 1906-D \$20 Liberty PCGS MS-62.** Similar to the just-offered Philadelphia version, but with reddish tinges intermingling with highly reflective orange shades. In an older style holder.

- 774 1907 \$20 Liberty Choice Brilliant Uncirculated.** Pale orange toning. Soft lustre on the obverse, high brilliance on the reverse.

- 775 1907 \$20 Liberty Brilliant Uncirculated.** Average for the grade.

- 776 1907-D \$20 Liberty Type III Choice BU, probably better.** Glorious orange toning! There is a bag mark under Ms. Liberty's eye, but the toning is such that any technical problems can be overlooked.

Popular High Relief Twenty

- 777 1907 Wire Edge \$20 Saint-Gaudens High Relief Brilliant Uncirculated.** An obverse edge tapping at 6:00 is of little visual consequence, given the overall appearance. A light mustard-yellow frost dominates both sides and general bag markings are few and far between. The strike is superb. Facial details on Ms. Liberty, plus the eagle's breast and wing tips are razor sharp. Worth close to five figures.

- 778 **1907 \$20 Saint-Gaudens Very Choice Brilliant Uncirculated.** The first of the lower-relief issues. Superb sunset toning, the reverse having slightly more orange color.

- 779 **1908 NM \$20 Saint-Gaudens Very Choice Brilliant Uncirculated.** A Medium to darker yellow frost. A very thin and shallow hairline which extends from 10:00 edge to hair curl is of no consequence, value-wise.

- 780 **1908 NM \$20 Saint-Gaudens Choice Brilliant Uncirculated.** Average reflectivity with few bag marks.

- 781 **1908 NM \$20 Saint-Gaudens Brilliant Uncirculated.** Nearly Choice. Light frosty look.

- 782 **1911-D \$20 Saint-Gaudens Gem Brilliant Uncirculated.** Superb mustard-yellow matte surfaces. Few marks indeed, on this largest regularly-issued gold denomination. The facial details are unusually full and clear. \$1,000 or so.

- 783 **1913 \$20 Saint-Gaudens Choice AU.** Not rare, but certainly a better date (168,838 minted) which will just as easily fit into a BU set.

- 784 **1913-D \$20 Saint-Gaudens PCGS MS-64.** Nice strike and light lustre; a bit more orange toning on the reverse.

- 785 **1914-D \$20 Saint-Gaudens Very Choice Brilliant Uncirculated.** Light yellow and highly brilliant and evenly toned surfaces. The strike is superb. Bordering on the *Gem* category.

- 786 **1914-S \$20 Saint-Gaudens Very Choice Brilliant Uncirculated.** Vibrant orange colors are most dominant on the obverse. The reverse is similar, having other pastel tints as well.

- 787 **1914-S \$20 Saint-Gaudens Very Choice Brilliant Uncirculated.** Perhaps a few more blemishes than above, but just about as attractive.

- 788 **1923 \$20 Saint-Gaudens Brilliant Uncirculated.** Very light orange color and quite reflective, just a few too many bag marks for *Choice*.

Superb 1924 St. Gaudens

- 789 **1924 \$20 Saint-Gaudens PCGS MS-66.** Sharply struck, as might be expected for a *Gem* of this caliber. Only occasional and harmless bag markings. A warm, copperish glow crowns this specimen.

- 790 1924 \$20 Saint-Gaudens PCGS MS-66. Another specimen. Same general copperish color, this with some darker areas.

- 791 1924 \$20 Saint-Gaudens NGC MS-66. A slightly lighter coppery look than the previous two PCGS specimens.

- 792 1924 \$20 Saint-Gaudens NGC MS-66. Virtually untuned and glossy.

- 793 1924 \$20 Saint-Gaudens NGC MS-66. Another Gem, this with soft orange toning.

- 794 1924 \$20 Saint-Gaudens PCGS MS-65. A coppery appearance, not unlike the aforementioned "66"s. The toning is more uniform and the strike, surface disruptions (or lack thereof) and texture are remarkable. A reverse bag mark under "WE" seems to have penalized this piece by one or two grades. Simply beautiful!

- 795 1924 \$20 Saint-Gaudens PCGS MS-65. Orange with a copper-like look in some areas.

- 796 1924 \$20 Saint-Gaudens PCGS MS-65. Hazy yellow and amber shades with high brilliance just underneath.

- 797 1924 \$20 Saint-Gaudens Very Choice Brilliant Uncirculated. A hairline-shaped obverse bag mark under "RT" from Gem. Various orange and yellow tints.

- 798 1924 \$20 Saint-Gaudens Choice-Very Choice BU. Typical bright yellow reflectivity, the grade a tad lower than previous specimen.

- 799 1924 \$20 Saint-Gaudens Choice Brilliant Uncirculated. A strong piece, close to a higher grade. Beautifully even orange toning.

- 800 1924 \$20 Saint-Gaudens Choice Brilliant Uncirculated. The obverse is average or better, the reverse has bright orange overtones.

- 801 1924 \$20 Saint-Gaudens Brilliant Uncirculated. Choice in color and texture, but a couple of obverse edge nicks justifies this grade.

- 802 1925 \$20 Saint-Gaudens PCGS MS-65. Glossy yellow color; superb eye-appeal.

- 803 1925 \$20 Saint-Gaudens PCGS MS-65. The impression is just as sharp as the previous specimen, the toning a shade towards the orange side.

- 804 1925 \$20 Saint-Gaudens Choice Brilliant Uncirculated. Reverse edge bruise at 6:00, else respectable for this grade.

- 805 1926 \$20 Saint-Gaudens NGC MS-65. The collector should disregard the "65" column in various price guides when bidding for this Gem! The intense orange colors take on a bluish hue when the coin is rotated under moderate light. A similar reverse is dominated by deep yellow and tan overtones.

806 1927 \$20 Saint-Gaudens PCGS MS-66. Silky pale orange color, lighter yellow shades around the periphery giving somewhat of a halo effect. Copper-red is liberally sprinkled about the reverse.

807 1927 \$20 Saint-Gaudens PCGS MS-65. Lightly and evenly toned orange; typical of this date.

808 1927 \$20 Saint-Gaudens Very Choice Brilliant Uncirculated. Blazing sunset lustre. In a technical sense, it may not measure up to a higher grade, but the collector with an eye towards color will certainly appreciate this specimen!

809 1927 \$20 Saint-Gaudens Very Choice Brilliant Uncirculated. The obverse is an orange toned Gem, the reverse just a few bag marks away from this condition.

810 1927 \$20 Saint-Gaudens Choice to Very Choice BU. Typical orange toning, and closer to *Very Choice*, if not fully that grade.

811 1927 \$20 Saint-Gaudens Choice BU or better. Brassy yellow, and quite reflective.

812 1927 \$20 Saint-Gaudens Brilliant Uncirculated. Nearly in the *Choice* category.

813 1927 \$20 Saint-Gaudens Brilliant Uncirculated. Some bag marks across the knee, but well above average.

814 1928 \$20 Saint-Gaudens Gem Brilliant Uncirculated. Very light satin surfaces. Surprisingly few blemishes on this well struck specimen.

815 1928 \$20 Saint-Gaudens Very Choice Brilliant Uncirculated. Similar in color and texture to the above Gem, but with just enough little contact marks to remove it from that category.

816 1928 \$20 Saint-Gaudens Brilliant Uncirculated. A third specimen of this date.

U.S. Silver Commemoratives

826 **1893 Isabella Quarter AU.** Highly detailed and with few marks.

827 **1893 Isabella Quarter Choice EF.** Lightly circulated, its details still remain sharp enough to bring \$200 or more.

828 **1900 Lafayette Silver Dollar Choice AU.** White for the most part, traces of russet toning towards the edges.

829 **1900 Lafayette Silver Dollar Choice EF.** Brightened up somewhat with a bit of polish, but still attractive and desirable enough to elicit a \$250 offering.

830 **Alabama 1921.** Would be Choice but for a dark stain on Kilby's chest. **Arkansas 1936.** Appears as "Ch. BU" but has been lightly polished. **California 1925.** Ch. AU in regards to wear. There is a dark semi-circular area on the reverse from approximately 12:00 to 5:00. [3]

831 **1936 Albany Gem Brilliant Uncirculated.** White with very slight golden and gray overtones.

832 **1936 Albany Very Choice Brilliant Uncirculated.** An orange-tan toning streak bisects the obverse of this lovely golden toned piece.

833 **1937 Antietam Gem Brilliant Uncirculated.** Blazing white lustre! Superb.

834 **Arkansas 1936 and 1936-S.** Both are **BU/Ch. BU**, mostly white with light toning. **Grant 1922 Very Choice BU** with darker toned areas in the devices. **Huguenot 1924 Uncirculated**, and probably Choice or better once the obverse spotting is removed. [4]

835 **Bay Bridge 1936-S.** Brilliant Uncirculated with some light rubbing in the field. **Huguenot 1924.** Choice AU. **Lincoln 1918.** EF/AU. Lightly polished, else free of marks. [3]

836 **1935/34 Boone Gem Brilliant Uncirculated.** Light brown toning with blue and orange iridescence, more intense towards the edges. Boldly struck. The head is so deeply frosted and the fields so clear, the effect is similar to a cameo.

837 **1935/34 Boone PCGS MS-64.** In an older style holder. Orange and rose overtones, possibly a grade or two higher than labeled.

838 **1937 Boone Gem Brilliant Uncirculated.** A highly brilliant white specimen. If a roll of twenty were just opened, this would be the number one pick.

839 **1937 PDS Boone Very Choice Brilliant Uncirculated.** Mostly white, the "D" with traces of orange-tan toning on lower obverse.

840 **1936 Bridgeport Very Ch. to Gem BU.** Some pale fawn shades highlight a mostly white near-Gem specimen.

841 **1936 Cincinnati Gem Brilliant Uncirculated.** Intensely white with hints of amber overtones.

842 **1936-S Cincinnati NGC MS-64.** Lustrous gray toning with beige shades on the left portion of the reverse.

843 Half Dollar Cleveland 1936. Very Ch. BU, if not a Gem. 100% white and frosty. **Lexington 1925.** An as-struck Gem, but for several pronounced reverse bag marks in the fields. Should easily net out to "Choice BU", perhaps finer. **B. T. Washington 1946.** Very Choice BU. **Washington-Carver 1952.** Very Choice BU. **Washington Carver 1953-S.** Very Choice BU. The last three pieces are either white or with light toning. [5]

844 1936 Cleveland Very Choice to Gem BU. Heavy white frost, the second piece with some golden toning on the obverse. [2]

845 1893 Columbian Expo Gem Brilliant Uncirculated. Deep charcoal toning with unusually bright reflectivity for this shade. The toning is so evenly disbursed that the identical shade is within the reeding, as well. Sharply struck with virtually flawless surfaces.

846 1893 Columbian Expo Gem Brilliant Uncirculated. A second, almost identical to the first save for that of a few small obverse field marks under "AM". The obverse is slightly Proof-Like.

847 1893 Columbian Expo, Pilg. 1920, St. Mt. 1925, Sesq. 1926. AU to Ch. AU. [4]

848 1936-S. Columbia SC Gem Brilliant Uncirculated. Essentially flawless bag-mark free white surfaces. Traces of beige album toning at the edges. Easily worth \$200 - \$250.

849 1936-S Columbia SC Gem Brilliant Uncirculated. Golden toning, the reverse having a somewhat richer texture. Practically faultless.

850 1935 Connecticut Gem Brilliant Uncirculated. Some reverse russet shades are in evidence, the obverse just a tad lighter.

851 1935 Connecticut Very Choice Brilliant Uncirculated. White and frosty, the reverse with a light golden tone. This is very close to the Gem category. \$275 - \$325.

852 1936 Delaware Gem Brilliant Uncirculated. The collector will not soon find a better specimen. Steel-white glossy toning and nearly perfect surfaces both contribute to a quintessential Gem!

853 1936. Elgin Gem Brilliant Uncirculated. Has the satin smooth white surfaces which this issue is known for. A beautiful example. Could realize around \$150.

854 1936 Elgin and 1925 Lexington. Both are **Very Choice BU**. The first has pale violet, gold and grayish overtones, and with the typical sandy look of this issue. The Lexington has full white frost, and just a few slight bag markings from Gem. [2]

855 1936 Gettysburg Gem Brilliant Uncirculated. Blazing white frost offset by golden tints about the obverse and reverse circumference. Well worth \$400 - \$500.

856 1936 Gettysburg Gem Brilliant Uncirculated. Superb orange toning is scattered about the bluish white surfaces.

- 857 1922 Grant Gem Brilliant Uncirculated.** White and untoned with extraordinary brilliance, just a thin orange band circles the very edges. The fields are unusually smooth with less die striations than usual; bag markings are trivial enough to blend unseen into the sparkling frost. Should bring a strong three-figure bid.

- 858 1922 Grant Very Choice Brilliant Uncirculated.** A slight layer of orange toning graces both sides.

- 859 1922 Grant NGC MS-64.** Grayish white with some orange and blue toning, mostly at the edges.

- 860 1928 Hawaii Very Choice Brilliant Uncirculated.** A beautiful honey and amber toned example of this rarest commemorative silver type. The lustre is exceptionally rich and thick with blemishes held to a minimum for this grade. 9,958 pieces are listed as circulation strikes, and another 50 coined as presentation pieces. This Captain Cooke 150-year Anniversary coin might reach an offering of \$2,000.

- 861 1928 Hawaii Choice AU.** Lightly polished at one time. Apparently this was done to remove some deep toning, a bit of which still remains within the devices. Over all however, this piece is in full detail with no wear evident. Left to the elements, it may well return close enough to its original state to please the most finicky collector.

- 862 1935 Hudson Gem Brilliant Uncirculated.** Iridescent orange tones bounce about radiant blue-white surfaces on this first-rate specimen. Scant bagging signs add to its eye-appeal.

- 863 1935 Hudson NGC MS-64.** Mainly white with some beige, tan and blue colors on the reverse.

- 864 1946 Iowa Choice Brilliant Uncirculated.** White. Small reverse edge defect at 9:00.

- 865 1946 Iowa and 1935-S San Diego.** Both are Gems, the former mostly white and the latter with pale golden toning. [2]

- 866 1925 Lexington Gem Brilliant Uncirculated.** Subtle ash-gray lustre with thick white frost gleaming through. Superbly struck with nary a trace of bag marking or mishandling. Rarely seen in such an original, pristine state.

- 867 1936 Lynchburg Very Choice to Gem BU.** Whitish-gray surfaces. A bit darker on the reeding and the reverse, probably from album storage. Some light bag scuffing may or may not be enough to keep this from the Gem category.

- 868 1920 Maine and 1934 Maryland.** The first is Brilliant Uncirculated, or better. The Mint-made die stria is mostly in evidence on the reverse. The second is also Brilliant Uncirculated and has a few small planchet depressions (also Mint-made) at the end of *E PLURIBUS UNUM*. A nice pair for those collectors not looking for Gems. [2]

- 869 1934 Maryland Gem Brilliant Uncirculated.** The bright white appearance is magnified by the undulating surfaces inherent in its design. This inventive type of die manufacture can also be found in the California and Iowa designs, not to mention some others.

- 870 1921 Missouri NGC MS-64.** Frosty white with some gray overtones. A popular commemorative with few survivors in near-Gem condition. An important date for all mint state U.S. coins, sans Morgan dollars.

- 871 1921 Missouri 2x4 NGC MS-64.** A second Missouri, this with the 2X4 above the "1821" on the obverse, indicating that year as the one in which Missouri became the 24th State to enter the Union. Frosty orange tones on both sides.

- 872 1921 Missouri 2x4 Gem Brilliant Uncirculated.** Time-enhanced golden hues are superbly augmented with rose and ash-white shades, the latter color occupying the reverse. Too, there are some deeper blue elements under 1921 and over taking the platform edge. Scuffing and bag marks are hardly at issue here. Though not flawless, it is inspiring enough for the very best collection.

- 873 1923-S Monroe Very Choice BU, or better.** The obverse has pastel shades of blue and orange, and only an occasional bag marking. The reverse has similar tints, but is more subdued. May not reach the Gem category — but it will certainly give that level a run for its money.

- 874 1923-S Monroe Very Choice Brilliant Uncirculated.** A similar grade to above, yet a very different appearance. Unlike that specimen, this piece has snow-white lustre reflecting from both sides. Even with a few more bag marks and a slightly weak impression on *Ms. South America* (Isn't the Swiatek/Breen allusion wonderful?) it may well fetch the same amount, such is the thickness and beauty of the frost.

- 875 1923-S Monroe Very Choice Brilliant Uncirculated.** Chalky white and amber shades are on the upper part of the obverse, the balance is essentially untuned. the reverse is grayish white. Few contact marks are in evidence.

- 876 Monroe 1923-S,** Uncirculated and probably Very Choice or better once the green spotting is removed. **Sesquicentennial 1926** Choice BU, white and very bright. **Stone Mountain 1925,** Very Choice BU, white. **B.T. Washington 1950-S** Very Choice BU, light gray with peripheral tan toning. [4]

- 877 1938 New Rochelle EF.** Polished. Although the surface is unnaturally bright, there are few hairlines or unsightly scrubbing marks. An adequate coin.

- 878 1936 Norfolk Gem Brilliant Uncirculated.** White. Devoid of bag marks, which is not that unusual for this busily designed type.

- 879 1926 Oregon Gem Brilliant Uncirculated.** White creamy lustre with slight toning.

- 880 1926 Oregon Gem Brilliant Uncirculated.** Another Gem, this with just the start of light gray toning.

- 881 1926 Oregon Gem Brilliant Uncirculated.** A third Gem, with deeper golden gray lustre.

- 882 1926-S Oregon Gem Brilliant Uncirculated.** Vibrant beige-white surfaces. Just about perfect.

883 1928 Oregon Gem Brilliant Uncirculated. A lovely gray-violet shade covers most of the obverse, contrasting beautifully with areas of white frost. Similar shades on the reverse highlight the wagon train and settlers.

884 1936 Oregon Gem Brilliant Uncirculated. Bright white, slight gray toning.

885 1939 PDS Oregon Very Choice Brilliant Uncirculated. The last and rarest date in the Oregon Trail commemorative series, begun in 1926. Yeoman's Guide Book lists a mintage of 3,004 for the Philadelphia Mint issues, the same total for the Denver Mint, and 3,005 for San Francisco. The toning for this set is white with amber and russet shades (in varying degrees) darkening at the peripheries.

886 1915-S Panama-Pacific Brilliant Uncirculated. Almost no contact marks, and visually "Choice". Sparkling white surfaces with a trace of golden toning at the obverse periphery. At certain angles, there is a *slight* break in frost (from a long-ago dipping?) on some high points, so a simple "BU" is sufficient.

887 1920 Pilgrim. Near Gem condition with steel-blue reflectivity. Also, an **1946 BTW** in Ch. Unc and an **1893 Columbian** in cleaned and cleaned VF. An odd trio, but the Pilgrim is well worth a close look. [3]

888 1920 Pilgrim and 1926 Sesquicentennial. Two of each. One Pilgrim and both Sesqui's are toned from moderate amber to heavier graphite shades. All are Uncirculated. [4]

889 1936 Rhode Island. Gem BU, white and nearly as struck. **1926 Oregon Trail.** Gem BU, just a trace of steel-gray toning. [2]

890 1937 Roanoke Gem Brilliant Uncirculated. Glossy white and virtually undisturbed surfaces. Superb!

891 1936 Robinson-Arkansas. Very Choice BU, possibly Gem. Full white frost with trivial contact marks. **San Diego 1935-S.** Gem BU. Pale violet and gold frost. A few harmless toning streaks. **Long Island 1936.** Very Choice BU. Beige toning. [3]

892 1926 Sesquicentennial PCGS MS-64. White with an obverse toning speck near Washington's forehead. Still a premium coin.

893 1935 Spanish Trail Very Choice Brilliant Uncirculated. Nearly bag mark free, which is quite unusual for this design. Only the lightest toning in evidence.

894 1935 Texas Gem Brilliant Uncirculated. Rose toning and a needle-sharp strike. No obvious distractions.

895 1935-D Texas Gem Brilliant Uncirculated. White and mostly matte-like on the reverse, with a sprinkling of tan toning.

896 1936 and 1936-D Texas Gem Brilliant Uncirculated. Both white, the latter with some orange toning on the reverse. [2]

897 1925 Vancouver Gem Brilliant Uncirculated. The multiplicity of vibrant colors are beyond words. For starters, the collector will have to reel off the spectrum. Looking for contact marks or other disturbances under this impressionist's palette is a chore, but none can be found that is of any consequence. Not that rare, despite the release of less than 15,000 pieces, but locating another like this may prove to border on the impossible.

898 **1927 Vermont Gem Brilliant Uncirculated.** Shimmering white frost. Some peripheral golden toning is just beginning to form. A few fly specks can just as easily go unmentioned.

899 **Original Brilliant Uncirculated Roll of 1951 Booker T. Washington Commemorative Half Dollars.BT Washington** Very bright and lustrous. Beautiful toning on the end piece. [20]

900 **1936 Wisconsin Gem Brilliant Uncirculated.** White, with moderate reflectivity.

901 **1936 York County Gem Brilliant Uncirculated.** Usually prone to bag marks on the shield and field, this white Gem is virtually unmarked.

902 **1936. York County Gem Brilliant Uncirculated.** White with a light covering of golden toning. Another near-perfect York.

903 **1925 Norse Medal (Thin) Gem Brilliant Uncirculated.** This octagonal silver piece is often included in the early (1893 - 1954) Commemorative Half Dollar series. Has a few stray marks, which are typical of sharp-edged pieces. Blazing white surfaces with a bit of russet toning at the top. \$200 - \$250.

904 **1925 Norse Medal (Thick) Gem Brilliant Uncirculated.** Very similar to the previous piece, both in history and condition. This is the more common of the two types. Some light golden toning beginning to form. \$125 - \$150.

United States Paper Money Records

By Martin Gengerke

2001. 275pp, spiral bound. Mint.

Book or CD....\$125.00

Before you buy a single piece of Federal Paper Money, there are several things you really need to know. How many times has a particular note appeared in auction or sales or in dealer price lists? How was a specific note graded in its previous appearances? What is the 50-year price history and provenance of that note? In *United States Paper Money Records* Gengerke, one of America's leading experts on Federal Currency has compiled and unprecedented data base of facts and figures that every major dealer or collector should have in their own library. There are over 10,000 auction or price list appearances recorded; each note listed is identified by Friedberg number and serial number and Gengerke gives "summary" grades when more than one grade has been recorded for a single note. This priceless work is also available on CD-ROM, and lists over 76,000 notes, in database, spreadsheet, and text formats, for IBM compatible computers. **To order, call 800-622-1880.**

U.S. Gold Commemoratives

- 905 1903 Jefferson Choice AU.** No wear, just a light old brushing visible upon close examination.

- 906 1905 Lewis and Clark Choice AU.** Some cleaning and a field scuff above "one". Still attractive enough to merit a Choice rating.

- 907 1915-S Panama-Pacific PCGS MS-64.** Attractive blue-orange hues.

- 908 1915-S Panama-Pacific Brilliant Uncirculated.** Bright yellow, and close to Choice.

- 909 1915-S Panama-Pacific EF.** Highly polished. Some signs of an edge mounting.

- 910 1915-S Panama-Pacific Very Choice Brilliant Uncirculated.** A lovely frosted finish is complimented by blond toning. There's a faint hairline to the left of the eagle's leg and what appears to be a very thin toning streak across the tail feathers. Seeing these marks requires tilting the coin at various angles or/and using magnification; the Mint State is still Very Choice. Will more than likely fetch \$2,500 or more.

- 911 1917 McKinley PCGS MS-66.** High yellow-orange brilliance on both sides. An obvious Gem, this date is much scarcer than its 1916 counterpart.

- 912 1917 McKinley Nearly Very Choice BU.** Another piece. Thick salmon-orange toning. A Gem BU look but with a few hidden distractions in McKinley's features.

- 913 1926 Sesquicentennial Very Choice to Gem BU.** Referring to a gold coin as having *golden toning* is one of the oxymora which, at times, seems unavoidable. This is one of them. A few red copper spots testify to its natural and untouched surfaces, while the paucity of bag marks hint at a higher grade. The strike is full in all respects. With a spread of \$900 to \$3,000 the bidder will have the final word.

- 914 1926 Sesquicentennial PCGS MS-64.** The epitome of sunset toning on a gold coin! Intense red-orange colors blending into a sort-of pale violet shade on the central obverse figure.

All Gold Commemoratives are enlarged.

*The following seventeen lots are from one consignor. Most were put away quite a few decades ago, and a few later date pieces were subsequently added. These lots are offered **sold as is** and should be viewed before bidding. All sets are original. They are well above average.*

- 925 1948 PDS Mint Set:** Two of each date and Mint. Consists of twenty-five pieces in three original green paper/cardboard Mint holders. One of the half dollars is missing. Mostly in Gem condition. Should bring around \$400. [25]
- 926 1949 PDS Mint Set:** Two of each date and Mint. Consists of twenty-eight pieces in three original green paper/cardboard Mint holders. Mostly in Gem condition. \$500 - \$600. [28]
- 927 Early Mint Sets. 1950 PDS Mint Set:** Though not issued as government-holdered "Mint Sets" during this year, the toning, strike and general lack of bag handling signs indicate a direct U.S. Mint purchase. The Philadelphia half has been replaced with a 1964 Kennedy, for no apparent reason. Thirteen coins in all, one of each Mint, placed in a transparent album page for easy viewing. Mostly in Gem condition. **1951-D Mint Set:** Two of each Mint for a total of ten pieces, in an original green paper/cardboard Mint holder. Mostly in Gem condition. Both sets combine for a total of twenty-three coins and an approximate worth of \$300 - \$350. [2]
- 928 1952 Mint Set:** Two of each Mint in original three green paper/cardboard Mint holders, missing both Philadelphia half dollars and one "S" Mint nickel. Twenty-five pieces in all, mostly in Gem condition. \$300 - \$350. [25]
- 929 Another Group of Early Mint Sets. 1953-D Mint Set:** A double set of Denver Mints in an original government green paper/cardboard holder. Ten coins in all. Mostly in Gem condition. **1954-DS Mint Set:** In two original green paper/cardboard government holders, lacking the Philadelphia Mint coins and one of the "S" Mint half dollars. Nineteen pieces in all. Mostly in Gem condition. **1955-D & 1956-D:** Two of each date, except for the half dollars, they are in the usual paper-covered cardboard holders. There are eight coins in each set, for a total of sixteen coins which are mostly in Gem condition. This entire lot consists of forty-five coins, with an estimate of \$200 - \$250. [4]

- 930 Mint Set Assortment. 1957 PD Mint Set:** In two pink paper/cardboard original Mint holders, each containing ten coins. Two of each date. Mostly in Gem condition. A total of twenty coins are in this set. **1958-D Mint Set:** In one green paper/cardboard original Mint holder, consisting of two of each date for a total of ten coins. Most are in Gem condition. **1959 PD Mint Set:** Ten coins, as issued in government cellophane holder. Mostly Gems. **1960 P Mint:** Five coins in cellophane holder of issue. Mostly Gems. **1962 PD Mint Sets:** Two sets, each containing ten pieces, in government cellophane holders. Twenty coins in all, mostly in Gem condition. **1963 PD Mint Set:** One set of ten pieces in government cellophane holders. Mostly Gems. **1964 PD Mint Sets:** Two sets, each containing ten pieces, in government cellophane holders. Twenty coins in all, mostly in Gem condition. **1970 Mint Set:** An odd set of five coins, in a government cellophane holder. Consists of a "P" and "S" cent, an "S" nickel, and a "P" dime and quarter. Most are in Gem condition. The above sets from 1958 to 1970 are in government envelopes as well as the aforementioned cardboard or cellophane holders. Should fetch \$300 - \$350.
- 931 1953 and 1954 Proof Sets:** Each one is in an original government stapled cellophane wrapper, within white wrapping tissues. Both sets are in Gem condition. \$300 - \$350.
- 932 Proof Set Assortment. 1955, (2) 1957, (2) 1958, (2) 1959, 1960, (2) 1961, (2) 1962, (2) 1963, (2) 1964 Proof Sets.** A total of sixteen sets. They are in Gem or near Gem quality, in their original cellophane holders and manila envelopes of issue. The 1957, 1958 and 1959 sets share one manila envelope each. Nice enough to bring at least \$350.
- 933 1943 Steel cents** (3 rolls) and (3 rolls) various early to mid-20th Century **wheat back cents**. If the buyer has time, he will probably find over 50 steel cents in at least Choice to Gem BU condition, the remainder being AU to Unc. The bronze issues have many early date/Mints to select. One glance will show that this is an unpicked group from over 50 years ago. Can provide lots of entertainment for \$100 or so.

- 934 \$2.50 Gold: 1910, 1912, 1913, 1915, 1928. A nice group of **Choice AU** Indians, the 1912 probably Uncirculated. The 1928 has a large carbon spot on the headdress, but the lot should still bring \$650 - \$700. [5]
- 935 \$2.50 1927 **Choice Brilliant Uncirculated**. Bright satiny finish with excellent definition on both sides. \$500 - \$600, possibly more.
- 936 \$2.50 1929 **Brilliant Uncirculated**. Very sharp and with a bit of Proof-Like surface. Not far from a higher grade. \$250 - \$275.
- 937 \$5 Gold. 1891, 1895, 1897-S, 1898, 1907-D. At least EF with a few solidly in the AU category. \$500. [5]
- 938 \$5 1915, \$10 1910, \$20 1885-S. The first piece is VF, the Eagle is EF and the Double Eagle, F/VF. Probably worth about \$750. [3]
- 939 \$5 Liberty 1906-D and 1907-D. Both are **Brilliant Uncirculated**, the first with faint rubbing on the otherwise frosty yellow surfaces and the other with a tiny reverse edge nick over "M". \$250 - \$300. [2]
- 940 \$20 1927 **Brilliant Uncirculated**. A few extra bag marks on the knee *might* keep this glowing yellow specimen from Choice consideration. It shouldn't prevent a bid less than \$350.
- 941 \$5 Indian Head \$5 1909-D. Two pieces, both are **Brilliant Uncirculated**. There is a similar look to the pair, as though they were not separated since their issuance. Quite lustrous and well detailed, there are signs of contact marks with one another, possibly from having been stored in a box, or other non-numismatic container. The only flaw worthy of note is a rim mark on one coin over the "D" of "UNITED". Slight problems and all, the pair should still bring close to \$500. [2]

U.S. Territorial and Patterns

Territorial

Enlarged

- 942 A. Bechtler Dollar Territorial EF.** Plain edge, "27.G. 21.c." under "CAROLINA GOLD." Counterfeit, probably contemporary, and as such of great interest to specialists in the series. The obverse and reverse dies do not match authentic examples of K-24. This example is gold-plated, probably over a base metal core, and weighs 27.4 grains.

Hawaii

- 943 1883 Hawaii Dime, AU but polished. Quarter, EF** with the obverse once cleaned. **Half Dollar, nearly EF.** [3]
- 944 1883 Hawaii Dime VF, nearly EF.** Medium gray toning on both sides. \$100 - \$125.

- 945 1883 Hawaii Dollar EF.** Reflective light to medium gray surfaces with blue toning around many of the devices. In a stapled holder, as originally purchased from a Bowers and Ruddy sale on October 26-28 1978, lot #3407, "The Robert C. Hall Estate". A popular item, especially scarce in this state of preservation. \$500 - \$600.

- 946 1883 Hawaii Dollar EF.** A second Hawaiian Dollar, this one a light gray tone on both sides. Worth about the same as above.

Patterns

- 947 1851 Cent J-129 PCGS PR-65 RB.** Experimental piece with perforated planchet and plain edge. Much original red. Low R-7. \$3,500-4,000
- 948 1856 Half Cent J-177 PCGS PR-63.** Experimental copper-nickel trial piece struck from the regular half cent dies. They were struck to test the proposed alloy for the new small cent coinage that soon followed. In that sense, this is the direct ancestor of the famous 1856 Flying Eagle cent. R-5. \$2,500-3,000

- 949 1859 Half Dollar J-240 NGC PR-65 BN.** Longacre's French Liberty Head Half Dollar in Copper. R-5.

- 950 1861 Half Dollar J-278 NGC PR-65 BN.** Superb, fully mirrored iridescent surfaces. The 1861 "God Our Trust" patterns are important as the earliest forerunners of today's ubiquitous "In God We Trust" coinage. Low R-7.

- 951 1863 Half Dollar J-340 ANACS PF-64.** Encapsulated in an early ANA holder. Listed as an R-6 by Judd, this silver piece is nearly identical to the regular "With Motto" design (*IN GOD WE TRUST*) issued from 1866 to 1891. The difference is not simply that there is a "Motto", but that the motto is **GOD OUR TRUST**. Deep reflective blue-violet and rose tones on the obverse with purple and rose shades on the reverse. An identical piece (J-340, NGC PR-64) sold at the 2003 CSNS for \$4,600. History and all, this should fetch \$3,000 - \$3,500.

- 952 1866 Nickel J-526 PCGS PR-64.** This doubled-headed mule portrays a bust of George Washington on each side. Struck in white metal, it has light graphite toning. Plain edge, though this feature is obscured by the encapsulation. According to the Judd reference book, this is an R-8, "Approximate number struck...2 or 3."

- 953 1869 Quarter J-728 PCGS PR-64.** Formerly in *The New Millenium Collection*, this lovely blue-violet specimen would look perfectly at home in a "65" holder. Listed by Judd as an R-7, and struck in silver, recent offerings would call for bidding in the \$2,000 - \$2,500 range.

- 954 1876 Quarter Eagle J-1480 PCGS PR-65 RB.** An extremely rare regular dies trial piece struck in copper. Red brilliance with brown overtones, a spot under the "8". R-8.

The next three are **PCGS** encapsulations: 1998 Matched Set-Coin #1 MS-64 Red. 1998 Matched Set-Coin #2 MS-65 Red. Lastly, "No Date Strk by Cap Die-Brokge" MS-65 Red. Again, sold as is. [7]

Quarters: 1946-S/S MS-64. 1963-D DDO MS-65.

Half Dollar: 1957-D/D MS-64 FBL.

This lot ends with an eighth piece, not an error.

Nickel: 1945-D **NGC** MS-67. [8]

- 958** Dateless **ANACS** MS-62. Washington Quarter. The Denver Mint mark at least shows its origin. The holder reads (ND)-D 25C MS-62 Wash in 10CPlanchet.

- 959** Kennedy Half Dollar Errors. The first (of four pieces) is in an old **ANA** holder and listed as 1964-D MS-63 Triple Die Obv. The second piece is in an **NGC** holder and listed thusly: 1966 SMS No FG Fs-013.9 MS 65. The last two are both **ANACS** holdered and grade Pf-66. The 1968-S is a Dbl Die Rev while the 1970-S is a Dbl Die Obv. [4]

- 960** No Date **PCGS** MS-65. An unusual off-center error for a coin of this size. "80% Off Center", the strike showing from approximately 6:00 to 8:00. Part of the "E" and all of the "RT" shows, along with only the left side of Kennedy's head from mid-ear upward, as expected.

- 961** 1963 Error **ANACS** MS-64. "50C on 5C Planchet." The date is full, most of "GOD WE TRUST" and "STATES OF AMERICA" are full, as are the corresponding reverse areas.

- 962** 1965 Special Mint Set Kennedy Half Dollar Error. A sealed 1965 SMS in its white envelope of issue with concomitant paperwork. The Kennedy half dollar is marked with huge depression running from just above the "L", through the nose and cheek, and ending just in front of the ear lobe. A similar depression on the reverse meanders from the "TE" area of "UNITED", through the left wing tip, around the eagle's head, through the claw and arrow feathers, the "OL" of "DOLLAR" being its terminus. Whatever was struck in the dies along with this coin will probably forever remain a mystery. How this wound up sealed in a SMS is a double mystery. Bidders often come across the phrase "Must be seen". Well, *this* must be seen. It is indeed a "Special" Mint Set.

- 963** 1973-D **ANACS** MS-63. Quarter on a Nickel planchet. The lettering and date is completely readable. The top half of *OF AMERICA* is not present, nearly everything else is full.

- 964** 1998-P **PCGS** MS-64. Double struck Roosevelt Dime. The encapsulation reads *D/S-2nd Strike 50%O/C*. Attractive and very unusual.

- 965** 1998-P **PCGS** MS-66. Washington Quarter. The tag reads *D/S-2nd St 5% O/C & Unif* which translates as "Double Struck, the second strike is 5% off center and unfaced." It doesn't begin to describe this bizarre coin. Most of Washington is flattened and enlarged in a comical way. Elements of doubling are obvious on the obverse, less so on the reverse. The latter side has edges cupped to the extent of probably holding several drops of water. Weird.

966 **1998 LINCOLN CENT PCGS MS-63 Red.** "Stk on Forgn Copper Pl" on PCGS tag, or struck on a foreign copper planchet, in plain English. No weight is given, but one glance will show that PCGS's judgement is obviously correct.

967 **1998-P and No Date PCGS Washington Quarters:** The first two quarters are the same. "PCGS MS-64 D/S-2nd Stk 85% O/C" The third reads "PCGS MS-63 No Date Struck 95% Off Center". [3]

968 **1999-P PCGS MS-63.Washington "Pennsylvania" State Quarters.** "Broadstk out of Collar", according to PCGS's label. [2]

969 **(No Date) Lincoln Cent NGC MS-64, BN.** Struck through Capped Die, resulting in a dramatically distorted and incused mirror impression of the Lincoln Memorial on the coin's obverse.

U.S. Medals and Miscellaneous Gold & Silver

U.S. Medals

- 992 1863.** Obverse has "Maj. Gen. Phillip Kearney." with profiled bust to viewer's right, and under the bust (by Merriam) is "Born June 2. 1815." Brilliant Proof, white, with a bit of light gray toning in the devices. Struck in silver, it weighs 13 grams and is 31mm in diameter. The reverse has the legends "United States Army" and "Liberty & Union" around the edges. An eagle atop shield bearing the date 1863 hovers above military equipment and insignias. The word "issued" is in a pennant above the date.

The seven lots listed below were struck mainly in the 1860's and 1870's. They will surely appeal to anyone interested in this period of American history.

- 993 1864.** Major General Gouverneur Kemble Warren, Commander of the 5th Corps, Army of the Potomac. A lovely medium brown Proof-Like example, 39mm and weighing 19.6 grams. Designed by W. H. Key, a profiled bust (facing to the viewer's right) of "Maj. Gen. G. K. Warren" is shown on the obverse while a military insignia is on the reverse.

- 994 1865 (July 4th).** An extraordinary medal of "Maj. Gen. Hancock" with semi-profile to viewer's left, within an ornate border. Pleasant brown surfaces and grading at least EF, this AE piece weighs 17.1 grams and is 31mm in diameter. With stars around its periphery, the central reverse legend reads "Honor the Brave Defenders of Our Union. To Commemorate the Grand RECEPTION of the Returned VOLUNTEERS JULY 4, 1865 by the CITY OF NEW YORK."

- 995 Civil War Seal? Unifaced.** Light mahogany toning. AE, weighing 19 grams with a 36mm diameter, the incused mirror-image appears as follows: The periphery is lined with approximately seventy triangular marks, each separated slightly at the base. Two crossed rifles with fixed bayonets occupy the center. "2. L. I. COMPANY" is on top while "2. REG.t" is under the rifles' buttstock. The surfaces have been intentionally smoothed during its manufacture, giving this side a glossy flat look as opposed to the relatively uneven blank reverse. Almost certainly, this was used to transfer the insignia to either wax or paper, in some fashion. Beautiful workmanship, and a definite prize for the Civil War historian.

- 996 Dateless medal of "Maj. Gen. Geo. B. McClellan.** U. S. A.", profiled to left of viewer. Weight is 11.4 grams, AE, the diameter is 31mm. Mahogany brown toning covers this Choice AU specimen. The reverse has a blank center, the inscription never executed. Around the periphery is a leaf design with military insignias, and the words "First in the Hearts of His Soldiers".

- 997 1872 VF. Counterstamp,** commemorating the **Great Boston Fire** of 1872. In the field, to the left of the date from approximately 6:30 to 10:30 reads **BOSTON**, the next two lines (across shield) reading **NOV 9** and **1872**. One of the greatest fires in this country's history, over \$100,000,000 worth of property was destroyed. Even by 2004 standards, this would be a ghastly sum. A prize item for those interested in Americana, or VERY early commemorative coinage!

- 998 1876 Medal.** Obverse features McPherson riding horse, the date 1864 underneath and the designer initials G. H. L. near edge at 7:00. Very Choice Brilliant Proof with a fiery golden surface. Possibly brass. It weighs 4.8 grams and has a 21mm diameter. The reverse has "Washington City" around the center, above the 1876 date. Around the edges are "Society Army of the Tennessee."
- 999 Unusual Medals & Coins.** Gold-colored 37mm "United States Mint Exhibit" medal from the "**World's Columbian Exposition Chicago 1893**" in superb condition, lightly toned. Magnificent building portrait on reverse. A silver "Columbian 1893 Exposition" medal rolled out from a Barber Dime. Amazingly, the date **(1892)** AND the Mint Mark **(O)** can be read on their respective sides! There are two Civil War tokens, Large Cents, Flying Eagle and Indian Heads, Two Cent pieces, Shield Nickels and other coins in Poor condition to VG. A very mixed lot, indeed. Thirty-three items, sold as is. Worth \$100 or more. [33]
- 1000 1896 (May 12th).** Another medal of W. S. Hancock, this one to "Commemorate the Unveiling of the Monument" in Washington. A similar bust to previous piece, but not as profiled. Holed at 12:00 for suspension, it weighs 7.4 grams, is 20mm in diameter and struck in brass. It grades AU and is Choice, even with traces of dark toning towards the edges. The reverse shows a statue of Gen. Hancock on horseback.

- 1001 UNITED STATES MEDALS:** 1877 Alabama Claims. A penny-sized (19mm) copper in Gem Brilliant Proof, mostly red. A superb portrait of "General U.S. Grant" is on the obverse and "A Civic Grant for Alabama Claims" with the date "June 15th 1877" is on the reverse. **U.S./British:** An outstanding 1858 (31mm) **Trans-Atlantic Cable** medal in Choice Brilliant Uncirculated, showing John Bull greeting Uncle Sam with crossed lightening bolts as a handshake. Struck in white metal, the reverse inscription reads "Atlantic Telegraph Successfully Laid 5th of August 1858." Another medal pertaining to the same subject, features **Cyrus W. Field** on the obverse. "Presented to Cyrus W. Field, by a few of his friends in New York, for his perseverance in superint. the laying of the Atlantic Teleg. Cable." is on the reverse of this 50mm piece by G. H. Lovett. It is struck in white metal and in new condition, save for that of a reverse rim bump at 11:00. **1861 Confederate Cents**, one in copper, the other either plated, or struck in brass. Both are restrikes, the dies being defaced. **1851 Copper Dollar** gaming piece, **circa 1837 Trade token**, the first EF, the other, VG. **1937 Sesquicentennial** bronze medal (32mm) of the Constitution, with George Washington on the obverse. This medal grades EF. **Irish Yachting Association:** Circa 1965, uniface silver medal (52mm) with a weight of 57 grams. Cross of St. Patrick - shamrock yachting flag within wreath. A rare and unusual medal grading EF. **1797 British** "Skidmore" token. D&H #570 featuring St. Stephen's Church, **Gem Brown Uncirculated.** This otherwise fine lot comes to an inglorious end with eight California tokens, mostly of the "bear" variety. All-in-all, should fetch around \$200. Sold as is. [18]

Miscellaneous Gold & Silver

- 1002 1953 Cent:** ANACS PF-65, Red DDO #1 FS-021.7
1943-S Nickels: NGC MS-67 (two pieces). [3]
- 1003 U.S. 20th Century Gem BU/Proof Type Set.** This twenty nine piece set is housed in a beautiful white Capital lucite holder measuring approximately 8" wide by 10" wide. A breakdown is as follows:
Cents: 1900, 1909VDB, 1930-S, 1943-D, 1944-D, 1969-S. All six pieces are red or orange, the steel cent is white. The last piece is a Proof.
Nickels: 1901, 1913T1, 1938-D, 1942P, 1961. All five are white or with light toning. The last piece is a Proof.
Dimes: 1912, 1941, 1961, 1971-S. The four are white with the final two in Proof condition.
Quarters: 1915-D, 1917T1 FH, 1928-D, 1950, 1972-S. Five pieces which are either white or with the slightest toning. The last quarter is a Proof.

Dollars: 1904-O, 1923, 1971-S, 1972-S. The four are essentially white, the final two struck as Proofs.
 Personal viewing of this lovely set is recommended since it is being offered on a sold-as-is basis. It will probably realize around \$3,000. [29]
- 1004 GEM BU U.S. Types:** Four pieces in **NGC** holders. All seem to be very conservatively graded and should appeal to the investor or astute collector.
1920 Quarter MS-64.
1956 Quarter MS-66.
1939-D Half MS-64.
1923 Dollar MS-64.
 All are white or nearly so, are well struck, with any bag marking visible only at the level of 5X magnification. Nice enough to bring \$350 - \$400. [4]
- 1005 1883 No Cents Nickels.** The type without a denomination placed under the bow. Four EF gold plated *racketeer nickels*, ostensibly used by dishonest people in the late 19th Century as \$5 gold pieces. Also, two of the same type without plating; one Very Ch. BU and the other a Gem BU with lilac and gold toning. An interesting lot, sold as is. [6]
- 1006 1837 Feuchtwanger Cent.** A popular privately issued coin composed of "German Silver", which is a nickel alloy. Significantly circulated (showing its popularity) grading somewhere between Fine and Very Fine.
- 1007 1837 Feuchtwanger Choice AU.** Lightly toned semi-circular area on reverse. Sharp details for this unusual design, featuring an eagle clutching a snake.
- 1008 Choice Uncirculated.** "1933 SILVER 430 GRAINS" stamped on the obverse. A private issue "silver dollar" from the depression days. This round, plain edged piece has "PEDLEY RYAN & CO." with "DENVER" stamped underneath, on its reverse.
- 1009 U.S. Coins & Medals.** Half Dollars: 1941 Ch. BU. 1942 Very Ch. BU. 1953 (3 pieces) Ch. AU to BU. 1950-D and 1954-D, BU to Ch. BU. 1960 Ch. Proof. 1892 and 1893 Columbian, both VF or better. 1879 Silver Dollar, Very Ch. BU or better with beautiful reverse toning. 1788 Massachusetts Half Cent, 1789 Washington Cent, 1792 Washington President-Small Eagle Cent, all three are electrotypes grading VG to VF. 1985 Kennedy Dollar-size medal, Canadian "Trade Dollar", Empire City Mine (Colorado, 1876) \$10 Uncirculated. This lot ends with a 1979 \$30 Prince Leonard "Hutt River Province" piece in Gem Proof. A separate note indicates that this piece lists in Bruce, 3rd edition XII, at \$35.00. An interesting lot of 18 pieces, sold as is. Probably worth a few hundred dollars. [18]

Also, an 1840-O ND Dime in Good with a few scrapes. Bust Halves include an 1826 in VG or better, an 1835 in at least Fine and an 1836 in close to Fine. An 1846 in VG plus two 1893 Columbians (1 VF and 1 EF) end the Half Dollars. Finally, an 1878-S Trade Dollar in EF with a reverse puncture between "ES" of "STATES". Sold as is. The Pierre Fricke Collection of Confederate Type Notes

The origin of Pierre Fricke's interest in numismatics can be traced to 1969, when his grandmother gave him a box of old coins that fascinated him. By 1973 he was an advanced collector of early American large cents by variety and a part time dealer working with his parents. His first great "find" was an 1800 Sheldon 198 large cent in nice G+ for \$12, which he proceeded to sell at a nice profit just a few weeks later. Today, that same large cent is worth about \$4,000 and is in the condition census. Pierre moved from early American coppers to bust half dollars in the late 1980s and 1990s. He began publishing a price guide for bust half dollars known as "Bust Half Quotes" in the late 1980s.

In order to purchase a house in Westchester County he sold all of his large cents and bust half dollars when he and his wife moved from Texas in the mid 1990s.

Pierre began doing research into his family history in Louisiana going back to the 1700s, and learning more about American history in general, and the South in particular. He attended several War for Southern Independence (so-called "Civil War") re-enactments. When he was sufficiently recovered from the financial shock of buying New York City-area real estate, Pierre decided to change his focus from early American coins to Confederate fiscal paper – notably Treasury notes and bonds. In particular, beyond his love of history and the South, Pierre was impressed with the depth and opportunity CSA paper offered. He began his own CSA collection in 2001.

It wasn't long before Pierre met Dr. Douglas Ball. The two were kindred spirits, both sharing a passion for the history, beauty and rarity of many of the Confederate Treasury issues. Pierre was lucky enough to live near Dr. Ball, and spent many a Friday afternoon and Saturday with Dr. Ball learning about Confederate paper money varieties, rarity, and availability. He quickly learned what made sense to acquire, and what to avoid. It was with deep sadness that Pierre marked Dr. Ball's passing.

Pierre realized that Dr. Ball had a wealth of information about Confederate Paper Money that was not available to the general collecting public, and he made a commitment to continue Dr. Ball's tradition of sharing what he knew with the numismatic fraternity.

Pierre plans to complete what Dr. Ball began, a new Confederate paper money guide that includes Dr. Ball's work as well as his own. Samples of the book are available from Pierre and Smythe, who will be the publisher. The book will be dedicated to the late Dr. Ball as an honorarium and remembrance of that great numismatist.

As Pierre's collection grew, he made a conscious decision to focus his efforts and resources on completing his rare variety collection of CSA Treasury Notes and to sell his general Confederate Treasury note type set. Pierre has enjoyed being a custodian of these notes, and he parts with them reluctantly.

Pierre actively assisted Stephen Goldsmith in the development of this catalogue, applying what Dr. Ball taught him; attribution of the notes by variety; documenting the provenance; and grading the notes using conservative collector-oriented grading. We strongly encourage collectors and dealers alike to view the notes in person, as these were carefully selected by Pierre for eye appeal and quality of presentation. Scans of the collection will be available at www.smytheononline.com and www.csaauctions.com. Some of these notes will be used as plate notes in the upcoming new CSA paper money guide previously mentioned.

Pierre mentors several Confederate paper money variety collectors and is willing to share information with the same spirit that Dr. Ball demonstrated. He may be contacted via his web site – www.csaquotes.com.

Ex. Fricke. Traded to R. M. Smythe.

- 1905 \$50. Bb. T-8. Cr.18. No.195. "for" before "Treas'r" is printed. Low serial number. Great color. Excellent margins on three sides. Nearly Choice. Trimmed a bit tight on the left margin. Has the blue-green "C" stamp on the front. HL. **Uncirculated.**

Ex. Cowan 1998 where it was described by Dr. Douglas Ball as "Crisp, bright, vivid". Via Randy Shipley.

- 1908 \$20. Ccc. T-9. Cr.29B. No.35264. Large "XX". "for Treas'r" is printed. Thick bond paper. One of the finest seen by the consignor! Outstanding margins and color. HL. **Choice Uncirculated.** (\$500-750)
Via Randy Shipley.

- 1909 \$20. D. T-9. Cr.32. No.33703. Small "XX". "for Treas'r" is printed. Thin paper. Outstanding margins. Lightly and attractively aged. HL. **Choice Uncirculated.** (\$400-550)

- 1910 \$20. D. T-9. Cr.33. No.1906. Large "XX". "for Treas'r" is printed. Rarity 7. Excellent margins and color. Tiny nick in top margin. HL. **VF, plus.** (\$150-250)

- 1911 \$10. A. T-10. Cr.35. No.30276. Large "10" upper left. "for" before "Treas'r" is printed. Thick bond paper. Excellent margins and color for a T-10. A little bit of dirt on the right front which is not very noticeable. **Choice F-VF. HL.** (\$650-1,000)

T-10s are very elusive in Choice condition with only a very few appearing on the market to the public in the last few years. This represents an excellent example. Strictly graded VFs bring well over \$1,000. Via Hugh Shull.

- 1912 \$10. C. T-10. Cr.40. No.5859. "For" printed before "Treas'r". Rarity 7. Cut-cancelled. Partially backed for reinforcement. Respectable presentation, especially for the grade. HL. **Good.** (\$75-150)

Only 14,800 of this variety are estimated to have been issued. T-10 "C" plates were printed before the "A" plate examples and released into circulation earlier. As \$10 notes represented easier to use bills, they circulated heavily. Hence examples of "B" and "C" plate T-10s above VG are rare to extremely rare.

- 1913 \$5. Bb. T-11. Cr.44. No.25786. Rarity 7. Scarce. Some professional restoration and an excellent job which is difficult to detect. Nice presentation for the grade and affordable. **VG. HL.** (\$1,250-2,000)

T-11s were heavily circulated as they were small, easily spent bills which were in the highest demand early in the life of the Confederacy. Unrepaired examples are very rare and command large premiums when available. Via Randy Shipley.

We accept EMAIL, PHONE, FAX or MAIL bids on any lot in this sale.

End of The Pierre Fricke Collection of Confederate Type Notes

Two Great Confederate Rarities

\$1,000 Montgomery

1987 \$1000. A. T-1. Cr.1. No.397. NBN. **VG-F**, with three small punch cancels. There are some pinholes, and a tiny fold junction split. Clear margins all around. **(\$15,000-20,000)**

In the days and months preceeding the commencement of hostilities at Fort Sumter, officials of what would soon be known as the Confederate States of America began making preparations to enable them to provide government services. These preparations included the procurement of paper money that would enable the government to make payments to suppliers, soldiers, and other creditors. Orders were discreetly placed with the American Banknote Company in New York City, and plates were prepared.

The new \$1,000 notes featured John C. Calhoun, the fiery state's rights advocate, and Andrew Jackson, the hero of the Battle of New Orleans. They were signed by Alexander B. Clitherall as Register, and Edward Elmore as Treasurer. (It was Elmore who was once accused by a newspaper editor of embezzling large sums of money from the Treasury. Elmore settled the issue permanently by challenging the editor to a duel, and shooting him.)

These were the only \$1000 notes issued by the Confederate States of America. Today, only about one hundred are known to the collecting fraternity. Of the hundred or so survivors, about one third are locked up in institutions and are unavailable to collectors.

The current example, Serial Number 397, is new to our census. While it is not the finest known, it is a very presentable example. These \$1,000 notes rarely appear in public auctions, and the last one we offered was Serial Number 61, in **EF-AU** condition. It realized \$63,250 in our June 2003 Gene D. Mintz sale, a clear indication of the high esteem in which this issue is held by collectors.

Strictly Original \$500 Montgomery

1988 \$500. A. T-2. Cr.2. No.313. NBN. **Fine**, perhaps better, with four clear margins, and nice color for the grade. **(\$20,000-30,000)**

The central vignette on this beautiful \$500 Montgomery is entitled *The Crossing*. Engraved by James Smillie, it features a steam locomotive on a bridge approaching a rural crossing. The other vignette is a female allegory representing Ceres, goddess of agriculture.

Signed by Alexander Clitherall as Register, and Elmore as Treasurer. On July 16, 1861, a month after this note was issued, the CSA government left Montgomery and relocated to Richmond. Clitherall stayed behind, and all subsequent \$500 Montgomery notes are signed by Jones, as Register.

In recent years, the increased interest in the Montgomery series has resulted in skyrocketing prices, and short supply, tempting some owners of these expensive notes to "improve" the appearance of the notes in various ways. This example, Serial Number 313, is new to the census, and was consigned by a source that is completely outside of the CSA collector and dealer community. It appears to be strictly original in every way. A rare opportunity to acquire one of the most sought-after CSA rarities.

Financial Failure and Confederate Defeat

By Douglas B. Ball, Ph.D.
1991. 320pp, hard cover.

“Prodigiously researched and forcefully argued, Ball’s work is a badly needed modern study of Confederate finance. It clearly supersedes earlier works in making its powerful case for the impact of financial failures on Confederate Military defeat” – William L. Barney, author of *Battleground for the Union*. Every serious collector of Confederate fiscal documents should own this book.

A Collection of Indiana Obsolete Currency

Indiana obsolete notes have been collected for several generations. Foundation collectors, such as Dr. Skeen, as well as D.C. Wismer and Dr. Muscalus, formed collections of Indiana notes that later inspired the collectors Jack Vorhies, Wendall Wolka, and Donald Schramm. Other collections of Indiana, such as the Western Reserve Historical Society and other private collections, have been dispersed over the years, allowing these fascinating frontier notes to be collected.

Indiana notes traverse the financial periods from the Territorial period to the 1857 bank failures in a rich tapestry. The Indiana notes of the late period just prior to the 1857 bank failures are among the finest engraved in the Obsolete series. Fortunately, many of these notes are available, although this collection represents some of the rarest and scarcest banknotes and scrip available. Many of these notes are rarity 6 and rarity 7, and are only available when a specialized collection such as this is offered for sale. Many of these proofs are not from the ABN 1990, sale but probably pedigree back to the Dr. Skeen collection as well as Julian Blanchard.

Part II of this collection, including additional rare banks, important scrip and proofs, will be offered in a future sale.

Financial Failure and Confederate Defeat

By Douglas B. Ball, Ph.D.

1991. 320pp, hard cover.

"Prodigiously researched and forcefully argued, Ball's work is a badly needed modern study of Confederate finance. It clearly supersedes earlier works in making its powerful case for the impact of financial failures on Confederate Military defeat" – William L. Barney, author of *Battleground for the Union*. Every serious collector of Confederate fiscal documents should own this book.

Sharp DTL Proof from Michigan

- 2297 MI. Ann-Arbor. Bank of Washtenaw. \$1. (MI-50 G2). This is the "B" position proof from a solitary sheet in the ABNCo sale. Michigan proofs are tough to find, and although this bank is "common", as a proof note, it is a Rarity 7 item! A superb impression with great 1830's era style by Draper, Toppan, Longacre & Co. Well worthy of a premium bid. **Gem**. (\$400-600)

- 2298 MI. Augusta. Augusta Mill Co. 5¢. December 24, 1862. (Bowen 1). An unissued scrip bill from a lithographers sample book. A few small punch holes in the signature block, otherwise **Choice Unc.**

(\$400-600)

- 2299 MI. Detroit. C.E. Bresler-135 Broadway-New York. November 20, 1862. 1) **25 cents**. This lithographer's sample note on issue paper with punch hole cancels has superb gold color. Not a rare issuer, they are scarce enough to merit attention. The cross issue to New York made more merchants willing to accept them and the notes were well made at Ferd. Mayer, Lithographers in New York City. There are toned corners from an album (sample book) mount, but still attractive. 2) **50 cents**. This all green lithographer's sample note on issue paper with punch hole cancels is quite striking. The color is deep green and the stag vignette at the center is unusual. Very minor corner tone from mount marks and scarcer than the 25 cents note. Both **Unc.** [2]

(\$250-350)

- 2300 MI. Detroit. Fred L. Seitz & Co. Bankers. 5¢. November 1, 1862. (Bowen 1). A small scrip with horse vignette. Unissued with small POC and **Unc.**

(\$150-250)

- 2301 MI. Detroit. Fred L. Seitz & Co. Bankers. 25¢. November 1, 1862. (Bowen-3). Horse watering at the center. Unissued with small POC. **Unc.**

(\$150-250)

- 2302 MI. Detroit. Fred L. Seitz & Co. Bankers. 50¢. November 1, 1862. (Bowen-4). The series date is the same on this lithographer's sample note on issue paper with punch hole cancels, but with the addition of red color protectors. Old hinge traces on the blank reverse corner tips. It makes a handsome contrast with the same designs being used as the previous. A lovely piece of Michigan scrip. Unissued, small POC and **Unc.**

(\$175-275)

A Great Michigan Rarity

- 2303 MI. Lower Saginaw. Saginaw County Bank at Lower Saginaw. \$3. (MI-245 G6). Although not the Rarity 7 bank this was twenty years ago, we believe only six or so may be in collections we know of. It is a key issuer for a set of Michigan notes from the Hard Times period, and like many of those banks comes only unissued or falsely filled in. This example is unissued as it should be and is quite clean. A few very tiny voids on the folds, but overall **Fine**. Quite bright for the grade and certainly one of the finer examples of this key three.

(\$500-750)

- 2304 MI. Detroit. State Bank of Michigan. \$3, \$5. ABN imprinted notes with full red Lyman's Patent protector. Unissued. Some handling and the first trimmed tightly in places. **AU.** [2]

(\$120-160)

- 2305 MN. St. John's College Bank. 3¢. (Schingoethe MN-250-.03). Dog on top of safe with red scroll protector. A handsome little note! **EF**, but looks new.

(\$100-150)

- 2306 MS. Natchez. City of Natchez. 25¢. July 9, 1862. Green protector. Fully issued with red text for cross over engraved text. A lightly toned area, but a sharp **EF-AU**. High grade for this note.

(\$100-150)

- 2307 MS. Natchez. State of Mississippi, Adams County. December 12, 1848. Interesting receipt form for \$3.60 from Mississippi. Items assessed on this part printed form include Slaves of course and specifically Bowie Knives! Printed on light blue paper. **AU.**

(\$300-500)

- 2308 **NE. Omaha.** Omaha City Bank and Land Co. \$1. Late 1850's. Full red-brown tint with Indians at the top center. A sharp type by Jocelyn, Draper, Welsh & Co. Unissued. **VF.** (\$80-120)
- 2309 **NJ. Paterson.** Peoples' Bank of Paterson. \$6. Late 1830's. Popular odd denomination note. Unissued. **EF.** (\$125-175)
- 2310 **NJ. Paterson.** People's Bank of Paterson. \$9. Late 1830's. Another popular odd denomination. Hebe and eagle at the top center. Unissued. **EF plus.** Looks new though. (\$125-175)

A little rough, but close to **VG.** 2) **New York.** Mechanics Bank in the City of New York. \$5. 1819. (NY-1720 C62). A nice copy from a Reed plate. **Fine,** with a nibbled corner. [2] (\$125-175)
- 2312 **NY. Albany.** New York State Bank. \$3. (NY-100 C82). A scarce "Z" position counterfeit type. Above average grade. **Fine** with light pen cancels. (\$150-250)
- 2313 **NY. Clyde.** Millers Bank of New York. \$1. March 2, 1840. (NY-670 G2). A nice orange back and distinctive style by Hall, Packard & Cushman. **EF.** (\$125-175)
- 2314 **NY. Johnstown, Montgomery County Bank** Unissued Set Engraved by Balch & Durand. A four note set of \$1, \$3, \$5, and \$10 (NY-1130 G4, G10, GG14, and G18). All are unissued with aging and some trimming problems. Overall average **VG** or so. [4] (\$200-300)

- 2315 **NY. New York.** Bank of America. \$5. May 1, 1824. (NY-1435 C38). A tough counterfeit and an early title on New York City. A little toned, but a strong **Fine** or better. (\$200-300)

Well Vignetted and Very Rare

- 2316 **NY. New York.** Bank of Commerce in New York. \$50. 1840's. (NY-1535 G8a). **Proof** on India paper mounted on card. A well designed proof from a rare, rare bank. Vignette of Indians and settler trading in old New York. This vignette was used on a few related banks on the city from this same imprint. Besides the Haxby plate, we know of only one other. Hard to see cut outs in the India paper, otherwise a **Gem.** Quite lovely! (\$750-1,000)

- 2317 **NY. New York.** East River Bank. \$1. Late 1850's. (NY-1570 G2). Full orange tint. **Proof** on India paper. A superb proof with construction scene at the top center. A few small edge repairs, but the look of a choice proof. (\$250-350)
- 2318 **NY. New York.** J. Gunnings Restaurant. 10¢ 1860's. One of the neatest scrip notes from our city. Not dated, but from the Civil War period. A jolly man eats at a table. Green "10" and red left panel. Unissued. **Fine,** and not as common as collectors once thought. (\$100-200)

- 2319 NY. New York. Marine Bank of the City of New York. \$1. 1850's. (NY-1710 G2). **Proof** on card by Baldwin, Adams & Co. A sharp proof with no protector. A great ship vignette and a high quality card proof. **Gem.**

(\$400-500)

- 2320 NY. New York. Mechanics Bank in the City of New York. \$5. May, 1814. (NY-1720 C54). Ship vignette and green tint. A premium example of this early note! **Choice EF.**

(\$125-175)

A Superb Toppan Proof on New York City

- 2321 NY. New York. Mechanics Banking Association. \$1. 1850's. (NY-1725 G4). **Proof** on India paper mounted on card by Toppan, Carpenter & Co. This is a superbly designed proof that came from the Gordon Harris collection initially. Well balanced with the gray "1"s at each end and a less than common vignette at the center. An exquisite beauty and **Very Choice.**

(\$750-1,000)

First Seen or Handled

- 2322 NY. New York. Mechanics Banking Association. \$100. 1840's. (NY-1724 G22a SENC). **Proof** on India paper mounted on card. This is the first we have seen of this note in any form. This bank is certainly related to the Bank of Commerce and the Bank of the United States (in New York City) who had identical designs done by DU/UBSH. Certainly extremely rare. Small cutouts in the India paper, otherwise **Choice.**

(\$800-1,000)

- 2323 NY. New York. Merchants Bank in the City of New York. \$3. September 19, 1808. (NY-1745 C30). A sharp Maverick note with ship vignette. **Choice VF.**

(\$300-400)

- 2325 NY. Bank of New York. \$5. June, 1818. (NY-1790 C82). A scarce "D" position counterfeit. Pen cancels and a corner off, but still decent enough looking. Rest of it better than **VG.**

(\$75-125)

A rarity from this important New York City bank. A "C" position plate from several varieties we have researched. There is a shaved upper left corner and pen cancels, but a decent looking note. **Fine** otherwise. 2) **\$3.** Gorgons head design. 1819. **Fine** with pen cancels. 3) **\$5.** New York Arms at the top center, flanked by two vignettes. At the left is a canal lock scene. Fully issued and dated 1836. A scarce counterfeit type copied from a late 1820's Fairman, Draper, Underwood & Co. plate. A solid note, but the back edges are reinforced with hinge tape. **VG.** [3] **(\$300-400)**

- 2327 NY. New York. Phenix Bank of New York. \$5.** 1820's. (NY-1880 G42). **Proof** on India paper. A lovely and early proof from MDF. There is a long corner fold from old mishandling, but from the face has the look of a **Gem** note. **(\$500-750)**
- 2328 Union Bank of the City of New York Pair.** 1) **\$3.** (NY-1946 C38). A well executed contemporary counterfeit with the imprint of Leney & Rollinson at the bottom, but with the style of Amos Doolittle. Dated 1818 and fully signed. This "D" plate position note is way above average in condition and has a tiny body hole in the upper left field; bright looking. A scarce note and quite unusual. **EF.** 2) **\$5.** (C50). This \$5 note is copied from a Reed plate. Ship in drydock behind seated female. Dated 1819 and fully issued. A rounded corner, but still fully **Fine.** [2] **(\$250-350)**

A Lovely Maverick Proof

- 2329 NY. Newburgh. Bank of Newburgh. \$1.** 181_. (NY-1985 G24). **Proof** on card. A lovely and early proof from Peter Maverick. Moderately toned overall, but very handsome and **Choice.** **(\$250-350)**

- 2330 NY. Newburgh. Bank of Newburgh. \$2.** 1814. (NY-1985 C24). An incredible grade example of this early counterfeit. The Haxby plate is damaged with pieces out. This is **Choice EF** and looks brand new! **(\$125-175)**

- 2331 NY. Newburgh. Bank of Newburgh, Branch at Ithaca. \$2.** 1821. (NY-1985 G164 SENC). A great note from a branch series where all the notes are SENC in Haxby. Add to that the 1821 date and sharp grade and you have an important note! **Choice Fine** with petty pinholes. **(\$200-400)**
- 2332 NY. Troy. Farmers Bank. \$5.** October 7, 1827. (NY-2695 C42). A scarce early note. Toned, but solid. **Fine.** **(\$125-175)**
- 2333 NY. Utica. Strawberry Grounds of T. Buchanan, Jr. 5¢.** November 1, 1862. Blue texts on both sides with a red strawberry vignette at the left face. **Fine to Very Fine.** Sharp and colorful. **(\$100-150)**
- 2334 Colorful North Carolina Notes. [2] (\$80-120)**
1) *Newbern.* Bank of Commerce. **\$5.** Green tint by the ABN. **VF** and lovely. 2) *Lexington.* Bank of Lexington. **\$5.** Two maids seated with red protector and counters. A solid **Fine** or better.
- 2335 OH. Cincinnati. Lafayette Bank. \$1.** May 9, 1843. (OH-75 S5). A scarcer spurious note from Ohio. Modest aging overall, but solid **Fine.** **(\$100-150)**
- 2336 OH. Cincinnati. Union Bank of Exchange. \$5.** Late 1830's. (OH-120 G8). A scarce type which comes unissued. A great train vignette by Woodruff, Tucker & Co. **Unc.** [2] **(\$100-150)**
Also included is a stock scrip note of the 1830's period for 6-1/4 cents in the style of Manly & Orr, Philadelphia. **AU.**
- 2337 OH. New Salem. Jefferson Bank of New Salem. May 1, 1814. \$1, \$3, and \$5.** All with War of 1812 vignettes by Harrison. A sharp looking set of issued notes. Average **EF plus**, but look new from the face. [3] **(\$125-175)**

- 2338 OH. *Scottsboro*. Thomas Ellison, 70th Regiment, O.V.M., U.S.A. **50¢**. 1864. Company B paymaster forms for this Ohio grouping. Two different hand written denominations, **50 cents** and **\$1**. Included is the payees envelope for the notes (William Copeland). A very unusual trio. The notes are **Unc.** [3] **(\$300-500)**

- 2340 PA. *Northampton*. Northampton Bank. **\$5**. (PA-370 G22). **Proof** on India paper. A lovely proof type by DUBS from the late 1830's. The picky will point to the petty foxing spots that are hard to see. The keen eyed will find appeal in the sharpness of engraving and brightness of contrast. Nearly **Gem**. **(\$200-300)**

- 2341 PA. *Philadelphia*. Private Scrip Issuer. **\$1**. Late 1820's. **Proof** on India paper mounted on card. This is a proof of a private scrip, the issuer unknown. Nonetheless it is quite a beautiful, late 1820's proof from Fairman, Draper & Underwood. The top and bottom vignettes are quite demure and merit close examination. There is a printing fold as made, but this is hard to see except by looking carefully. Overall, close to **Choice**. **(\$300-400)**

- 2342 PA. *Philadelphia*. The Commonwealth Bank. **\$10**. (PA-415 G10). **Proof** on India paper. A tintless example of a popular type. A modest stamp by the ABN and nearly **Gem**. **(\$150-200)**

- 2343 PA. *Philadelphia*. Mutual Credit Loan & Deposit Office. **\$1**. June 1, 1837. Choice grade for this 1837 note. Woodcut of Lafayette left and Washington right. **VF plus**. **(\$90-120)**

- 2344 PA. *Philadelphia*. Southwark Bank in the County of Philadelphia. **\$10**. Early 1840's. (PA-495 G18). **Proof** on India paper. A splendid proof by Draper & Co. The Indian vignette at the left is a rare one. A **Gem** and not your typical Philadelphia proof!

(\$250-350)

Important 1837 Era Satirical Note

- 2345 PA. *Philadelphia*. Trustees of the National Loan Office-National Currency. **\$5**. July 4, 1838. 1830's Depression satire notes are always fascinating and this is no exception. Printed in black on thick green paper. Dated July 4, 1838, this satire longs for the good old days as it wants B. Franklin as secretary and G. Washington as controller of the nation's finances. There are vignettes across the top and an eagle between the title. At the left is a flag and slogan and at the right is a counterfeiter being hung up with the Devil dragging his coffin to hell-an obvious reference to all the spurious currency being launched into circulation during the crisis. Split and rejoined, but a sharp appearance of a higher grade. Overall, **Fine plus**. **(\$1,000-1,500)**

2346 Pennsylvania Banknotes, A Choice Trio. [3]

2348 PA. Whitehaven. Whitehaven and Lausanne Turnpike Road Company. \$1. September 16, 1841. A fully issued scrip in banknote size. Rarity 5, but popular and well vignetted. **Choice EF**. (\$150-250)

2349 RI. Gloucester. Farmers Exchange Bank. \$3. June 18, 1806. (RI-120 C4a). A high grade three from the much scarcer early series. **Choice Fine**, a few petty spots at the right end. (\$150-200)

2350 RI. Gloucester. Farmers Exchange Bank. \$5. June 18, 1806? (RI-120 G14). The plate is a bit crude, perhaps a crude counterfeit. Still a scarce note. **VF**, the lower left corner slightly rough. (\$150-200)

2351 RI. Newport. New England Commercial Bank. \$1. Ca.1810. (RI-155 G2). **Proof** on card. This early proof has a rare ship vignette from an important early imprint of N. & S.S. 2352 RI. Providence. Exchange Bank. \$1. October 14, 1814. (RI-290 C4a). Quite quaint with a smaller size ratio than later bills from the period. Light pen cancels with **Fine** or better paper integrity. (\$125-175)

2353 RI. Providence. Exchange Bank. \$2. 1806. (RI-290 Unlisted). A similar design and style to the Gloucester notes. They were probably done by the same firm. Pen cancels with a few repairs, but the look of a **Fine** note. (\$200-300)

2354 State of South Carolina Note Grouping. A sharp group of popular Revenue Bond Scrip from the 1872 series. \$1 (back scalp and miscut), \$5, \$10, \$20, and \$50. All are **Unc.**, some handling with the \$20 being a bit aged. [5] (\$150-250)

2355 TN. Farmers and Merchants Bank of Memphis Pair. [2] (\$140-180)

2362 PA. Philadelphia. (Second) Bank of the United States. \$5. March, 1829. (US-2 C748). A scarcer type and branch issue for Portland, Maine. Rejoined at the center, but looks nearly Fine with pen cancels. (\$150-250)

High Quality
Bank of the United States \$5 Note

2363 PA. Philadelphia. Cashier of the Pittsburgh Branch Bank of the United States. \$5. 1829. (US-2 C708). A superlative example of this very scarce branch type (Haxby design 5A) note, hand drawn for Pittsburgh and dated 1829. However, it is from well executed counterfeit plates. There is no plate letter on the note and the vignettes lack some definition. Very bright and clean, having excellent paper and bold signatures. Very light manuscript "X" thin pencil cancel across the center. Four full margins are present adding to the truly exceptional eye appeal of this very high grade and pleasing note. **Choice EF.** (\$300-400)

2364 PA. Philadelphia. (Second) Bank of the United States. \$10. March 4, 1830. (US-2 C12). A scarce counterfeit type with Justice seated at the top center. Dated 1830 and signed by "Nicholas Biddle." The plates are fairly well executed and deceptive. This example is exceptionally clean and attractive. We can't recall seeing too many that would match up condition wise with this note. **EF.** (\$400-600)

2365 PA. Philadelphia. (Second) Bank of the United States. \$10. March 9, 1831. (US-2 C12). Justice seated with a false "Biddle" signature. A small cut cancel. **Fine.** (\$150-250)

Ormsby's Bank Note Engraving

2375 Ormsby's Bank Note Engraving Volume. The classic volume published in 1852. Titled *A Description of the Present System of Banknote Engraving Showing the Tendency to Facilitate Counterfeiting; to which is added a New Method of Constructing Bank Notes to Prevent Forgery*. The title as long winded as the man supposedly was. 100 pages of text with fourteen plates. The first plate of counters is in multi-color. Bound in cloth boards with leather spine having gilt title. The pages have been uniformly trimmed prior to this old rebinding. However, generally **Fine** with some internal foxing in places. A very usable copy of this text and only seen once or twice a year at best. A book to enjoy since it does not require "kid glove" handling. (\$2,500-3,500)

Collection of Texas Obsoletes

2376 TX. Columbia. Republic of Texas. (Cr.HW5). 1) \$24.00. No pen cancels. Some foxing, minor repairs, **Fine**. 2) \$1,000. Endorsed on the face, but nice and bright. **VF**. [2] (\$125-175)

2382 TX. Houston. Government of Texas. \$50. Febr. 5, 1839. (Cr.H21A). A second \$50, not as bright as the last and with a little more wear. **Fine**, CC. light cancels. (\$125-175)

A Rare Series and Type

2383 TX. Houston. Republic of Texas. \$2. 1837. (Cr.H24). This is a tough series of notes that supplemented the issue of "Star" back Republic notes. Medlar rates a R-4, but we have seen very few of these in any grade. A dark note with edge roughness, CC, and some tears. However, still enough there to matter for a collector who might wait a bit for a sharper example. **About Good**. (\$300-600)

2384 Consolidated Fund of Texas \$100 Type Trio. 1-2) \$100. (Cr.CF1). **AU**, CC. 2) \$100. (Cr.CF7). **EF**, CC. \$100. (Cr.CF10). Austin overwritten. **VF**, CC. Nice variety trio of this denomination. [3] (\$150-250)

- 2387 TX. Houston. Consolidated Fund of Texas. \$500. Sept. 1, 1838. (Cr.CF5). A scarcer and more desirable denomination. Pen endorsed on the face, but not cut canceled. **About Very Fine.** (\$150-250)

- 2392 TX. Austin. Republic of Texas. \$1. July 1, 1841. (Cr.A1). A second example, also **NOT** canceled. The note has the same uniform toning with a wide bottom margin. Close on the sides and perhaps conservatively called **EF plus**. Splendid for type and underrated. (\$350-500)

- 2388 TX. Houston. Consolidated Fund of Texas. \$500. May 25, 1840. (Cr.CF8). Austin overwritten type. A beautiful grade example with no endorsements. Very bright and **not** cancelled. Close to **EF**. (\$175-275)

- 2391 TX. Austin. Republic of Texas. \$1. July 1, 1841. (Cr.A1). Though having some uniform toning, this splendid note from the earlier engraved series by Endicott & Clark, N.O. is **NOT** canceled. These are not easy to find and perhaps their premium should now be enhanced as historical obsoletes with fine engraving have increased demand. **AU**, some close margins, but very acceptable. (\$400-600)

- 2395 TX. Austin. Republic of Texas. \$2. April 1, 1841. (Cr.A2). No hard folds and crisp paper. A premium example. CC as normal and **AU**. (\$250-350)

2402 Trio of Republic of Texas "Star" Notes. 1) \$10. (Cr.A5). **VG**, CC, a bit dark with tape repairs. 2) \$20. (Cr.A6). **VG**, CC, hinge tape repairs. Nice looking from the face. 3) \$50. (Cr.A7). **Fine**, CC, some foxing and hard to see hinge repairs on the verso. [3] (\$275-375)

2403 TX. Republic of Texas. \$50. May 27, 1837. (Cr.A7). A vivid example. This is CC as normal and with glue remnants around them on the back. Otherwise **EF**. (\$225-325)

2404 TX. Republic of Texas. \$50. January 25, 1840. (Cr.A7). A lovely \$50 with professionally sealed CC. **EF** and looks new. (\$200-300)

2405 TX. Republic of Texas. \$100. January 1, 1840. (Cr.A8). \$100 notes from this issue are always hard to find and very scarce! Split in half and rejoined, CC, but looks pleasant from the face. **VF**. (\$275-375)

2406 TX. *Austin*. Naval Appropriation Form. \$25. (Cr.AW3A). One is pen canceled on the face and the other three are not. Average **VF**, one is quite nice. [4] (\$225-325)

2407 TX. *Austin*. Naval Appropriation Form. \$25. 1841. (Cr.AW3A). A second quartet of these \$25 denomination certificates. Two are pen canceled, one is CC. Average **Fine** to **VF**. [4] (\$200-300)

2408 TX. *Austin*. Naval Appropriation Form. \$25. 1841. (Cr.AW3A). A third group of four \$25 certificates. Only one is pen canceled on the face, others are quite clean. High grade and better than **VF**. [4] (\$200-300)

2411 **Treasurer of the State of Texas Civil War Warrants.** 1) \$50. (Cr.30). Civil. Excellent color, but pen cancel. EF plus. 2) \$100. (Cr.36). Civil. Great looking red tint. There is a nick off the wide upper left corner, but still AU. A scarce type. [2] (\$250-450)

2412 TX. *Austin*. Special Treasury Warrant. \$167.72. Aug. 23, 1864. (Cr.72). Written denomination form. A small face endorsement. AU. (\$100-200)

2413 **Texiana From Republic to Civil War Era.** A useful dealer group which includes typeset Treasury Warrants (8, two types and dated in the early 1840's), typeset 1840's Auditor's Certificates (2), and an unissued Washington County 50 cents scrip. Six are pen canceled on the face. Typical condition. Average VF. [11] (\$200-400)

Beautiful City of Portland Land Scrip

2414 TX. *Portland*. City of Portland, Matagorda County. \$50. April 29, 1841. (Medlar 1). A fully issued and handsomely engraved certificate by J. Lowe, Galveston, Texas. We have handled a scant few of this superb looking item which was received for payments of a lot in the city. The size of these certainly indicated currency use and they probably acted as bills of credit between the wealthy businessmen of the area. This is serial no.18 and that might tell the tale of rarity. Some petty signs of handling, but not enough to discount this from **Choice Uncirculated.** (\$500-750)

A Choice Obsolete Collection

2415 Collection of Massachusetts Perkins Plate Notes. [7] (\$150-300)

1) Amherst Bank. \$2. 1837. (MA-20 C8). **Fine.** 2) Belchertown. Farmers Bank. \$3. 1827. (MA-75 G12 SENC). **Fine plus.** 3) Boston. Eagle Bank. \$2. 1835. (MA-165 C26). On the crude side and interesting. **About VF.** 4) State Bank. \$10. 1836. **Fine.** 5) Suffolk Bank. \$10. 1824. (MA-370 G108). **Fine.** 6) Cambridge. Charles River Bank. \$2. CFT. A bit crude. **VG plus.** 7) Plymouth Bank. \$2. 1843. CFT. Any other series note from here is high R-6 or better. **Fine,** tiny hole. A very well matched collection put together long ago.

1799 Dated Massachusetts Bank

2416 MA. Boston. Massachusetts Bank. \$10. January 10, 1799. (MA-270 C224). One of the earlier dated notes on the northeast and an important bank. These counterfeits were printed from several plates from our many years of observation. A penned "Counterfeit" was removed partially, but strong paper quality and printing. **VF** for the note. (\$300-600)

2417 MA. Boston. Massachusetts Bank. \$10. January 10, 1799. (MA-270 C224). A second example of this very early dated note. Also with the "Counterfeit" pen removal and a short tear at the right. Otherwise **Fine.** (\$250-500)

Extremely Important and Early Color Proof Specimen/Essay

2418 MA. Boston. State Bank. \$50. Early 1800's. (MA-365 G186). A phenomenal and historic early note. It is a **Proof**, printed on laid paper from plates by Jacob Perkins with concealed imprint "Steel Plate" at the base of the oval color (yes-color) vignette die. This is one of the earliest color proofs from the Obsolete note issuing period and the red vignette die is not only beautifully engraved, but displays a rich red color which is quite striking. This note is the Haxby Plate Note and was photographed by Jim Haxby when he studied the Boys Town Collection. When those notes traded in 1988 privately at Memphis, Tom Denly obtained it for his unsurpassed Boston collection. It finally met the hammer in May 2003, when Mr. Denly's collection was sold. Each signature block has the word "Specimen" penned in cursive. A mounting strip on the back of the left end and a corner chipped off from dismounting. These are minor compared to the **Excessive Rarity** and beauty of this proof/essay. Overall **EF** and perhaps irreplaceable. (\$1,500-2,500)

To order, call 800-622-1880.

2419 MA. Boston. Union Bank. \$5. February 20, 1804. (MA-385 C96a). A scarce and early contemporary counterfeit. The plate is fairly well done and this is the "K" letter position. The paper quality is quite strong and close to **EF**. **(\$250-350)**

2420 MA. Boston. Union Bank. \$5. February 20, 1804. (MA-385 C96a). A second example of this early note. Very bright and crisp. The top is trimmed in at the top slightly, but a vivid **EF plus**. **(\$250-350)**

2421 MI. Adrian. Bank of Adrian. \$3. Sept. 10, 1838. (MI-5 G6a). A scarcer bank on Michigan and a popular \$3 note. All there and close to **Fine**. **(\$200-300)**

2422 Michigan Obsoletes From the 1830's "Wildcat" Era. [8] **(\$200-300)**

1) *Ann Arbor*. Millers Bank of Washtenaw. **\$1.** (G4). One signature. **AU**, small CC with a chip off. 2) *Flint Rapids*. Farmers Bank of Genesee County. **\$20.** (G12). **AU**, a small corner miscut. 3) *Jacksonburgh*. Jackson County Bank. **\$5.** (G6). **VG**. 4) Bank of Manchester. **\$2.** (G2). **Fine**, CC. 5) *Marshall*. Calhoun County Bank. **\$1.** (G2). **Good-VG**, corner repair. 6) *Monroe*. Merchants and Mechanics Bank. **\$5.** (G16). Unissued. **EF**. 7) *Pontiac*. Clinton Canal Bank. **\$2.** 1837. **Unc.**, small ink stain upper left. 8) *St. Joseph*. Farmers & Merchants Bank. **\$1.** (G2). Unissued. **AU**, small body hole.

2423 Michigan Obsolete \$3 Notes. [3] **(\$200-300)**

1) Bank of Brest. **\$3.** 1837. **Fine**, a trifle soiled. 2) *Detroit*. Detroit City Bank. **\$3.** 1837. **RWH**. Scarce. **VF**, the upper right corner is a little nibbled. 3) *Gratiot*. Commercial Bank. **\$3.** NEBN. Unissued. **VF**, a bit miscut and small rust streaks.

2424 MI. Lapeer. Bank of Lapeer. \$1. 1830's. (MI-235 G2). A signed, but not dated example from this NEBN/PSSP series. A scarce bank. **F-VF**. **(\$175-275)**

2425 MI. Niles. Bank of Niles. \$2. Jan. 8, 1838. (MI-300 G4). A scarcer title just over the Indiana line. Some hard to see stains from the back. **Fine**. **(\$150-250)**

2426 MI. Pontiac. Farmers & Mechanics Bank at Pontiac. \$5. Dec. 25, 1837. (MI-335 G8). A scarce note and tougher bank. The note still has much crispness left. Nearly **VF**. **(\$175-275)**

2427 Scarce Pair of Michigan Obsoletes. [2] (\$200-400)

1) *Saginaw*. Saginaw City Bank. **\$2.** 1837. Coin vignette. **Fine**, glue mounting on the back shows through ever so slightly. 2) *Sault De St. Mary*. Chippeway County Bank. **\$5.** **RWH**. The fill in is false, as always. These were never issued according to all Michigan obsolete note scholars. Very crisp **VF**, there is slight toning on two vertical quadrants. A handsome example of this scarce note.

2428 MI. Sharon. Farmer's Bank of Sharon. \$5. Dec. 23, 1837. (MI-410 G6). This has always been a scarce bank and this denomination is not pictured in Haxby. Fully issued and a solid **VG** note. Overall with tone that is natural for a note of this series. **(\$300-500)**

2429 New York Counterfeit Notes, Starter Collection. [13] **(\$250-500)**

1) Albany City Bank. **\$10.** 1860. **RWHE**. CFT. 2) Bank of Albany. **\$5.** 1838. **MDF**. CFT. 3) *Batavia*. Bank of Genesee. **\$5.** 1837. **RC**. Spur. 4) *Bath*. Steuben County Bank. **\$3.** 1838. Spur. Bull. 5) Same issuer. **\$2.** 1855. CFT. Von Steuben right. 6) *Binghampton*. Broome County Bank. **\$1.** 1845. Shilling Denominated Scrip

- 2430 NY. Auburn. Asa Munger & Berry. 12 1/2 cents or One Shilling. 1837. An incredible scrip which has a dual denomination that was rarely used in this late period. The issuer is completely **unlisted** in the Gordon Harris scrip book and we have never seen this note or issuer either. Imprint at the bottom is a local Auburn imprint. Perhaps these notes circulated in Canada? The back has an endorsement signed by Munger. All there with soiling and some moderate staining. That means little due to **great rarity**. Overall **VG**. Historical and important. (\$500-1,000)

- 2431 NY. Johnstown. Montgomery County Bank. \$5. 1840's. (NY-1130 G14). **Proof** on card. A handsome proof with portrait of Joseph Brant at the left. The imprint of V. Balch and C. Durand is a rare one. A card fold that is light, but the look of a gem proof. **VF**. (\$250-500)

- 2432 NY. Lansingburgh. Bank of Lansingburgh. \$5. 1840's. (NY-1180 G40). **Proof** on India paper. A nice looking proof from DT. There is some handling, minor flaws and a restored upper left corner. Overall **VF**. (\$125-175)

- 2433 NY. New York. Chemical Bank. \$1. Late 1830's. (NY-1505 G6). **Proof** on card. A superb looking proof from Durand & Co. Although we have handled several over the years, this is as nice as they come. The majority are foxed, folded or both. Fully **Gem**. (\$400-600)

- 2434 NY. New York. Bank of the State of New York. \$1. March 1, 1838. (NY-1921 G2). This is the Haxby Plate Note and is likely to be from the Boys Town collection. We have seen only two others of this note and they are both in well held collections. The upper left edge is roughed and slightly in. The back perimeter is lined with stamp hinges (a la "Boys Town"). Nearly **VG**. (\$250-500)

- 2435 NY. New York. Bank of the State of New York. \$5. Dec. 1, 1856. (NY-1921 G36b). This might be rarer than the ace of this issue. An interesting small red "V" protector at the lower left. Pinholed in the center, but solid and close to full **Fine**. (\$300-600)

- 2436 NY. Penn Yan. Yates County Bank. \$5. Late 1830's. (NY-2195 G16). Two small hole cancels as normal. A R-6 or close to R-7 note with excellent style by RWH. A hinge taped tear at the left, otherwise **Good** to **VG**. (\$125-175)

- 2437 NY. Troy. Farmers Bank of the City of Troy. \$5. Dec. 1, 1840. (NY-2695 G88 SENC). An unknown variety to Haxby and the first we have seen. All there with no problems. **VG.** (\$250-350)

- 2438 New York Obsolete Notes from the 1830's. [8] (\$150-300)

1) Albion. Bank of Orleans. \$5. Sample from CFT. Plate used in Heath's Pocket Detectors. Folded, **EF**, POC. 2-5) Bank of Lyons. \$1, \$2, \$3, and \$5. 1841. RWH series. **Fine**, **Fine** with small tape stain, **VF**, **Good-VG**. 6) Martinsburgh. Lewis County Bank. \$1. 1833. RWH. **VG**, nicked corner. 7-8) West Troy. Watervliet Bank. \$3, \$10. Late 1830's. **VG**, not signed **VF** with a miscut at the bottom.

- 2439 PA. Philadelphia, Farmers and Mechanics Bank. 1) \$10. 1825. (PA-430 C30). **VF**. 2) \$20. 1809. (C40). **Fine-VF**, small ink smear at the right. Top grade for this. [2] (\$125-250)

- 2440 PA. Philadelphia. Stephen Girard's Bank. \$5. Late 1820's. (PA-436 G34). **Proof** on India paper mounted on card. A lovely proof from the late 1820's engraved by Fairman, Draper, Underwood & Co. This was an important private bank and besides a few proofs, we have seen no other genuine notes. Some wrinkling on the India paper over the card, but still should be considered **Choice**. (\$300-500)

Bank of the United States

1794 Dated First Bank of the United States Note

- 2441 Philadelphia. (First) Bank of the United States. \$20. 1794. (US-1 C126). All notes from the First Bank are quite important. This type is especially hard to find and is a Charleston Branch issue dated a very early 1794. The left signature done by the counterfeiters is John Kean, a signer of Continental Currency. **Fine**, a burn hole at the upper left and a clipped corner at the upper right. Superior condition and a sharp note. (\$750-1,250)

- 2442 Philadelphia. (First) Bank of the United States. \$5. 1800. New York. (US-1 C252). This is also a rare type with a turn of the century date. The note is accomplished in a fine hand and has strong paper quality. **VF** for the issue with a slightly rough upper left corner. (\$1,000-1,500)
- 2443 Philadelphia. (Second) Bank of the United States. \$5. 1828. Louisville. (US-2 C412). Cashier's type branch bill from this scarce location. The imprint is weak and there is no plate letter. **VG**. (\$200-400)
- 2444 Philadelphia. (Second) Bank of the United States. \$5. 1830. Mobile. (US-2 C476). A popular southern branch and not usually found over Good. Some pinholes, but very close to **VG**. (\$200-400)

- 2445 Philadelphia. (Second) Bank of the United States. \$5. 1830. Nashville. (US-2 C516). A stronger plate than generally seen. This note would have been quite deceptive. Very clean looking from the face and **choice** for the note. Should be called **VF** despite the lack of crispness. (\$275-475)

- 2446 Philadelphia. (Second) Bank of the United States. \$5. 1829. Nashville. (US-2 C516var). A little different from the last with the "F" plate position letter and cruder details. This has "X" pen cancels on the face. **Fine**. (\$150-250)

- 2447 Philadelphia. (Second) Bank of the United States. \$5. 1827. Pittsburgh. (US-2 C708). An "F" plate note with fairly good details. There is some crispness still present and far above average. **Fine-VF**. (\$300-600)

- 2448 Philadelphia. (Second) Bank of the United States. \$10. 1828. Pittsburgh. (US-2 C714). A "D" plate counterfeit with rather crude detail. This is top drawer condition for this type and brand with much paper body. **VF** and many will grade it better. (\$250-450)

- 2449 Philadelphia. (Second) Bank of the United States. \$5. 1828. Portland. (US-2 C748). The "C" plate counterfeit often seen used on this branch. These are fairly tough to find. The face looks fairly nice, but the back has glue on the back from an old detector mounting. There are some edge tears and an internal edge tear. Overall **VG**, but again decent looking. (\$150-250)

- 2450 Philadelphia. (Second) Bank of the United States. \$5. 1830. Providence. (US-2 C828). We have handled very few Cashier's notes from this branch. This example was once in a detector book as seen from a back glue spot stain that shows to the face. Also, oval stamp "COUNTERFEIT" which is quite rare. Other than that a solid **Fine plus** and important. (\$250-500)

- 2451 Philadelphia. (Second) Bank of the United States. \$5. 1830. Savannah. (US-2 C934). The "E" plate counterfeit on this type. The eagle is rather thin. Strongly penned, but pen cancels on the face. The left quarter is split off, hinge repairs, other repaired tears as well. Looks OK from the face, but has to be called less than **Good**. (\$100-150)

Superb Grade Washington, D.C. Branch \$5 Note

- 2452 Philadelphia. (Second) Bank of the United States. \$5. 1828. Washington. (US-2 C1004 SENC). This is always a difficult to find branch as Haxby knew at publication. We have handled very few of these in our sales and the late DC collector Ellis Edlow did not have many either. This "I" plate counterfeit is fairly strong in quality. Since the good news is the rarity, the great news is the extraordinary condition. The note is still very crisp with a few folds. Fully **VF-EF** and perhaps the finest you will encounter. (\$800-1,200)

It is collected with the Colonial note series and is listed in Newman. The denomination structure for these toll tickets includes two notes with the "Mill" or 1000th denomination first seen in the Nova Constellatio series in 1783. There are only a few Mill denominated notes in the early American series to our knowledge. The sheet also has the tops of two other notes, **2 cents-5 Mills.** Another interesting characteristic to this issue is the paper, which is prepared as two layers and when held up to a light shows clear details of a Colonial era map. Some minor foxing as seen on this issue, but **Uncirculated.** Always popular and superb early Connecticut history. **(\$1,250-1,750)**

2463 CT. Stonington. Stonington Bank. **\$1-\$1-\$2-\$3.** 1860's. One the great classics in uncut obsolete sheets. The majority have been cut for single notes, especially the \$2 note with the whaling scene derived from the painting by French artist Garneray. Add to that a full red tint sweeping the entire presentation and you can see why these are ever popular. This example is **Very Choice**, virtually as it left the press! **(\$400-600)**

2464 GA. Augusta. Bank of Augusta. **\$4-\$4-\$4-\$4.** 1820's. A double sided sheet with the \$4 notes from the Durand, Wright, & Co. series on the face. The backs were printed by the bank in 1863 with nine emergency issue change bills. **AU. (np)** **(\$110-130)**

Superb and Impressive Eau Claire Scrip Note Sheet

- 2534 WI. Eau Claire.** Culver & Tarrant Merchandise at our Store. 1860's. A magnificent uncut item and the first we have encountered in person. Included on this interestingly configured sheet are **5 cents** (1), **10 cents** (3), **25 cents** (3), **50 cents** (3), **\$1** (3), **\$2** (2), and **\$5** (1). These are Krause-Unlisted, SC-2, SC-5, SC-6, SC7, SC-8, and SC-10. He rates all of them R-6, but perhaps the 5 cents and \$5 are worthy of a rarer rating. These are great looking notes by Milwaukee Litho. & Engra. Co. with green face protectors and light brownish-orange backs. There are some folds though notes and handling, but quite sharp and bright. Overall, **Very Fine** or better. Obviously, quite a prize for the Wisconsin obsolete specialist and a **superb sheet of any genre.** (\$3,000-5,000)

Advertising, Political and Mimic Notes

2543 **DC. Washington.** Sam Cary/Brick Pomeroy Greenback Platform. 5. July 17, 1878. (Vlack 1160). A fascinating ad/political note with long text on the verso. Printed on green paper. Minor soiling, but close to EF. (\$125-175)

2544 **IL. Macomb.** B.F. Rudolph Boots, Shoes, Caps and Trunks. 3. (Vlack 5205). A legal tender mimic in green with red seal. The back with "X" legal style. Tight at the top. AU. (\$60-80)

2545 **IL. Princeton.** M. Dornham New York Clothing Store. 71. (Vlack 1290). A scarce note which is a direct style mimic of the \$20 Demand note. The green protectors and back make for a dynamic presentation. EF. (\$125-175)

2546 **MD. Rose Jelly Co. Ad Notes.** 1) F.C. Renner. \$10. (Vlack 1500). Text on back. EF, but lower right corner rough. 2) \$10. (Vlack 1505). Premium coupon for a family printed in multi-color. Detailed text on the back. EF. Both colorful and attractive. [2] (\$125-175)

1871 Political Bill

2547 **MA. Unknown.** One Specimen of Equitable Money. One Hour's Labor. 1871. An unusual note attacking the labor of the period. The imprint is Geo. Morton. This probably relates to grain factory disputes in Massachusetts. Unissued with place name in that state to be filled in. Choice AU. (\$500-750)

Superb Minnesota Baseball Note

2548 **MN. Austin.** Hayes Bros. Jewelers. 1887. **No Denomination.** Unlisted in Vlack and any ad note from Minnesota is rare. This is a gorgeous type with green face protectors and full green back. The back shows twelve players from the Chicago team. Many of the Baseball ad notes seen today have edge chipping and other condition problems. This note is **premium quality** for the design type and is **new**. A very **choice** example that should garner some excellent bids. (\$1,500-2,000)

2549 **NJ. Trenton.** Deats & Sterling. 1890. Text ad printed on green IRS Distillery Stamp form. Three POC. AU. (\$100-150)

2550 **New York Ad Notes, Engraved Issues.** (\$100-150)
1) **Buffalo.** Roots & Tyler. 1. (Vlack 2010). Good-VG, soiled, tear. 2) **New York City.** J.T. Johnson. 100. (Vlack 2585). Good, dark, soiled, fraying. 3) **Frederick Wright.** 100. (Vlack 2980) Good-VG, split, partial backing. Looks OK from the face.

2551 **NY. New York City.** Baker, Goodwin & Co. Steam Printers. One. (Vlack 2105). Female seated with ad text on the back. Some foxing on the back, but close to VF. (\$125-175)

- 2552 NY. New York City. G.L. Colton Court of Death. \$1 Payment. (Vlack 2295). A fascinating ad note for a share in a Rembrandt Peale painting. In reality, this was a lottery that only took effect if 100,000 engravings of the painting were sold. It was likely the plan was never to sell 100,000 prints in order to avoid the said lottery. A fascinating Peale item and quite rare. We don't recall handling one of these. VF, some minor foxing and juncture holes. (\$250-350)

- 2553 NY. New York City. Wm. Jervis Cheap Engraving & Printing. 50. 1850's. (Vlack 2580). A handsome type in the obsolete note style of the times. This is one of the few examples of this we have seen. VF. (\$175-275)

- 2554 NY. New York City. M. Westbrock Metropolitans Jewelers Association and Piano Forte Manufacturing Co. 20. (Vlack 2885). A colorful note in green tint and green back. A product it advertises in the Ladies' Casket Toilet Box. A mimic of legal tender notes of the period and a rare type. EF. (\$500-750)
- 2555 NY. New York City. Wm. M. Young-Leather Manufacturers Bank of New York. 50. (Vlack 3010). A great obsolete mimic with a rare vignette of "Putnam's Escape." from the British. Fine plus. A nice, clean example. (\$125-175)

- 2556 NY. New York City. R. McNama Paper Hangings. 100. (Vlack 2645). This is quite a scarce NYC ad note. This is likely from the late 1850's with style taken from Durand & Co. and some local printers. A pleasing VF. (\$175-275)
- 2557 NY. Unknown. H. C. Foote Universal Counterfeit Detector. 3/20. (Vlack 3225). A private engraver's sample bill displaying lathe work, three vignettes and medallions. Much wear, so these must have circulated somehow. Quite interesting and VG, some minor splits on the heavier folds. (\$125-175)
- 2558 NY. Unknown. Geo. Southwick Egyptian Hair Coloring. 100. (Vlack 3260). A popular note with some Federal issue features such as the left vignette and large red seal at the right. The back is green and mimics a legal tender note of the 1880's period. EF, some very minor nicks. (\$80-120)

- 2559 OH. Cincinnati. E. B. Taylor Wigmaker, and Ornamental Hair Manufacturer. 10. (Vlack 3335). Well vignetted in the 1840's style of Hammond. This example has an 1862 handwritten date. Building at the top center. Fine. (\$150-250)
- 2560 OH. Various. A. Hood & Sons Implement. 1. Ca.1910. Colorful ad note in purple. Printed on both sides with the face having antique car passing dairy farm. Perimeter with various Ohio cities and Pittsburg, PA at the top. Neat looking and Fine-VF. (\$100-150)
- 2561 PA. Oil City. Bentheim & Gosline Boot and Shoe Bank. 10. 1/1/70. (Vlack 3575). A great location in the petroleum belt. The demand for goods was considerable and many a tradesmen's fortune was made here. The face is black on white and the back is green. Some aging on the top, but close to EF. (\$150-250)

- 2562 PA. Petersburg. E. Hiteshaw Ware-Rooms, Fall and Winter Goods. 50. Ca. 1850's. (Unlisted in Vlack). This is the first ad note from here we have seen. Printed on grayish-blue paper. Building center, Washington as equestrian left and standing at the right. Some foxing seen from the back, but pleasing **Fine** or better. A rare piece. (\$200-300)

- 2563 PA. Philadelphia. N. H. Anders Concert Hall Furniture Warerooms. 1217. 1870's. (Vlack 3595). A handsome green Federal mimic for this business located at 1217 Chestnut Street. The vignette at the left was used on the \$5 Demand and Legal Tender notes. **Choice EF**. (\$175-275)

California Related Ad Note

- 2564 PA. Philadelphia. Bradley & Rulofson Best Photographs in the U.S. 1. 1874. (Vlack 3615). An important ad note since it is a mimic of a National Gold Banknote and is associated with San Francisco, CA. The firm received a gold medal for its workmanship. This ad note is fully issued and was good for \$1 in trade for photography. A fascinating subject. **VG to Fine**, but a small scotch tape repair at the left and an edge nick. (\$250-350)

- 2565 PA. Philadelphia. M.B. Dyott Dyott's Patent Pine Oil Lamps, Chandeliers. 5. 1840's. (Vlack 3675). A fine looking ad note from Philly. Seated female at the top center. The firm concentrated on pine oil, lamps, gas chandeliers etc. **VF**. (\$125-175)

- 2566 PA. Philadelphia. M.B. Dyott & Kent. (Vlack-3685). 5. This lovely note is the plate piece in the Vlack reference. This firm dealt in lighting, oils, chandeliers etc. There is some end foxing and minor edge repairs, but premium quality and overall **VF**. (\$250-350)

- 2567 PA. Philadelphia. Theo. J. Harbaugh Magic Lanterns. 1870's? A fascinating ad placed on the back of \$5 American Bank of Baltimore green tinted note. The vignetted center in dark black discusses stereopticons, magic lanterns, slides etc. The ad was good for a 20 cents value free catalogue. The note is scarce, but this interesting ad is **rare**. (\$200-300)

- 2568 PA. Philadelphia. Krupp's Essence of Coffee. 500. (Vlack 3805). An attractive ad note signed by "Healthy Coffee". Certainly, some modern doctors would disagree! Well vignetted. Scattered foxing, but crisp and **VF**. (\$150-250)

Please note that a 15% buyer's premium will be added to each lot purchased.

Fractional Mimic Note

2569 PA. Philadelphia. Fattie Stewart's Dew Drop Inn. **50**. 1870's. A wonderful fractional mimic of the first issue. These are well collected and this is as fine a title as we have seen. Some purple stains and minor foxing, otherwise close to **VF**. **(\$250-350)**

2570 PA. Pittsburgh. W.M. Clayton & Sons Real Estate and General Agents. **1**. (Vlack 4075). An attractive note with a green back. The trimming is typical for this, tight and slightly in at places. **EF**. **(\$100-150)**

2571 Pennsylvania Ad Notes, Some Scarcer, but with Condition Problems. [6] **(\$100-150)**

The early notes include Hamburger's Coal Yard, White's Philadelphia Bonnet Manufactory, Harris' Printing Office and U.S. Clothing Emporium in Reading. These average **Good**, mostly there, but flaws to the thin paper used. Also two well taped CSA facsimile notes on Lancaster City and Pittsburgh. A good study group.

2572 RI. Pawtucket. J.H. Moore Flour, Grain and Groceries. **5%**. 1870's. (Similar to Vlack 4190). A larger size mimic from a scarcer location. These were used as discount coupons. Printed face and back in green with with red text. **Choice AU**. **(\$100-150)**

2573 Midwestern Advertising Notes. [3] **(\$100-150)**

1) **IL. Chicago.** Cross and Banta. Discount coupon ad. Black face and orange back. **EF**. 2) **Elgin.** Economy Clothing. **\$1.00 Coupon Ad**. Printed on green paper as CSA facsimile \$10 T-68. **Unc**. 3) **IN?** Grace Hayward and Ferris Comedians. **10/20/30**. The imprint is Muncie, but perhaps for use in many states. Green with portraits. **Fine plus**.

2574 Mostly New York Ads on CSA Facsimile Notes and Federal Mimics. [10] **(\$200-300)**

A nice variety of types and towns including Brooklyn, Carthage (bicycle vignette, Geneva, Hornellsville, Manilus (federal mimic), Oswego, Rochester (2), Troy and Ashland, Ohio. Some better items included and worth a look. Average **Fine-VF**, a few tears, but few better.

2575 CANADA. S. Zimmerman-The Banks of the St. Lawrence. (Vlack-4620). **20**. Not rare, but always popular with the bridge vignette on the face and orange back. From the NASCA Brookdale sale in 1979. Handled enough towards **AU**. **(\$75-125)**

Extraordinary Letter Archive of the Los Angeles Clearing House Association

- 2576** An album containing well over a hundred pieces of original correspondence dated 1907 through 1908, most relating to the way the banks, and the Federal Government, responded to the financial panic of that time period. The letters contain a wealth of information; which banks requested Clearing House Certificates, how they were issued, quantities issued, legislation concerning the certificates, redemption procedures, membership in the Clearing House Association, and much, much more.

One example illustrated is a retained copy of a letter dated April 6, 1908 from J. A. Graves, the president of the Los Angeles Clearing House Committee to James G. Cannon, Vice President of the Fourth National Bank in New York City. Cannon wrote a book on the subject of Clearing Houses, and had requested statistical and historical information from Graves.

Graves reveals that at the first meeting of the Los Angeles Clearing House Association, the Committee voted to issue Clearing House Certificates. He goes on to state that \$3,563,500 worth were issued. By March of 1908 all but \$125,000 worth had been retired. Since \$500,000 in unused certificates were returned by the banks, this establishes the fact that about \$3,000,000 worth actually circulated.

Another letter, dated November 9, 1907 from the Secret Service, states that they would pursue and prosecute anyone suspected of counterfeiting the Clearing House Certificates.

In a third letter, dated December 16, 1907, Gillett, Governor of California, writes Graves and expresses his thoughts about ending the banking "Holidays" that were occurring throughout the state.

There is correspondence from almost every major California banking institution, all on official letterheads, and most are signed by a bank officer. There are letters from Congressmen concerning appropriate legislation, requests to supply Clearing House Certificates, requests for specimens, envelopes used for redemption, and much much more. This lot should be carefully examined by anyone who has the slightest interest in what was a very important chapter in the history of California banking.

National Bank Notes

Connecticut

- 3001 Ch.943. Danbury. Danbury NB. \$5. Fr.598. 1902 PB. No.54761/54761 K. **VF**. A pleasing note that looks EF on the face. Good margins and nice bold stamped signatures. (\$150-225)

Illinois

- 3002 Ch.2945. Aurora. Aurora NB. \$20. Fr.650. 1902 PB. No.17564/17564 B. **Fine**. Bright, but with rough and slightly chipped edges. The pen signatures are light but legible. (\$90-120)

- 3003 Ch.5619. Chadwick. First NB. \$20. Fr.1802-1. 1929 T1. No.C000147A. **Fine**. A solid note, with decent margins and no problems. The most current census shows ten Small notes known, with \$10 notes slightly outnumbering \$20 notes. All are well circulated, and this is the finest of either denomination we have seen. (\$250-350)

- 3004 Ch.8044. Dwight. First NB. \$10. Fr.625. 1902 PB. No.10000/10000 D. **Choice Uncirculated** but for a faint corner fold. Bright, clean and crisp. The "President" title is over stamped "Vice President" in red, with his signature stamped in purple. We've seen three other Third Charter notes sold on this bank in the past decade, all lower grade, and all have had the normal "President" title. A very attractive and interesting note. This is the finest of seven Large notes known on this bank. (\$2,000-3,000)

Iowa

First Auction Appearance

- 3005 Ch.M3898. Spencer. First NB. \$10. Fr.626. 1902 PB. No.M897776E/2769 E. **VG-F**. Some soiling typical of the grade, but no damage other than a couple of pinpoint rust spots. The cashier's signature is gone, but the president's is strong. A very rare bank that has been offered publicly only twice in the past sixty years - on fixed price lists in 1989 and 1993. Kelly lists only six notes known for this Large Size only bank (none of them high grade), and the only one we can trace was a VF \$20 that Dave Koble offered for \$425 in 1989. (\$1,500-2,500)

Minnesota

- 3006 Ch.2015. *West Union. Fayette County NB. \$10. Fr.1801-1. 1929 T1. No.D000445A. EF-AU. Bright, crisp and original, with just faint traces of a fold or two. Kelly currently lists eleven Small notes known, and this is the nicest.* (\$300-400)

Massachusetts

- 3007 Ch.11236. *Webster. Webster NB. \$5. Fr.1800-1. 1929 T1. No.F002965A. Fine. Slightly close at the right, but evenly worn, with no defects. Kelly lists six Large notes known; the census has doubled since then, but all are well circulated.* (\$275-375)

Michigan

- 3008 Ch.14249. *Hancock. National Metals Bank. \$20. Fr.1802-2. 1929 T2. No.A000589. Uncirculated. The highest Charter Number to issue in Michigan. A seldom available bank for which Kelly lists just eight notes known. The number has doubled since then, but nearly all are very low grade. Only one other has been catalogued as Uncirculated, and it had mounting traces. This one is bright and crisp, and completely fresh and original, with good embossing, but has faint traces of a pinch here and there.* (\$1,250-1,750)
- 3009 Ch.9000. *Munising. First NB of Alger County. \$10. Fr.626. 1902 PB. No.9204/9204 F. Fine. Good stamped signatures, with just a slight bit of roughness at the center of the right edge. The census stands at two dozen Large notes, nearly all of which are well circulated.* (\$400-600)

- 3010 Ch.M8378. *Chaska. First NB. \$5. Fr.600. 1902 PB. No.K476288E/3217 H. VF. Clean on the face, with just a bit of wallet soiling on the back. There is a small piece out of the bottom left, but the signatures are strong. The census stands at an even dozen Large notes, only one of them grading higher than this.* (\$750-1,250)
- 3011 Ch.11810. *Duluth. Minnesota NB. \$5. Fr.1800-1. 1929 T1. No.F015357A. Fine. A nice circulated note, with decent margins.* (\$80-120)

- 3012 Ch.11552. *Good Thunder. First NB. \$5. Fr.1800-1. 1929 T1. No.E002328A. F-VF. A bit close at the bottom. A scarce bank, and one of the great titles in Nationals.* (\$750-1,250)

- 3013 Ch.10903. *Keewatin. First NB. \$10. Fr.1801-1. 1929 T1. No.E000135A. VF-EF. Bright, clean, and very nearly a full EF. Kelly's census has risen just slightly over the years from eight to eleven Small notes known. This is the finest known of the eleven, just edging out the \$20 below.* (\$750-1,000)

- 3014 Ch.10903. *Keewatin*. First NB. \$20. Fr.1802-1. 1929 T1. No.F000023A. **VF+**. This is better than VF, but not quite up to the \$10 above. It still makes second finest known on the bank, and is **the finest of the three \$20 notes reported.** (\$700-900)

Unique Union NB of Rochester \$2

- 3015 Ch.2088. *Rochester*. Union NB. \$2. Fr.389. No.D500344/753 A. **Fine**. Looks a grade better, but has a long (1"+) vertical tear left of center. Kelly's old listing of eleven Large notes known has only increased by 1 in the intervening years, and this remains **the only \$2 reported for this scarce bank.** (\$2,500-3,500)

Choice Thief River Falls

- 3016 Ch.5894. *Thief River Falls*. First NB. \$10. Fr.633. 1902 PB. No.2993/2993 D. **Choice Uncirculated**. A beautiful, fully original note, with great color and bold stamped signatures. The bottom margin rises just slightly at the left end, but the centering is otherwise quite nice. This is, as Lyn Knight put it in his August 21, 2003 sale, **"without a doubt, one of the greatest of all titles."** The note he sold there (serial number 2990) was not quite as nice as this one, and realized a bit over \$5,000. (\$4,500-6,000)

- 3017 Ch.11410. *Waconia*. First NB. \$5. Fr.1800-1. 1929 T1. No.A001828A. **EF**. Nicely centered and clean. The current census shows nineteen Small notes, only one of them superior to this one. (\$350-450)

New Jersey

- 3018 Ch.1209. *Camden*. First Camden NB & TC. \$5. Fr.1800-2. 1929 T2. No.A063969. **VF-EF**. The third and final title for this bank, adopted just before the Small Size era. A nice original note, with good embossing. Although the census shows over 120 Small notes known, the vast majority are in the VG to Fine range. **This is easily in the top 10% of all Small notes**, and the 3rd finest of the 41 Type 2 \$5 notes recorded. (\$250-350)

New York

- 3019 Ch.2376. *Olean*. Exchange NB. \$10. Fr.1801-1. 1929 T1. No.E009905A. **AU**. Kept from a higher grade only by a faint, soft center fold not easily seen. (\$150-250)
- 3020 Ch.2376. *Olean*. Exchange NB. \$10. Fr.1801-1. 1929 T1. No.F010090A. **Choice Uncirculated**. Not perfectly centered, but otherwise as nice as they come. (\$250-350)

- 3021 Ch.1090. *Oneida. Oneida Valley NB. \$20. Fr.1802-1. 1929 T1. No.F000522A. VF.* Bright and clean, and looks a grade better. The last edition of Kelly evidently was in error listing 21 Small notes. **Kelly's latest New York census shows only twelve Small notes** (as does our census). This is a new one, and only two of the twelve are better than this. (\$300-400)

Uncut Watkins Sheet

- 3022 Ch.E9977. *Watkins. Glen NB. \$5. Fr.593. 1902 DB. No.X143728A/2736 A. EF.* The only **Uncut Sheet** reported for the bank. Fold between the notes and through each note, but an attractive sheet that nevertheless looks EF+ on the face. Just minor soiling showing about the folds on the back. The census stands at twelve Large notes known for this bank, only one of which surpasses the notes in this sheet. Bright, with vivid color and nice bold stamped signatures. (\$7,500-12,500)

North Dakota

First Public Offering

- 3023 Ch.W8084. *Hankinson. Citizens NB. \$10. DB. Fr.617. 1902 DB. No.R598856A/1084 D. VF.* Tight at the bottom, with some scattered pinholes. Good brown pen signature of the cashier, but president's signature is gone. **An extremely rare bank that has never been offered publicly before**, at auction or fixed price. Kelly lists **only one note known** (a \$10 PB), and we've never seen any others. (\$5,000-7,500)

Ohio

- 3024 Ch.5618. *Dillonvale. First NB. \$20. Fr.1802-1. 1929 T1. No.D000327A. VF.* Slightly close at the left, but no pinholes or other problems. Kelly's census of eleven Small notes has increased only slightly in the past seven years, and this is **the finest Small note known**. (\$300-450)
- 3025 Ch.6314. *Elmwood Place. First NB. \$20. Fr.1802-1. 1929 T1. No.F000159A. F-VF.* Clean and pleasing, with substantial body for the grade. There are now eighteen Small notes known, only two of them nicer than this. (\$300-400)
- 3026 Ch.3315. *Tiffin. Tiffin NB. \$10. Fr.1801-1. 1929 T1. No.F004411A. Fine.* Tight at the left, but clean for the grade, with no problems. (\$150-225)

Pennsylvania

- 3027 Ch.1322. *Allentown. Allentown NB. \$20. Fr.1802-1. 1929 T1. No.F005739A. Gem Uncirculated.* A superb original note, with deep bold embossing. There are a fair number of Small notes in the census, but not too many high grade examples. We've not seen any superior to this beautiful note. (\$300-400)

- 3028 Ch.7056. *Atglen*. *Atglen NB*. \$10. Fr.1801-2. 1929 T2. No.A001848. VF. Clean, crisp and decently centered, with the look of a higher grade. There are now fifteen Small notes known, only three of them Type 2. The finest known is only a half grade nicer than this one. (\$450-600)

- 3029 Ch.4560. *Avondale*. NB of *Avondale*. \$10. Fr.1801-2. 1929 T2. No.A004504. EF. Centered somewhat low, but clean, crisp and original. Although there are twenty Small notes in the census, only five of them are Type 2. This is the finest Type 2 recorded. (\$350-450)

- 3030 Ch.14117. *Beaver Falls*. First NB at. \$20. Fr.1802-2. 1929 T2. No.A000187. F-VF. A scarce and popular note from the 14000 range. Only two of the eighteen now known are better than VF. (\$400-500)

- 3031 Ch.10128. *Belleville*. *Farmers NB*. \$10. Fr.1801-2. 1929 T2. No.A001467. VF+. Clean and fairly crisp, with good margins. A very scarce and seldom offered bank, with only eight Small notes in the census. Of the eight, only three are Type 2, and this is the only \$10. (\$750-1,000)

- 3032 Ch.138. *Bethlehem*. First NB. \$20. Fr.1802-1. 1929 T1. No.C000455A. EF-AU. The very rare first title for this bank. Kelly lists over sixty Small Size notes known for this bank, but only six of them bear the first title. An Uncirculated example brought over \$500 in our September 2002 sale. This one has a faint old center fold, but with its great appearance, embossing and originality, and the strong market for Nationals, this one might not be too far from that level. (\$350-450)

- 3033 Ch.12380. *Camp Hill*. *Camp Hill NB*. \$20. Fr.1802-1. 1929 T1. No.F000297A. About EF. Pressed long ago, but with good margins and a nice appearance. Kelly lists only four Large and ten Small notes in his census, although that number has increased somewhat. This is one of the two finest Small Size \$20 notes known. (\$350-500)

- 3034 Ch.8283. *Catasauqua*. *Lehigh NB*. \$20. Fr.1802-2. 1929 T2. No.A001287. AU. Tight at the bottom, with a few pinches here and there, but no folds through the note. Fully original, with good embossing. Although the census has nearly doubled since Kelly reported fourteen Small Size notes on this bank, most are low grade. Only two others have been reported as AU, making this either the finest known, or tied for finest. (\$350-500)

- 3035 Ch.6010. *Crafton*. First NB. \$5. Fr.1800-1. 1929 T1. No.E001412A. VG-F. Average for the grade, with a couple of very short internal splits and a minute blue ink spot on the back. (\$80-120)

- 3036 Ch.E5198. Delta. Peoples NB. \$10. Fr.490. 1882 BB. No.A973809A/564 C. VG. The signatures are gone, and there is a short (8mm) split at the left, but no major damage, and the overall appearance is quite pleasing. There are **only seven Large notes** known on this bank, and all but one are very well circulated. (\$750-1,000)

- 3037 Ch.4011. East Stroudsburg. East Stroudsburg NB. \$10. Fr.626. 1902 PB. No.R807568H/7526 A. EF. Irregularly trimmed at the top and bottom, but bright, crisp and fully original, with beautiful dark pen signatures. **A very scarce bank, with just eight Large notes in the census** - seven \$5s and this unique \$10. Only one of the eight is significantly better than this. (\$350-500)

- 3038 Ch.13700. Latrobe. First NB in. \$5. Fr.1800-2. 1929 T2. No.A006657. **About EF**. A pleasing note, but one vertical fold is rather sharp (obvious on the back but not the face). A small size only bank that issued nothing but Type 2 \$5 notes. **Only seven are known today**, and the only one nicer than this was last sold publicly 13 years ago. (\$350-500)

- 3039 Ch.4156. Middleburgh. First NB. \$10. Fr.1801-2. 1929 T2. No.A000711. **Choice Uncirculated**. While the margins don't quite allow a full Gem grade, the originality and embossing are all there. (\$250-350)

- 3040 Ch.5574. Montgomery. First NB. \$20. Fr.1801-2. 1929 T2. No.A000009. **Fine**. Might even rate a slightly higher grade, but the right half of the back is heavily soiled. Not rare as a bank, but all known are circulated - the finest known is only EF. (\$150-225)

- 3041 Ch.8499. New Holland. Farmers NB & TC. \$5. Fr.1800-2. 1929 T2. No.A007858. VG-F. Evenly worn, with no defects of any kind. (\$175-225)

- 3042 Ch.5327. Oakdale. First NB. \$5. Fr.1800-1. 1929 T1. No.C009446A. **About Fine**. Tight at the top, with a short split at the right. (\$150-200)

- 3043 Ch.8858. Oley. First NB. \$10. Fr.1801-1. 1929 T1. No.A000487A. **Choice Uncirculated**. A very pretty example, close to Gem. A popular though not rare bank, but in great condition. (\$250-300)

- 3044 Ch.12197. Penbrook. NB of Penbrook. \$10. Fr.1801-1. 1929 T1. No.E000536A. **EF**. Tight across the bottom, but bright, clean and crisp. Kelly's census for this bank has only gone from five notes to eight in the past seven years (all Small Size). **Only one of the eight known is better than this attractive note.** (\$600-800)

- 3045 Ch.685. Pittsburgh. Farmers Deposit NB. \$5. Fr.1800-1. 1929 T1. No.D044375A. **EF**. Very tight across the bottom, but otherwise quite nice. (\$125-175)

3046 Ch.608. *Pottstown. NB of Pottstown. \$20. Fr.1802-1. 1929 T1. No.E001609A. Gem Uncirculated.* Excellent margins, with deep original embossing. (\$300-400)

3047 Ch.4887. *Reading. Reading NB & TC. \$10. Fr.1801-1. 1929 T1. No.F005335A. Choice Uncirculated.* Good margins and embossing. (\$250-350)

3048 Ch.5666. *Sayre. First NB. \$10. Fr.1801-2. 1929 T2. No.A004758. VG-F.* Evenly worn, with broad even margins all around, and not a single defect. Although Kelly listed eighteen Small notes in his census in 1997, he only lists eleven today. **Only two of the eleven known are Type 2 notes.** (\$150-200)

3049 Ch.13772. *Scottdale. First NB. \$10. Fr.1801-2. 1929 T2. No.A004907. Choice Uncirculated.* Although lacking the margins for Gem, this note has the necessary embossing and originality. A downright rare Small Size only bank whose census has only increased by one note in the past seven years, standing at four \$10s and three \$20s today. **This is the finest of the seven known.** (\$600-900)

3050 Ch.E3143. *Shenandoah. First NB. \$20. Fr.650. 1902 PB. No.H916533H/20641 B. F-VF.* Trimmed slightly into the design at the bottom, but closer to VF than Fine. Nice purple stamped signatures. The census is up to eleven Large notes for this bank, all but two of them very well circulated. (\$400-550)

Late Charter Number 1 Note

3051 Ch.14169. *Sykesville. First NB.. \$10. Fr.1801-2. 1929 T2. No.A000001. EF-AU.* Crisp and perfectly centered, with just a horizontal fold and a corner fold. **A great Number 1 note from the popular 14000 Charter Number era.** Nationwide there are only 47 Number 1 notes in the 14000's for all states and denominations combined, and fifteen of those are on uncut sheets. (\$2,000-3,000)

3052 Ch.8223. *Topton. NB of Topton. \$20. Fr.1802-1. 1929 T1. No.E000155A. Choice Uncirculated.* Very close to Gem. The hoard of Type 2 \$10 and \$20 notes in Unc. make this bank easy to find, but there are almost no Type 1 notes in nice condition. (\$300-400)

South Carolina

3053 Ch.1621. *Charleston. Peoples-First NB. \$5. Fr.599. 1902 PB. No.2214/2214 C. Fine.* A bit close at the top and bottom, and the signatures are partially faint, but overall solid, and clean for the grade, with no damage. (\$225-300)

First Public Appearance

- 3054 Ch.9587. *Fort Pierre*. Fort Pierre NB. \$20. Fr.1802-1. 1929 T1. No.C000024A. **F-VF**. Excellent margins, with just a couple of very small rust spots in the right margin. Only sixty sheets of Small Size \$20 notes were issued. Although Kelly lists one Large and **five Small notes known**, they must be closely held, as not one has ever appeared publicly.

(\$1,000-1,500)

Utah

- 3055 Ch.4310. *Salt Lake City*. NB of The Republic. \$20. Fr.501. 1882 BB. No.Z823868/9264 A. **Fine**. Just a trifle close at the lower left, with a few pinholes, but evenly worn and attractive, with nice brown and blue signatures. A somewhat scarcer Large Size only bank that closed in 1922. This is the **only known \$20 Brown Back on this bank**, and a very scarce type for the state.

(\$2,500-3,500)

Virginia

- 3056 Ch.6842. *Hampton*. First NB. \$10. Fr.1801-1. 1929 T1. No.E000633A. **VF-EF**. Clean for the grade, and crisp, really closer to EF than VF. **Kelly lists seven Small notes known**, but only one of them is better than this, and only by a half grade or so. A lower grade \$5 brought \$322 at the F.U.N. auction last year.

(\$450-650)

West Virginia

- 3057 Ch.6302. *Philippi*. First NB. \$10. Fr.1801-1. 1929 T1. No.E000772A. **VF**. Nicely centered, with the clean appearance of an EF. While Kelly's listing of six Small notes known has increased a bit, they are seldom available. The last two appearances were for a Fine \$10 in September 2002 and a VF \$20 last September, both of which sold for \$373.75.

- 3069 Ch.1010. Watertown. Wisconsin NB. \$20. Fr.1802-1. 1929 T1. No.C000211A. Choice EF. A bit close at the left, but otherwise particularly nice. **This is tied with the \$10 for the finest known Small Size notes on the bank, and is the finest \$20.** (\$750-1,250)

3090 \$2. Fr.247. 1896. No.625020. **EF.** Better than EF in terms of folds, but the margins (particularly the corners) show a bit of soiling, making it look a bit lower in grade than it is. **(\$1,500-2,000)**

3091 \$2. Fr.248. 1896. No.20461360. **VG.** Evenly circulated, with excellent margins and not a single problem, large or small. Although technically VG, it's certainly worth Fine money. **(\$350-450)**

3092 \$2. Fr.253. 1899. No.K20832183. **AU.** A beautiful example - crisp and fresh, but with just few traces of handling. **(\$450-650)**

3093 \$5. Fr.270. 1896. No.30724596. **Fine.** The top margin is normal, but looks small compared to the other three jumbo margins. Looks VF+ on the face, with the wear showing mostly on the back. A very attractive example overall, with no pinholes, splits, etc. **(\$900-1,400)**

3094 \$5. Fr.279. 1899. No.M97478149. **EF.** Bright, crisp and perfectly centered, with the full look and feel of a higher grade. A perfect Chief for a top-end circulated set. **(\$1,000-1,250)**

*United States Paper Money Records*

By Martin Gengerke

2001. 275pp, spiral bound. Mint.

Book or CD....\$125.00

Before you buy a single piece of Federal Paper Money, there are several things you really need to know. How many times has a particular note appeared in auction or sales or in dealer price lists? How was a specific note graded in its previous appearances? What is the 50-year price history and provenance of that note? In *United States Paper Money Records* Gengerke, one of America's leading experts on Federal Currency has compiled and unprecedented data base of facts and figures that every major dealer or collector should have in their own library. There are over 10,000 auction or price list appearances recorded; each note listed is identified by Friedberg number and serial number and Gengerke gives "summary" grades when more than one grade has been recorded for a single note. This priceless work is also available on CD-ROM, and lists over 76,000 notes, in database, spreadsheet, and text formats, for IBM compatible computers.

Rare Silver Certificate Invert

3111 \$2. Fr.251. 1899. No.D4584441. **Choice EF.** A beautiful, fresh note with an Inverted Back. From a decades old sale, inexplicably graded VF. This note is fully crisp and original, with only two vertical folds - solidly in the EF range, if not better. **(\$2,000-3,000)**

This rare invert has little prior history - its only public appearance was in a Kagin sale over twenty years ago, where it brought \$500.

Finest of Three Known "\$3" Silver Certificates

3112 \$2. Fr.258. 1899. No.N68191167. **Choice Uncirculated** An extremely rare **Double Denomination** note, with a \$1 Back. A bright, crisp and fresh note with good margins. This is **one of only three double denominations known** for this type; the other two are from the same sheet as this one, and both are very well circulated. The "A" position note (VF) is permanently impounded in the Smithsonian, courtesy of Chase Manhattan Bank, and the even worse "B" position note (VG) sold at auction for nearly \$5,000 ten years ago. With only two in private hands, and being the finer of the two by a very wide margin, this could well bring a runaway price. How could you ever hope to surpass it?

(\$60,000-80,000)
*This great note has had only two public appearances in the past 70 years: In Part II of Barney Bluestone's sale of the **Albert A. Grinnell Collection** on March 10, 1945, it sold as lot 1012 for \$305; On May 14, 1999 C.A.A. sold it as lot 646 for a modest increase over its previous appearance - \$55,000.*

3113 \$2. Fr.751. 1918. No.B3140291A. VF. An extremely rare FRBN Double Denomination "\$3 Bill." Three notes are known from this sheet: The "A" position note, also VF, and almost as nice as this, sold in September 1999 for over \$13,000. The "B" position note has been graded Good, Fine, and Fine/VF by three different firms (we haven't seen it, but from photographs it appears to be about the same as the other two). That note was last offered publicly over ten years ago.

(\$15,000-20,000)

The only recorded public appearance of this note was when Lyn Knight sold **Frank Levitan's Collection** on December 5, 1998. This note brought \$9,900 as lot 340.

3114 \$2. Fr.765. 1918. No.G1302447A. VF. A great FRBN Double Denomination \$3 Bill, with a long pedigree. Very slightly close at the top, but clean and undamaged. All four notes are known from this sheet, with grades ranging from a low of Fine to a high of VF/EF. The "A" and "D" position notes have been off the market since they last appeared in 1991, and the "B" position note has never been publicly available. The note offered here has been available only once in the past thirteen years. **Not only a highly desirable error, but obviously an incredibly difficult one to obtain as well.**

(\$14,000-18,000)

This great note is the plate note for the Donlon and Hessler works, and sports an illustrious pedigree: It first came to light in Abe Kosoff's Nov. 23, 1956 sale of **Donlon's personal collection**, lot 2010, where it brought \$950; it then appeared in Donlon's May 1971 sale, Mayflower's June 1974 sale, our sale of the **Brookdale Collection** in November 12, 1979 (realizing \$6,000), and Stack's March 1991 sale of **Jim Thompson's collection**. Its latest appearance was in the Goldberg February 16, 2001 sale, where it brought \$11,500.

- 3115 \$5. Fr.868. 1914. No.G15011192A. CU. A high grade Double Denomination FRN, with a \$10 back. From Frank Levitan's fabulous collection, where it brought \$27,500. Graded there as CU, with light handling, the worst part of the handling is a corner fold at the lower right, not really of any consequence on a note of this caliber. There are three other "**\$15 Notes**" with serial numbers near this one, plus four from another sheet. **This lovely note is indisputably the finest of the eight known**, in most cases by a wide margin.

(\$30,000-45,000)

This impressive note comes from Stack's August 24, 1976 ANA Convention sale @ \$4,000 to Donlon's March 31, 1978 sale. It was purchased there by Frank Levitan, who held it for over twenty years until Lyn Knight sold his collection on December 5, 1998. This note was lot 341 at that sale, and brought \$27,500.

- 3116 \$20. Fr.964. 1914. No.A1851505A. AU. A great "**\$30**" Double Denomination, with a \$10 back. The top note from Herman Halpern's cut sheet, all of which were identical EF-AU notes when this cataloguer wrote them up in 1993. Most would today agree on a grade of a solid AU for all four. The "B" position note has since sold for \$30,250 in May 2001, the "C" position note for \$31,900 in October 1999, and the "D" position note for \$40,250 in a February 2003 sale (where it had magically transformed from EF-AU back to its original issued state of "Gem CU"). That sale did correctly note that this is "**one of the greatest errors and coolest large size notes available.**"

(\$35,000-50,000)

This note comes from a cut sheet that first appeared in Syracuse, NY dealer Barney Bluestone's legendary sale of the Albert A. Grinnell Collection. The sheet sold for \$3,550. It then appeared in Federal Brand's 1957 ANA Convention Sale, and Kagin's June 1981 Memphis Sale. It last appeared as a cut sheet when Stack's sold Herman Halpern's Collection on March 17, 1993. The sheet was then broken up, and this note realized \$29,000 in Lyn Knight's November 14, 1997 sale, lot 606.

U.S. Small Size Error Currency

Very Rare "\$11 Dollar" Double Denomination Double Error

3117 \$10. FRN. 1950A. No.B52620340D. An extremely rare major double error - the back is not only a \$1, but a Silver Certificate as well. Reasonable centering on the face, the back a bit high and left as usual for these. Although technically EF, it looks much nicer. **The rarest Small Size double denomination**, and the most exotic of all. This error first surfaced in New York City in the spring of 1955, and nearly fifty years later error expert Harry Jones estimates that **only six exist**, a figure in agreement with our census. Only one other example has sold in the past decade, and it brought \$28,600 five years ago. We cannot help but feel that this is **without question the most desirable of all Small Size Error Notes**, and given the extreme rarity of the note and how infrequently it is available, we expect considerable bidding for this prize. EF.
(\$40,000-60,000)

This very rare error first came to light in **Hans Schulman's** May 26, 1970 sale. The Schulman catalogue detailed the discovery of this note as follows: "In the spring of 1955, a charming young woman was surprised to note, after a few counts, that there were two different totals in her pay envelope - \$120 at times and \$111 when the bills were turned over. Close examination ferretted out the culprit, a bill with \$10 on the face and \$1 on the reverse. Mrs. O'Connor, the heroine of our tale, did a bit of checking, and subsequently received many offers of purchase for the misprinted bill. The bookkeeper who issued the pay envelope offered to take the bill back to the Manufacturer's Trust Co. branch at 221 Fourth Ave. in New York City to exchange it for a "good" bill. This Mrs. O'Connor refused, preferring to hold it as a souvenir." It then sold in **Stack's 1976 ANA sale**, where it brought \$5,000. It last appeared in Lyn Knight's December 1998 sale of the **Frank Levitan Collection**, where it realized a record \$30,800.

- 3118 \$5. FRN. 1934D. No.J43180817A. A Double Denomination, with a \$10 Back. Choice Uncirculated, nearly Gem. This is without doubt the most famous of the Double Denominations, and the most available. We've tracked 33 of these, but we've also seen estimates of a population that exceeds 100 pieces, making this the perfect choice for those desiring a sample Double Denomination for an error set. This one is as nice as any we've seen, and should bring a price commensurate with that fact. **Gem Uncirculated. (\$15,000-22,500)**

There have been about a dozen sold in the past decade, ranging from EF to Choice Uncirculated. The nicer ones (like this one) have brought \$16,500 at the Levitan Sale in 1998, and \$17,050 in the Memphis 2000 sale, while the lowest prices in that time frame have been in the \$9,000 to \$12,000 range for less desirable examples.

- 3119 \$10. FRN. 1928A. No.E04744279A. An Extremely Rare Double Denomination Note, with a \$5 Back. This is the first Small Size Double Denomination note to be "issued," and is comparable in rarity with the \$10/\$1 above, with seven now accounted for. Uncirculated, and nearly Choice, with just a pinpoint brown spot in the left margin. The grades of the seven range from EF/AU to a few Uncirculated notes, but we've not seen a single one nicer than this example. This exceptional error will enhance any serious collection, particularly in the eyes of knowledgeable collectors. **Unc. to Choice Unc. (\$35,000-45,000)**

These predate the \$10/\$1 in the numismatic market place, with several tracing their pedigree back to Albert A. Grinnell. This one comes to us from the Frank Levitan Collection, sold by Lyn Knight in December 1998. It sold there as lot 343, for \$27,500.

3120 \$20. FRN. 1974.

No.K46458252B. A

Double Denomination,

with a \$10 Back.

Choice Uncirculated,

Gem but for the close

right margin. One of the

nicer known examples of

this rare error that first

came to light shortly after

it was issued. This

example comes from

Lyn Knight's August 1999 sale, where

it sold for \$16,000. Given that its last

sale was five years ago and this remains

one of the nicer ones around, we expect

it to do better today. **Gem Uncirculated.**

(\$20,000-30,000)

This rare error has an interesting and

somewhat "checkered" past. At the time of

issuance the government investigated and

determined that 160 pieces (five sheets) had

been printed, and that 40 notes had entered

circulation. The serial number range of the

known pieces indicates this is a bit low, yet very few have been seen in the numismatic auction market. Error guru Harry Jones

reports that he purchased 18 that were discovered at a supermarket in 1974, all EF.

- 3121 \$5. FRN. 1981. No.J23722004B. The back and the overprints on the face are normal, but the face engraving is shifted far left, showing a quarter inch of the next note to the right. **Choice Uncirculated**, with good embossing. (\$200-300)

Major STAR Error

- 3122 \$1. SC. 1957☆. No.☆75112480A. A large part of the lower left corner was folded onto the back when the back was printed. A large dramatic error that would bring a good price on a regular note - on a Star it is extremely rare. **Choice Uncirculated**. (\$300-450)
- 3123 \$20. FRN. 1990. No.G57591807C-13C. A spectacular run of **seven consecutive** notes with the left 40% of the back faint due to a board break. Finding even one note with this large a break is unusual - a consecutive run like this is as rare as it is spectacular. **Gem Uncirculated**. [7] (\$750-1,250)
- 3124 \$5. FRN. 1974. No.I85059501A-06A. Six consecutive notes with the face and back engraving far too low, showing part of the next note at the top (ranging from 1/8" to 1/4"), the overprints properly positioned. **Gem Uncirculated**. [6] (\$300-400)
- 3125 \$20. FRN. 1996. No.AG29154043L-047L. Five consecutive, each with a 5mm wide vertical **printing void** on the back, through the left edge of the White House. **Gem Uncirculated**. [5] (\$500-750)

- 3126 \$1. FRN. 1988. No.J95197405A-10A. Six consecutive notes, all with **the left 75% of the back blank**. **Choice-Gem Uncirculated**. [6] (\$600-800)
- 3127 1) \$1. 1974. No.I60896329A. The face has the top 60% covered by an offset impression of the back. **EF**.
2) \$5. 1985. No.L55208965A. The face has the left half covered by an offset impression of the back. **EF**. [2] (\$100-150)
- 3128 \$1. FRN. 1977. No.B97266684C. A perfectly centered, superb note, with a **full 100% dark offset impression of the back on the face**. One of the nicest we have ever handled. Along with this bold error is the consecutive note, No.B97266684C, with no offset. An unusual pair to say the least. **Gem Uncirculated**. (\$150-250)

Continental and Colonial Currency

Continental Currency

Lovely Fugio Note

- 3397 February 17, 1776 Resolution. **\$1/2**. No.323151. Vivid red Evans signature. The front features the sundial theme that appears on the obverse of the Fugio cents. The back consists of thirteen chain links, as on the reverse of the Fugio cents. Both designs are thought to have been suggested by Benjamin Franklin. Eagerly sought after in all grades because of their popularity with both coin collectors, and paper money aficionados. **Almost Uncirculated**, with narrow, but clear margins all around. The corners are very slightly rounded. **(\$400-\$600)**

- 3398 1) May 10, 1775 Session. **\$30**. **VF**, rounded corners. 2) February 17, 1776 Resolution. **\$1/2**. **VG-Fine**, rounded corners. [2] **(\$100-150)**

- 3399 **Act of May 9, 1776 Notes.** 1) **\$3**. Ash, Massey. Eagle and heron fight. **VF**, uneven margins, but clear all around. 2) **\$3**. Howard, Garrison. **VF**, heavy center fold, minor fold splits. 3) **\$7**. Massey, Ash. **About Fine**, rounded corners. [3] **(\$175-225)**

- 3400 May 9, 1776 Resolution. **\$4**. Leech, Howard. Wild boar. Inverted bottom border (all of the other denominations in this series have the top border normal, and the bottom inverted. On this issue the bottom border is normal). Issued within months of the Declaration. **AU**, trimmed just into the borders. **(\$100-150)**

- 3401 May 9, 1776 Resolution. **\$5**. No.52909. Gannon, Howard. Hand pricked by rose bush. **AU**, excellent centering on the front. There are a few very light stains. **(\$150-250)**

- 3402 **Continental Grouping.** 1) May 9, 1776 Resolution. **\$6**. Shee, Hazlehurst. Beaver. **EF**, one moderate center fold, trimmed close all around. 2) February 17, 1776 Resolution. **\$4**. Taylor, Norris. Wild boar. **Fine**, trimmed into the borders. 3) September 26, 1778 Resolution. **\$30**. Wetherill, Gray. Wreath. **EF**, one sharp center fold. Wide left margin, trimmed into the right border. [3] **(\$125-175)**

Jewish Signer

- 3404 November 2, 1776 Resolution. **\$7**. No.29155. **Benjamin Levy**, Branman. Rainstorm in a circle. The serial number and the signature of Benjamin Levy are bright red. - 3406** November 2, 1776 Resolution. **\$30**. No.49475. Coale, Johnson. Wreath. **Uncirculated**, would be Choice if it wasn't trimmed just into two of the borders. Crisp, sharp signatures. **(\$300-400)**
- 3407** February 26, 1777 Resolution. **\$3**. No.50352. Coale, Johnson. **Choice Uncirculated**, Gem but for a few very light toning spots on the back. **(\$350-450)**

Weapon of Economic Warfare

- 3409** February 26, 1777 Resolution. **\$30**. No.64910. Smith, Spear. Wreath. **A high grade contemporary counterfeit**, easily passed to the unwary, and a source of constant annoyance to loyal merchants. This is an excellent example, and every serious Colonial collector should have at least one contemporary counterfeit in their collection for comparison purposes. **Choice Uncirculated**. **(\$425-525)**
- 3410** May 20, 1777 Resolution. **\$6**. No.20204. Elms, Welch. Beaver. **Contemporary counterfeit**. This was the first series to bear the motto "The United States". The counterfeiters went right to work and created their own notes that look, in some respects, better than the originals! Would be Choice except for the centering, which is a bit off to the left. **Uncirculated**. **(\$275-350)**

- 3411** May 20, 1777 Resolution. **\$7**. Notes from this series, the first to use the words UNITED STATES, are harder to find than recent price levels indicate. **VG-F**, rounded corners, faded serial number and signature. **(\$75-150)**

Strictly Original Yorktown Note

- 3412** April 11, 1778 Resolution. **\$30**. No.22720. Ryves, Cist. Harp. Counterfeiters had a field day with this entire issue, and it was called in for exchange. Genuine Yorktown issues in this grade are quite scarce. **Choice Uncirculated**. **(\$1,500-2,500)**

- 3413** September 26, 1778 Resolution. **\$5**. Counterfeit detector on gray paper. Ex. NASCA's May 1979 Elliot sale. **VF-EF**, with a huge right margin, and three other clear margins all around. Small mounting remnant and age toning spot on the back. **(\$300-500)**
- 3414** September 26, 1778 Resolution. **\$5**. **Choice AU**, perfectly centered, very pleasing. **(\$100-150)**

- 3415 September 26, 1778 Resolution. \$8. Counterfeit detector on gray paper. Ex. Pine Tree's September 1985 Walter Breen sale. **VF-EF**, clear, but narrow margins all around. (\$300-500)
- 3416 **Act of September 26, 1778 Notes.** 1) \$8. No.139653. Cather, Snowden. **EF**, one light center fold, but there are some age toning spots. 2) \$7. **EF**, similar to previous with pin holes. [2] (\$175-250)

High R7 Early Indent

- 3423 Indents of 1782-1787. \$2. No.17416. J. Hardy. September 27th, 1785. **AT INTEREST** watermarked indents. These notes were receivable for taxes. Note the space left for the fractional parts of a dollar. Before agreeing on the decimal-based denominations that we use today, Congress debated whether or not to have ninetieths of a dollar as the smallest units of exchange. That would have made these units equivalent to one English Pence, as they were then trading at the rate of ninety pence to one Spanish Milled Dollar. A very scarce form, perhaps four or five known. Professional restoration of the left indent and a body hole resulting in a nice impression of what this early Continental note originally looked like. **EF**, in appearance. (\$7,500-10,000)

Colonial Currency

- 3424 **Connecticut.** June 19, 1776. **1s 6d**. No.19143. Wyllys. **Uncirculated**, corners slightly rounded. Not cancelled, thus scarce. (\$150-250)

- 3425 **Connecticut.** June 19, 1776. 1s 6d. No.19178. Wyllys. **Uncirculated**, corners slightly rounded. Not cancelled, thus scarce. (\$150-250)

- 3426 **Connecticut.** June 19, 1776. 1s 6d. No.19178. Wyllys. **AU**, corners slightly rounded. Not cancelled. (\$100-150)

- 3427 **Connecticut.** June 19, 1776. 2s 6d. No.6446. Wyllys. **Uncirculated**, trimmed close. Not cancelled, thus scarce. (\$150-250)

- 3428 **March 1, 1780 Notes.** 1) 5s. **EF-AU**, COC. Fold split. Somewhat faded on the front. 2) 20s. **AU**, COC. Split. Foxed on back. Edge chip. [2] (\$100-150)

- 3429 **Delaware.** January 1, 1776. 18d. No.30578. **AU**, mounting remnant on back. (\$175-250)

- 3430 **Delaware.** January 1, 1776. 4s. No.79958. **Uncirculated**, light, even, age toning. Nice margins. (\$275-350)

- 3431 **Delaware.** January 1, 1776. 6s. No.67511. **Gem** **Uncirculated**, with spectacular wide margins. Museum quality. (\$500-750)

- 3432 **Delaware.** May 1, 1777. 20s. No.17525. Scarcer than the January 1776 issue. **AU**. (\$275-375)

- 3433 Delaware. May 1, 1777. 20s. No.31069. A premium quality example of this scarcer issue. **Choice Uncirculated.** (\$500-750)

- 3434 Georgia. 1773. 20s. No.6894. An exceedingly rare, fully signed and issued example. **EF**, in appearance. The vertical center fold has been professionally restored. (\$3,000-5,000)

- 3435 Georgia. 1776 Maroon Seal. \$8. No.1232. A very pleasing Georgia note with a sharply printed deep maroon Liberty Cap seal. Very attractive, and always popular. **EF**, cut into the left border, but this is hardly distracting. Trimmed just into the right border. Professional repairs to minor splits are virtually invisible, and are mentioned just for accuracy. (\$1,750-2,250)

- 3436 Georgia. 1776 Light Blue Seal Dollar Denominations. \$1. No.4361. Bard, LaVier, Telfair. Blue Liberty seal. Red and black text. Bright and crisp with a boldly accomplished blue seal of a woman holding the scales of Justice. This example looks **Uncirculated** from the front. On very close inspection there are a few faint, almost invisible vertical folds that may have been in the paper when made. With **Very Choice** examples selling for multiples of this estimate, this may be a real opportunity to obtain an attractive, but affordable Georgia note for your collection. **Choice AU**, trimmed into the left border. (\$2,500-3,500)

“...for the Support of the
Continental Troops...”

- 3437 Georgia. June 8, 1777 Resolution. \$4/5. No.7. Question mark border variety (type a). A center fold split has been professionally repaired and is hardly detectable. **EF-AU**, repaired. (\$1,750-2,250)

- 3438 Georgia. 1777 June 8, 1777 Resolution. \$4. No.24.** Red stag and "IN", and scarcer variety. At first glance, this note appears to be in new condition, with borders all complete. The stag is clearly represented. It is the perfect example for a museum display, or for the Colonial specialist who wants an attractive Georgia note but doesn't want to pay a great deal of money for it. **EF** in appearance, restored upper right hand corner. **(\$1,250-1,750)**

- 3439 Georgia. June 8, 1777 Resolution. \$5. No.33.** Rattlesnake. Red and black text. Despite the fact that the seal is lightly printed, this note is one of the highest grade examples we have seen of this very popular type. With Choice Uncirculated Georgia notes priced into the five-figure range, it should be a good value anywhere within our estimate range. **AU**, small edge split repair at bottom. **(\$1,750-2,250)**

- 3440 Georgia. 1778. \$20. No.2676.** Huge jumbo margin to the right, and the others are ample to generous. **Choice AU**, with one light bend through the rattlesnake seal. **(\$6,500-9,500)**

Maryland's First Issue

- 3441 Maryland. 1733. Uncut Sheet of Fifteen Shilling Notes.** Un-numbered and unsigned remainder sheet of five fifteen shilling notes. "Maryland" watermark. The first and last notes are missing pieces, the second through fourth are virtually complete. Individual remainders are worth somewhere in the area of \$400-\$500. **Not often encountered in sheet form.** **(\$1,000-1,500)**

- 3442 April 10, 1774 Grouping. 1) \$2/3. 2) \$4. 3) \$6. [3]** **(\$250-350)**

- 3444 Maryland. August 14, 1776 Session. \$6. No.3021.** **VF-EF**, slightly rounded corners. **(\$150-250)**

- 3445 Maryland. August 14, 1776 Session. \$6. No.9173.** **EF-AU**, slightly rounded corners. **(\$175-250)**

Codfish Note Engraved by Paul Revere

- 3446 Massachusetts. October 16, 1778. 8d. No.5826.** Codfish. Difficult to grade, because this note has had some minor professional repairs. There are no apparent folds, but there are signs of wear on the edges, and the front is not quite as sharp and crisp looking as the back. Still, a very nice example of this popular type. **VF-EF.** **(\$500-750)**

- 3447 Massachusetts.** May 5, 1780 Act. \$20. No.25071. A wonderful example of this "Guaranteed by the United States" issue. **Choice Uncirculated**, with a small, diamond-shaped cut out cancel. Nicely centered, brilliant red and black. Signed on the back by Boyer. **(\$100-150)**

Rarer Than the 1690 Massachusetts Notes!

- 3448 Massachusetts.** 1781 Written Dates. \$16. No.3042. Signed by Henry Gardner, Daniel Howland on the verso. Only the second example we know of. This issue is listed in *Newman* but **unpriced in any grade**. It also appears in *Anderson*, where it is listed as MA-28, "Unknown". **There are no other \$16 Colonial notes in any other series.** Rarer than the 1690 Massachusetts issue that has now exceeded the \$100,000 mark at auction, and worthy of very serious consideration by the any advanced Colonial collector. **EF**, with a trace of age toning. Hole cancelled. **(\$4,000-6,000)**

Uncancelled New Hampshire

- 3449 New Hampshire.** November 3, 1775. 40s. No.263. Gilman, Hobart. Boldly printed, with three nice margins, and an indent at left. *Newman* listed this variety as a contemporary counterfeit, but there is some debate as to whether or not this is true. It may have come from a different print run. The opportunity to own an uncanceled New Hampshire note is rarely encountered. Don't miss it. **(\$1,000-1,500)**

Choice "Guaranteed By the United States"

- 3450 New Hampshire.** April 29, 1780 Act. \$4. No.35061. Vivid red and black color. Signed on both sides. This note appears to have been cut from a sheet that was folded between the notes. It is hard to imagine a better example! **Choice Uncirculated**, hole cancelled. Choice full margins on the front. **(\$2,000-3,000)**

- 3451 New Jersey.** June 22, 1756. 1s. No.4642. A bright, fresh, crisp example. You may not encounter a better one for years. **Choice Uncirculated**, and very close to Gem. **(\$300-450)**
- 3452 New Jersey.** May 1, 1758. 30s. No.4650. Red and black. Tougher issue. **VF**, rounded corners. **(\$150-250)**
- 3453 New Jersey.** December 31, 1763. 18d. No.4502. **Uncirculated**, rounded corner tips. Light, even age toning. Strictly original. **(\$150-250)**
- 3454 New Jersey.** December 31, 1763. 1s. **Choice Uncirculated**, Very bright and crisp. Strictly original. **(\$200-300)**
- 3455 New Jersey.** December 31, 1763. 12s. No.2220. Another strictly original example. **Choice Uncirculated**. **(\$250-350)**
- 3456 New Jersey.** December 31, 1763. 15s. No.1645. **Uncirculated**, some minor age toning, and trimmed slightly into the top and bottom borders. **(\$200-300)**
- 3457 New Jersey.** March 25, 1776. 6s. No.10373. Plate B. Large coat of arms. Defective nature print and light paper mounting remnant on back. **VF-EF**. **(\$75-125)**

- 3458 New Jersey.** March 25, 1776. **12s. EF**, slightly rounded corners, and some light soiling on the back, but quite presentable. **(\$100-150)**

Gorgeous Red and Blue Note

- 3459 New Jersey.** March 25, 1776. **£3. No.505.** Boldly printed. Only the 3 Pound and 6 Pound notes of this series are red and blue. Issued within months of the Declaration of Independence, beautifully engraved, colorful, and very popular. **AU**, just a bit of light handling. The corners are slightly rounded. **(\$750-1,250)**

Beautiful Red and Blue "Rittenhouse" Note

- 3460 New Jersey.** March 25, 1776. **No.2717.** Uncirculated at first glance. Rittenhouse, the engraver, was so proud of his work that he placed his name in the red border design. One of the most beautiful Colonial issues, and constantly in demand. This example has three wide margins, and the fourth is narrow but clear at the top. **AU**, a tiny repaired edge split. **(\$750-1,250)**

- 3461 New York.** March 5, 1776. **\$1. No.1901. AU**, very crisp. Just a hint of light, even age toning, and the corner tips are rounded. It has the look and feel of an Uncirculated note. **(\$300-450)**

Scarce New York City Change Note

- 3462 February 20, 1790.** Corporation of the City of New York. **One Penny. VF**, with wide margins all around. A light stain near the top on both sides, otherwise choice for the grade, and rarely found this nice. **(\$600-900)**

Rare New York City Change Note

- 3463 February 20, 1790.** Corporation of the City of New York. **One Penny. About Fine**, with adequate margins all around. **(\$300-500)**

Another Scarce New York City Change Note

Ex. Chris Schenkel

- 3465 February 20, 1790.** Corporation of the City of New York. **Three Pence. EF.** A wonderful pedigree, Ex. Bowers and Merena November 1990 Schenkel Collection sale. Genuine notes from this series are quite scarce. **(\$750-1,250)**

Premium Quality Elizabeth, New Jersey Note

- 3466 March 25, 1790. One Penny.** Borough of Elizabeth. Unprinted in *Newman*. These small denomination notes would have circulated extensively, and their survival rate in higher grades is very low. **EF**, nicely centered on the front, with ample margins. **(\$1,200-1,500)**

- 3467 North Carolina.** April 23, 1761 Act. **1s.** Only 5,000 were issued. Scarce. **Fair**, a piece missing from the bottom near the center, and another piece missing near the top center. Backed. Still, **Rare.** **(\$150-250)**

Unique Blank Back North Carolina Note

- 3468 North Carolina.** April 23, 1761 Act. **20s.** No. 4920. The back of this unusual note should be blank, but the right border design from another note is clearly present. Colonial errors of this type are rarely encountered, and should clearly command a large premium. **Choice AU**, trimmed into the borders on three sides. **(\$1,000-1,500)**

- 3469 North Carolina.** December 1768 Act. **40s.** No. 2934. **VF-EF**, split, repaired. Wide left and bottom margins. **(\$275-350)**

Beautiful North Carolina Uncut Sheet

- 3470 North Carolina.** December 1771 Act. No. 7496. Uncut Sheet comprised of one note each of the **2s6d, One Pound, and 10 Shilling** denomination. All of the notes have lovely margins. The are two pin holes in the **2s6p** note, as is typical. The paper is very crisp, clean, and fresh. The last two notes are real **Gems, virtually unimprovable. Uncirculated.** **(\$1,250-1,750)**

- 3471 North Carolina.** December 1771 Act. **£2.** No. 893. Bird with olive branch. A boldly printed, nicely centered note with great eye appeal. Only 5,000 were issued. **VF-EF**, professionally restored fold split. **(\$400-600)**

- 3472 North Carolina.** December 1771 Act. £3. No.1582. Magna Carta. The vignette and border design are very well executed. **AU**, carefully repaired minor edge splits. **(\$400-600)**

- 3473 North Carolina.** April 2, 1776. \$5. No.6514. Triton. **EF**, crisp, and with no apparent folds. Nicely centered and attractive. There are some minor edge splits that have been professionally repaired. **(\$450-650)**

- 3474 North Carolina.** 1778 (August 8, 1778 Act). \$1/2. No.3227. "Behold! A New World." 100,000 were printed, but these lower denominations circulated extensively, and nice examples are hard to find. **AU**, rounded corners, and minor age toning. Three clear margins. **(\$300-500)**

Superb Bank of North America Three Pence

- 3500 Pennsylvania. August 6, 1789. Bank of North America. 3 Pence (Three Ninetieths of a Dollar). Printed on polychrome "marbled" paper obtained from Benjamin Franklin. Only 4,000 were emitted. Franklin discovered this paper while on his diplomatic missions to France. He issued official drafts on this paper, liked it, and brought some home to be used for making bank notes. There was a great deal of debate over whether the new United States coins would be denominated in hundredths of a dollar, or ninetieths. Fortunately, the proponents of a decimal system won out, or we would probably need to use calculators to handle even the simplest everyday transactions. A premium quality note, worthy of a premium bid. Gem Crisp Uncirculated. (\$3,000-4,000)

Organized in 1793 under the auspices of John Nicholson, Robert Morris, and James Greenleaf, this company controlled over 4 million acres of land in the Carolinas, Pennsylvania and New York. The demand for land never materialized at the predicted rate, and the scheme collapsed in 1798 along with the rest of Robert Morris' empire. Morris, who was the financial hero of the American Revolution, ended up in debtors prison where his influential friend, George Washington, could only visit, and console him.

Issued to Aaron Burr

- 3532 Pennsylvania Population (PA) 1794. One Share.** Issued to Aaron Burr. Signed by **John Nicholson** as president, **Tench Francis** as treasurer. **VF**, with a small piece out of the wide lower margin, and a fold junction hole. **(\$1,500-2,500)**

The Pennsylvania Population was a land speculation by John Nicholson. He gambled on the possibility that European aristocrats would flee to the Continent after the French Revolution and relocate in America. The aristocrats never came, and John Nicholson was stuck with over one million acres of Pennsylvania territory. The firm collapsed in 1800, and it took more than fifty years to untangle its affairs. Whether Aaron Burr was simply making a personal investment, or whether his political influence was being sought on behalf of the Company is unclear. Most of the Pennsylvania Population certificates are in institutional hands, and may never become available to collectors.

Automobile Certificates

3548 Checker Cab Manufacturing (NJ) 1932. #20499. 100 shs. Orange. Checker cab flanked by allegorical females. VF+. (\$200-300)

3549 Chevrolet Motor (DE) Specimen. 100 shs. Green. Shield flanked by pair of allegorical men. ABN. EF. (\$300-500)

This is only the second specimen we have handled from this important auto maker in over a decade. The Chevrolet was intended to be the car with which William C. Durant intended to regain control of General Motors. Durant contacted Louis Chevrolet, a successful racer on a team that Durant put together while at Buick, with the idea of building a light French type car. Since the name Chevrolet was well known in the automotive world he was the man for the job. The first Chevrolet rolled off the production line in the Summer of 1912. The Chevrolet would go on to compete head on with Ford's model T and become one of the best selling cars in the world.

Please note that a 15% buyer's premium will be added to each lot purchased.

3550 Dodge Brothers (MD) Specimen. Shares. Red. Allegorical man with factories in the distance. ABN. EF. (\$500-750)

At the turn of the century, John and Horace Dodge supplied engines, transmissions, and axles to automobile assemblers such as Ransom Eli Olds and Henry Ford. In 1914, John and Horace decided to manufacture their own cars. Their early models were well-received, and decades of automotive success followed. By 1925 the Dodge Brothers were dead, and their widows were ready to sell their shares in the business to outsiders. The buyer was Dillon, Read and Company, and the price was \$146 million dollars, the largest cash transaction in the history of industrial finance up to that point. The importance of this example cannot be exaggerated.

George M. Hendee and C. Oscar Hedstrom, both former racers, pooled their resources and formed the Hendee Manufacturing Company in 1901. The name of the company was later changed to the Indian Motorcycle Company in Springfield, Massachusetts. The Indian was the first commercially marketed gasoline powered motorcycle manufacturing company in the U.S. The company also manufactured airplane engines and experimented with automobiles.

Vanderbilt, Lolita Armour, General John Pershing and others.

3553 Keely Motor (PA) 1884. #8402. One share. Green. Semi-nude woman seated with engine. Portrait of Keely, bottom. Minor fold splits, VF.* (\$300-500)

It was the oldest trick in the book, and reminiscent of something more appropriate to a circus sideshow. Keely claimed to have created an engine that ran on water, but the real power source was a colleague hidden in the cellar, turning a crank that made the demonstration model move. No one was allowed to inspect the model closely, for fear that the secret of Keely's great invention might be stolen. The investors swallowed the idea hook, line, and sinker, but like all frauds of this nature, Keely was eventually exposed. While not strictly related to automotive endeavors, we speculate that somewhere in his outrageous claims Keely may have suggested that his motor might move a self-propelled vehicle of some sort.

Issued to John Enrico of New York. Ross' grant was taken over by Ogden, Jackson & Curtis, the gentlemen who signed this certificate as trustees. A mere 123 were authorized. Fort Sumter is located on a shoal at the entrance of Charleston, South Carolina and is named for Revolutionary General Tomas Sumter. The Fort was the scene of the opening engagement of the Civil War. Upon passing the Ordinance of Secession in December 1860, South Carolina demanded all federal property within the state, particularly the forts of Charleston harbour - Fort Sumter, Fort Moultrie and Castle Pickney.

On December 26, 1860 Major Robert Anderson removed his U.S. army command of about 100 men to Fort Sumter the strongest defensive site. In February 1861 the newly organized Confederate government sent P.G.T. Beauregard to command Charleston. On April 11, Beauregard called for Anderson's surrender, but the demand was refused. After a 34 hour bombardment commenced on April 12, Anderson surrendered and the Civil War had begun. After Sherman forced the evacuation of Charleston, the U.S. flag was again raised over the fort by Anderson on April 14, 1865.

- 3584 Bill of Exchange (Republic of Hawaii) 1870. Honolulu. \$1400.** Ornate border. Issued to and signed on the reverse by **Alexander J. Cartwright. VF+.** (\$1,000-1,500)

Alexander J. Cartwright (1820-1892) was the man who invented modern baseball. Cartwright and the members of his New York Knickerbocker Base Ball Club, devised the rules and regulations for the modern game of baseball. The game was based on the English game of Rounders, where the game was called "townball", "base", or "base ball". Cartwright drew up new rules to make the game into a more elaborate and interesting sport to be played by adults. Elements that he devised included four canvas bases 90 feet apart, foul lines, three outs, nine players including the shortstop, and tagging out.

The first recorded baseball game was played in 1846 when Cartwright's Knickerbockers lost to the New York Baseball Club. The game was played at the Elysian Fields in Hoboken, New Jersey. Cartwright later went to the goldfields of California and later for Hawaii where he would eventually become a wealthy merchant. He took his bats and balls with him and continued to promote and play baseball wherever he went.

3633 Western Pennsylvania Exposition Society (PA) 1889. #685. \$100. Life Manager. Large and ornate exhibition hall. Small hole upper right, VF+.* (\$175-250)

In 1754 a small band of pioneers, British soldiers, trappers and Indian guides, pushed through a trackless forest, over the Allegheny mountains, under urgent orders, to a small plot of ground at the confluence of three rivers. The group stopped at the "The Point" and founded what would become Pittsburgh. On that spot the Western Pennsylvania Exposition Society was also founded to bring cultural, social and scientific events to the community. It achieved great success but eventually the exposition closed in 1919 as an indirect result of World War I.

3634 William S. Pierson (NY) 1846. Share certificate. Unissued. Black on blue paper. An extremely unusual piece of history. EF. (\$175-250)

This was a classical scam, in an era marked by some ingenious examples of that art form. Abraham G. Thompson claimed to have a map marking the location where Captain Kidd had sunk a vessel containing his loot. Since Kidd did his looting in the Indian Ocean, and such money as he got (he was a notoriously incompetent pirate) was spent there, this was pure fiction that could only fool the ignorant. To give credit to this otherwise bald and unconvincing narrative, the site in the Hudson River near Dunderberg mountain was salted with some treasure pieces which the promoter claimed to have fished up. The scheme gave total discretion to the promoters as to how the funds were to be spent, thus giving the shareholders no recourse to recover their subscription. The chief purpose of this scheme was to pocket the down payment of \$25 per share.

3635 World's Columbian Exposition (IL) 1892. #3486. One share. Green. Woman on wheel races an eagle, train and cars beneath. Fairgrounds underprinted. VF+.* (\$400-600)

The Edson Archive Collection

The following material all originally came from the estate of Tracy's wife Mary Edson. **Tracy Robinson Edson** (1809-1881) was born in Fly Creek, Otsego County, New York. He was trained in engraving with Rawdon, Clark & Co in Albany and in 1827 moved to New York City with that firm. In March 1832 he joined the companies of Rawdon, Wright & Hatch, and Rawdon, Clark & Co. By 1825 he represented the Boston, Cincinnati, New Orleans and Philadelphia offices of Rawdon, Wright & Hatch. In 1857 Edson secured the rights to George Matthews anti-photographic green ink process. This ink could not be erased without adversely affecting the black ink which was revolutionary at the time and formed the basis of the ink used in our paper money of "Greenbacks". Edson went on to help form the American Banknote Company serving as its president from 1860-1863 and a board of director until 1878. Tracy R. Edson was truly a remarkable and pioneering engraver and businessman.

- 3636 Tracy R. Edson Cabinet Card** Striking sepia toned albumen cabinet card depicting engraver Tracy R. Edson in a 3/4 bust pose. Overall 4 1/4" x 6 1/2". Imprint of W. Kurtz, Madison Square, New York. Small tear in bottom margin not affecting image. VF.

(\$250-350)

- 3637 Pass Through Confederate Lines** (Washington) Nov 25, 1861. Issued by the Headquarters City Guard Provost Marshal's Office. Reads "That the bearer Tracy R. Edson, Sister and Driver, has permission to pass over Bridge or Ferry into Virginia and within the lines, and back for the purpose of Important Business until Tomorrow Night being subject to the inspection of guards or patrols." Signed by **Tracy R. Edson** and **A. Porter**, Brig. Gen. U.S.A. Framed behind glass. Overall 6 1/2" x 9" Not examined out of frame. VF+.

(\$400-800)

It has often been suggested that Northern banknote engravers supplied the metal plates used in the production of some Confederate and southern currency. While we can only speculate what Mr. Edson's "Important Business" in Virginia may have been, it is certainly suspicious what went on in this overnight excursion into enemy territory on November 25, 1861.

- 3638 Passport** July 10, 1874. United States of America. Department of State. Issued to and signed by **Tracy R. Edson** and also signed by **Hamilton Fisk**. Document measures 12" x 18". Gives personal description of Edson. Including age 64, Stature 5 Feet 7 Inches, Forehead Broad; Eyes Hazel; Nose Medium; Mouth Large; Chin rounded and pointed; Hair grey; Complexion fair; Face oval; Lame with left leg. VF+.

- 3639 Articles of Agreement** Assignment regarding the sale of 52,000 shares of stock for \$30,000 from Albert H. Jocelyn to Tracy R. Edson. on May 29, 1865. Signed at the bottom by **Albert H. Jocelyn**. VF+.

Albert H. Jocelyn (1827-1900) began his career as an engraver in 1849. He was most noted for making woodcuts for magazine illustrations.

A Fantastic Group of American Bank Note Certificates

3640 American Bank Note (NY) 1896. #217. 2 shs. Scrip. Red and black. Columbia and Ceres, top corners. Eagle atop rock, bottom. ABN. VF+.* (\$750-1,250)

In 1858 the leaders among bank note engravers were prompted to do some sober thinking about the peculiar importance of their industry and its continuing responsibility to keep its dies, plates, techniques and records concentrated in the safe shelter of a strong institution. Until 1861 the United States Government did not issue paper money. This meant that banks and other financial institutions had to issue their own currency. Expanding capital markets created demand for new stock and bond certificate issues.

In response to these demands seven engraving firms united to form one company that would create some of the finest examples of bank note engraving the world had ever seen. The clear need for institutionalizing the practice of bank note printing led to the establishment of the American Bank Note Company (ABN) on April 29, 1858. It was comprised of seven principal bank note printers - Danforth, Perkins; Toppan, Carpenter; Draper Welsh; Bald Cousland; Rawdon, Wright, Hatch & Edson; John E. Gavit; Welstood, Hay & Whiting. The American Banknote Company would eventually produce currency for 123 countries and stamps for 25.

After about two years of prospecting Getchell turned to Bernard Baruch for financing. Production began in 1937 and the first bullion was poured in 1938. The company paid more than \$3 million in dividends from 1939-44. During WWII it was the largest gold producer in Nevada. In 1961 the Getchell was taken over by Goldfield Consolidated. Today the Getchell is still one of the great mines of Nevada.

William Randolph Hearst (1863-1951) was the son of George

Hearst. In 1887 he took over the San Francisco Examiner and turned the newspaper into a combination of reformist investigative reporting and lurid sensationalism. He employed the best journalists available including Ambrose Bierce, Stephen Crane, Mark Twain and Jack London. In 1895 he purchased the New York Journal. His use of promotional schemes and sensational stories became known as "Yellow Journalism". As a result of his exaggerated reporting he was blamed for the Spanish-American War of 1898. At his peak he owned 28 major newspapers and 18 magazines, along with several radio stations and movie companies. In the 1920s he built a castle on a 240,000 acre ranch at San Simeon, California, now referred to as Hearst Castle.

Millicent Hearst married William Randolph Hearst on March 6, 1903. Millicent's father was a moderately successful vaudevillian actor and she and her sister

were also active performers. Millicent and William had five children. She became estranged from her husband in 1926 with his increasingly open relationship with film actress Marion Davies. She established herself firmly in the social and political landscape of New York through her involvement in many charitable activities including leading the Committee of Women on National Defense during World War I and founding the Free Milk Fund for Babies. Other causes she worked for included crippled children and unemployed girls. She died in 1974.

A Group of Louisville, Cincinnati & Charleston RR

The earliest known railroad bond. In the late 1820's and early 1830's the success of the Erie Canal created an atmosphere conducive to promoting and building more canals, and railroads as well. While small railroads could be financed through the sale of shares to private investors, long railroads required the cooperation, and the financial backing of larger entities. The State of South Carolina was one of the first to realize the economic benefits that could be gained by aiding the construction of railroads, and the State loaned \$100,000 to the fledgling South Carolina Canal & Railroad Company (chartered in 1827) to build a 136-mile road from Charleston to Hamburg, which was completed in 1833. It was then the longest line in America.

In 1835, hoping to further improve the transportation of cotton from the Deep South Northward, a new railroad was chartered, the Louisville, Cincinnati & Charleston. In 1838, to encourage the expansion of the road to the state capital, Columbia, the State of South Carolina agreed to guarantee the issue of 200,000 Pounds of 5% Sterling Railroad Bonds for every \$500,000 worth of shares sold. The bonds, due in 1866, were to be sold in Europe through the Agency of the Bank of the United States. These are the first known state guaranteed railroad bonds. Because of the steadily worsening condition of the Bank of the United States, a second group of bonds was issued through a different agency, of the House of Mess.

Palmer, Mackillop, Dent & Co. of London. In his capacity as State Comptroller, William E. Hayne signed the back of each bond. His father, Robert Young Hayne, signed as president of the railroad. Robert Young Hayne (1791-1839) was U. S. Senator from South Carolina (1823-1832) and Governor of South Carolina (1832-1834). He was noted for his brilliant debate with Daniel Webster over the Nullification Doctrine in the Tariff Controversy of 1832.

As time went on the financial climate did not favor the cooperation of other states in expanding South Carolina's railroads. In 1844 the LCC became part of the South Carolina Railroad, which assumed the debt of the earlier company. The Confederate War prevented the South Carolina Rail Road from making interest payments, and in January of 1866 the bonds came due. Neither the State, nor the railroad could pay the principal. Instead, the bond holders were put off until 1871, and were asked to accept various oddly denominated Certificates of Indebtedness for any past due or future interest. In 1871 the South Carolina Rail Road issued 500,000 Pounds of new Sterling bonds, and exchanged them for the issues described above. The old bonds were cancelled and lay hidden for over a century until the recent discovery of a small group, said to have been brought in to the U.S. early in the last century from a European source.

- Completed in 1851, the 446 mile road from Piedmont on the Hudson River to Dunkirk on Lake Erie in New York State was then our country's longest railroad. In 1867 this bond was extended a second time to 1947. Also included is a New York & Erie RR 1897 Extension Contract. VF+. Through three Erie reorganizations the bond never faltered, and when redeemed in 1945, it had been the longest living rail bond issue. Since the parent bond issue bore no Trustees, the bonds were assumed by the State to secure a loan. Later they were sold to the public; hence Fillmore's involvement.

Condition Terminology

Unlike coins and paper money, the grading of stocks & bonds has not developed to the point where everyone agrees on or uses similar standards. The very nature of stocks and bonds defies a grading system based, for example, on wear, or folds.

Instead of trying to develop a strict grading system, we have used terminology designed to convey a strictly subjective impression of the items we endeavor to describe.

Fair – A certificate with extreme handling, fold splitting, stains, small pieces or tears.

Fine – Slightly below average. Folds may be heavy with splits slightly into the design elements, but with no pieces missing. More severe flaws will be mentioned.

Very Fine (VF) – The average grade of most of the stocks and bonds we encounter. A **Very Fine** share certificate will have several light to moderate folds, and the paper will show obvious wear or softness. Bonds that were originally folded by the printer may have several additional folds. There may be minor edge roughness, but any splits that extend into the designs will be described. Very light soiling is typical, but heavier stains or foxing will be mentioned.

Very Fine+ (VF+) – Obviously used or worn, but brighter or cleaner than the average example.

Extremely Fine (EF) – A well above average example. Stocks may show a few light to moderate folds. Bonds that were originally folded may have a few light to moderate extra folds. The paper will retain most of the original crispness and brightness. The margins will be free from noticeable edge splits, stains or other problems.

Extremely Fine+ (EF+) – As made, or nearly so.

“★” following a grade means there are no cancellations.

(np) indicates the item is not pictured.

3859 Sage, Russell

(\$500-600)

American financier and politician; initially found success as a grocery wholesaler; elected as a Whig to U.S. Congress; moved to New York City during the Civil War to involve himself in securities, especially railways; an ally of Jay Gould, he became director of several railways and telegraph companies; his widow used her inheritance toward acts of progressive philanthropy, including the founding of Russell Sage College, originally a school for women. Choice **Autograph Document Signed "Bates & Sage,"** 1 page, narrow oblong 8vo, Troy, [New York], June 21, [1853?]. He requests a Mr. "**Cash Esq., Sir, please deliver to the bearer Cyrus Amidon Note due to day for \$250...**" Age-toned and lightly soiled, with partial fold break at lower right corner, otherwise in good condition. Though infamous for pinching pennies, Sage was always ready to loan money, usually at very high interest; in 1869 he was even charged with loan sharking, but ultimately acquitted. A good early Sage document.

3860 Schell, Augustus

(\$100-200)

3861 Scott, Thomas A.

(\$1,000-1,250)

U.S. lawyer, railroad director, and political player; advisor to Vanderbilt and Gould; helped restore New York City politics after the fall of Tammany Hall. Partly-printed **DS "Augustus Schell,"** 1 page, oblong octavo, New York, 11/9/1869. He names Robert Niven his proxy to vote in the "**election of Directors of the Spuyten Duyvil and Port Morris Railroad...**" Very good.

American railroad president; rose from a job as a station agent for the Pennsylvania Railroad to lead the company; named the first Assistant Secretary of War at the outset of the Civil War, managing Union rail communications; a supporter of the southern route for a transcontinental railroad, he later ran the Union Pacific and the Texas Pacific lines. Excellent early **Autograph Letter Signed "Thomas A. Scott,"** 1/2 page, 8vo, on stationery imprinted

"Transportation Departm't. Penna. R.R.," Pittsburgh, August 5, 1854. He writes "**Dr. Sr., Enclosed please find Receipt & duplicate signed as you requested - deposit amt. due me in Lancaster Bank in accordance with directions sent you in mail of yesterday...**" Small fold at one corner, otherwise in very good condition. The Pennsylvania's own tracks between Philadelphia and Pittsburgh had been completed just months earlier, initiating service with three trains a day in each direction. Before the "Pennsy," the only route between those cities was via a complex system of rails and canals.

3862 Sherman, William T. (\$300-500)

Choice Autograph Document Signed "W.T. Sherman / General," 1 page, oblong narrow 8vo, Los Angeles, April 18, 1882.

A bank check by Farmer's and Merchant's Bank of Los Angeles in the amount of "Three hundred Dollars" drawn on his account with "Messr. Riggs & Co." of Washington. Official dockets and cancellations on verso. Slash cancellation touching but not obscuring signature. Spindle hole, otherwise in very good condition. An unusual check signed as "General".

3863 Stanford, Leland (\$400-500)

American railroad builder and politician; elected Governor of California in 1861; organized the Central Pacific Railroad with Collis Huntington, Charles Crocker, and Mark Hopkins; the Central Pacific joined with the Union Pacific in 1869, forming the first transcontinental railroad; later added the Southern Pacific to the lines he controlled; later a U.S. Senator; endowed Stanford

University. Exceptional partly-printed Document Signed "Leland Stanford" as President of the Central Pacific Railroad Co., 2 pages, legal folio, San Francisco, March 1, 1881. A deed, "in consideration of...Seventeen hundred and Eighty (\$1780) Dollars...the said Central Pacific Railroad Company, and the said James O'B. Gunn and Silas W. Sanderson, Trustees...do grant...A. Montgomery...Six hundred (600) acres..." in Tehama County, California. Also signed by Gunn and Sanderson, and a company secretary. Notarized on attached page. Beautifully printed and accomplished in black and gold ink, with gold notary and company seals. Scant foxing touching signature, otherwise in very good condition. A handsome document perfect for display.

3864 Taft, Robert A. [4] (\$150-250)

U.S. lawyer and politician; son of President William Howard Taft, U.S. Senator from Ohio; sponsor of Taft-Hartley act. Group of four TLS "Robert A. Taft," 1/5 to 1-1/5 pages, 8vo and

4 to 10, Cincinnati, 1928 to 1936. All are to Lewis L. Strauss of bankers

Kuhn, Loeb & Co., most on the finances of the Cincinnati Union Terminal Company. In the longest [3/9/36] he suggests issuing "3-1/2% bonds at par" to save "\$237,000.00 a year in interest" depending on what he can get the Interstate Commerce Commission to approve. The last [5/5/36] mentions campaigning in a primary election; Taft began in the Senate in 1938. Last tipped to a memorandum sheet, otherwise all very good.

3865 Secretaries of the Treasury: Chase and Others [5] (\$500-700)

Fine group featuring an onion skin press Copy [the Civil War-era equivalent of a carbon copy] of a Treasury letter dated June 10, 1863 regarding Confederate paper from a seized blockade runner. The letter states *"I have received your...copy of the appraisal of 752 reams of Bank Note Paper, letters C.S.A. being a part of the cargo of the prize steamer Bermuda...at 56 Cents per ream, to be used as material for new paper. This Department will purchase the paper at the above price...to be used as pulp or bands..."* and is signed in copy "S.P.C." by

Secretary of the Treasury Salmon P. Chase. This was the source of the CSA paper used for second and third issue Fractional Currency specimen notes. Some full sheets are still available to collectors, as the late Lester Merkin had the better part of a ream that he got from the Chapman estate. Age-toned, with small chips at edges, otherwise in very good condition. With three partly-printed Documents Signed by Secretaries of the Treasury "A.J. Dallas" and "William H. Crawford" [2], each 1 page, folio, Washington, 1815 and 1821. All are official Treasury documents remitting penalties assessed to vessels, Dallas's *"incurred under the...Act to interdict the commercial intercourse between the United States and Great Britain and France, and their dependencies"* during the last year of the century-long series of conflicts between Europe's two great powers. Dallas split cleanly along horizontal fold, all with edge wear and even age-toning, otherwise in very good condition. With Autograph Sentiment Signed "W. J. Duane / Philadelphia, February, 1839," on a 3/4" x 3" strip cut from a letter. Mounting traces, otherwise very good. Duane was dismissed by President Andrew Jackson for refusing to transfer federal deposits from the second Bank of the United States to state banks when the bank's charter was not renewed.

3866 Sherman, William T. (\$400-500)

Union general; made the infamous "March to the Sea"; considered the leading Union field commander in the Civil War; promoted Lieutenant General in 1866 and full General in 1869; succeeded Grant as Commander-in-Chief of the U.S. Armies. Choice Autograph Letter Signed "W.T. Sherman / General," 2 pages, 8vo, on imprinted "Headquarters Army of the United States" stationery, "St. Albans, Vt.," July 23, 1871. Writing to "Dear Huntington" [William S. Huntington] who is leaving for Europe, Sherman suggests several people for him to look up, hastily relating *"I got your dispatch last night and answered. This being Sunday, I am busy in answering the many letters that have been sent me from Washington, so that I feel somewhat in a hurry - but I have prepared a note for Mr. Curtin, and one to B. Moran our most valuable secretary in London, who has always been polite to all whom I have consigned to him. Don't fail to hunt him up in London, tell him what you want, and he will see*

that you have all the testimonials you require. Tell Smythe that in New York, I was a sort of

nurse, being in charge of my children. I called at his house but found nobody at home. I

shall try and

find some of the them on my return in August. Wishing you a good time..." Lightly age-toned. Mailing crease and manuscript receipt docket on first page. Otherwise in good condition. William

Spooner Huntington was a clerk in the U.S. Treasury Department in 1861, being recommended for that position by President Abraham Lincoln. Afterwards he became the Cashier at the First National Bank in Washington, D.C. and as such became acquainted with all the important Washington insiders.

3867 Tweed, William Macy "Boss"

(\$200-300)

Political boss of the powerful Tammany Hall district in New York City; during the post-Civil War years involved in numerous financial scandals that bilked the city out of untold millions; finally brought down by the famous editorial cartoons of Thomas Nast and the rising public furor they awakened, despite the generous bribes he bestowed to avoid his downfall. Choice **Endorsement Signature "W. M. Tweed"** as Deputy Street Commissioner, 1 page, narrow 4to, New York, ca. October 31, 1867. Second endorsement on the verso of bank check #4584 drawn on the National Broadway Bank in the amount of \$166.66 and payable to City Councilman "**Jas. Hayes,**" who endorses above Tweed's signature. Signed on recto by New York City mayor "**John Hoffman,**" the city comptroller and a clerk. With handsome vignette and ornate engraved identification at left edge that it is for the payment of legislative salaries. Age-toned, with cut cancellation not affecting signatures, otherwise in very good condition. Quite probably Hayes had signed the check amount over to Tweed.

Signed by Vanderbilt and Gibbons

3868 Vanderbilt, Cornelius [2]

(\$1,700-2,250)

American financier; founder of the family fortune; at the age of 16, he bought a boat and ferried passengers and goods between Staten Island and Manhattan, thereby earning himself the nickname "the Commodore;" he was authorized during the War of 1812 to transport provisions to regiments around the city and soon had a small fleet engaged in a river and coastal trade; in 1818, worked for Thomas Gibbons, a ferry-boat owner, whom he helped compete against Robert Fulton, who claimed a monopoly right for mail, freight and passenger service in the New York area, operating for years illegally; with Vanderbilt's support, Gibbons managed by 1824 to have Fulton's monopoly voided by the U.S. Supreme Court, under John Marshall's direction, in the landmark Gibbons v. Ogden case; amassed great wealth in shipping, and by 1862, turned his focus to railroads from which he enlarged his fortune considerably, making him one of the richest

men of his time. Choice **Manuscript Document Signed** by "**C. Van Derbilt**" and by "**Wm. Gibbons,**" 1-1/2 pages, legal folio, no place [New Brunswick, New Jersey], April 10, 1822. A statement of "**Cornelius Vanderbilt in account with the Steamboat Bellona,**" one of Gibbons' boats helmed by the future millionaire. Catering to commuters, it boasted highly competitive rates and on-board meals, as well as extended travel arrangements through stagecoach connections. The elderly Thomas Gibbons had put his partner and son William in charge of the steamboat operation by this time. This accounting record [balance sheet], covering October 1 - November 1, 1821, lists revenues on the left facing page and expenses on the right. Of the \$2594.67 expended, a considerable amount of money is shown as spent, as would be expected, on wood for fuel [coal not being much used until the early 1830's], as well as provisions for the dining room and the bar. Salaries for personnel on board are given, along with an outlay "**to William Gibbons on account**" for \$400.00. Revenues matching the amount of expenses include: "**893 passengers from N.B. to N.Y. - \$222.87-1/2; 492 Stage passengers from N.B. to N.Y. - \$368.65-3/4; 162-1/2 passengers from Amboy to N.Y. - \$20.69; 731 passengers from N.Y. to N.B. - \$90.25; 544 Stage passengers from N.Y. to N.B. - \$430.15-3/4...Receipts of Freight \$4.75; Receipts from Bar \$141.00; Receipts of [Dining] Table \$713.12-1/2**" Interestingly, although ridership had grown over six previous months, the present revenue from ticket sales is lower than it had been, indicating that Gibbons and Vanderbilt had slashed their fares. However, the increase in passengers meant that with bar and tale receipts, the *Bellona* took in over \$500 more in total revenue. Normal age-toning, otherwise in fine condition. An outstanding and very scarce document of Vanderbilt, capturing the young financial genius at age 28 in his lucrative steamboat environment. With partly-printed **Autograph Document Signed "A. Coles,"** 1 page, oblong narrow 8vo, New York, June 26, 1828. A check-format receipt for payment from the "**Steam-Boat Swan**" in the amount of 86.83 for "**Beef...sausages...clams...fish & Lobsters...Vegetables...**" In very good condition. The *Swan* was added to Gibbons's fleet in 1826. Two choice, early steamboat records of special historical importance.
